documents the early Portuguese explorations and conquests along the West African coast during the 15th century. Written in a prose style characteristic of medieval chronicles, the text weaves historical fact with narrative flair, presenting a vivid account of the encounters between Europeans and indigenous peoples. This work not only charts the ambitious endeavors of Portuguese explorers but also reflects the era's complex interplay of commerce, conquest, and cultural exchange, situating it firmly within the canon of exploratory literature of the Age of Discovery. Gomes Eannes de Zurara, a contemporary of the events he chronicles, served as a royal secretary and chronicler in the court of Prince Henry the Navigator. His close association with influential figures in the maritime expansion of Portugal provided him unique access to firsthand accounts and documents. Zurara's personal investment in this period of exploration, coupled with his commitment to literary craft, allowed him to shape a narrative that elucidates both the triumphs and moral ambiguities of colonial ventures. This monumental work is recommended for scholars and general readers alike, as it serves as an essential primary source for understanding the motivations and consequences of early European imperialism. *The Chronicle of the Discovery and Conquest of Guinea* offers a gripping lens through which to examine the profound historical transformations initiated by exploration, making it a vital addition to any library focused on world history.

This volume is intended for an introduction to the study of the epics. While the simplicity and directness of the epic style seem to make such a book unnecessary, the fact that to many persons of literary tastes some of these great poems are inaccessible, and that to many more the pleasure of exploring for themselves the realms of gold is rendered impossible by the cares of business, has seemed sufficient excuse for its being. Though the beauty of the original is of necessity lost in a condensation of this kind, an endeavor has been made to preserve the characteristic epithets and to retain what Mr. Arnold called the simple truth about the matter of the poem. It is believed that the sketch prefacing each story, giving briefly the length, versification, and history of the poem, will have its value to those readers who have not access to the epics, and that the selections following the story, each recounting a complete incident, will give a better idea of the epic than could be formed from passages scattered through the text. The epic originated among tribes of barbarians who deified departed heroes and recited legends in praise of their deeds. As the hymn developed, the chorus and strophe were dropped, and the narrative only was preserved. The word epic was used simply to distinguish the narrative poem which was recited from the lyric which was sung and from the dramatic which was acted. As the nation passed from childhood to youth, the legends of the hero that each wandering minstrel had changed to suit his fancy were collected and fused into one by some great poet who by his power of unification made this written epic his own. This is the origin of the Hindu epics, the *Iliad* and the *Odyssey*, the *Kalevala*, the *Shah Nameh*, *Beowulf*, the *Nibelungen Lied*, the *Cid*, and the *Song of Roland*. The conditions for

the production of the primitive epic exist but once in a nation's growth Its later epics must be written on subjects of national importance chosen by the poet who arranges and embellishes his material according to the rules of the primitive epic
