Cincinnati From River City To Highway Metropolis Oh Making Of America:

Cincinnati David Stradling,2003 For over 200 years Cincinnati citizens created a vibrant if at times volatile urban culture that frequently harkens back to its remarkable past in an effort to shape its future Once known as a great commercial port and pork packing center Cincinnati developed a diverse industrial economy in a bid to remain the West's Queen City It is a community familiar with change as new transportation systems evolved commercial activity shifted and poor race relations periodically erupted in unrest From Improvement to City Planning Henry C. Binford,2021-09-10 Offers a new perspective on early U S urban development showing how city planning movements of the post Civil War period were not just innovations in response to industrial urbanism but were also profoundly shaped by ideas and experiences of city living in the early republic

Architecture in Cincinnati Sue Ann Painter,2006 Publisher description

Keep On Fighting Dorothy H. Christenson,2015-07-15 Marian Alexander Spencer was born in 1920 in the Ohio River town of Gallipolis Ohio one year after the Red Summer of 1919 that saw an upsurge in race riots and lynchings Following the example of her grandfather an ex slave and community leader Marian joined the NAACP at thirteen and grew up to achieve not only a number of civic leadership firsts in her adopted home city of Cincinnati but a legacy of lasting civil rights victories Of these the best known is the desegregation of Cincinnati's Coney Island amusement park She also fought to desegregate Cincinnati schools and to stop the introduction of observers in black voting precincts in Ohio Her campaign to raise awareness of industrial toxic waste practices in minority neighborhoods was later adapted into national Superfund legislation In 2012 Marian's friend and colleague Dot Christenson sat down with her to record her memories The resulting biography not only gives us the life story of remarkable leader but encapsulates many of the twentieth century's greatest struggles and advances Spencer's story will prove inspirational and instructive to citizens and students alike

Bond Hill Aharon Varady,2005-11 Full Color CMYK Edition This is the reconstructed history of Bond Hill currently a neighborhood of Cincinnati Ohio originally founded just after the Civil War as a railroad suburb on the urban fringe of the most densely populated city on the planet How did teetotalers cooperators railroad moguls real estate brokers and radical socialists pool their energies to found a new society and build affordable housing for men of moderate means How did church politics and other critical events shape the social and environmental transformation of a once rural community This history provides a complete survey of the Bond Hill area from the post Colonial period through the Village of Bond Hill's annexation by the City of Cincinnati in 1903 up until the present day

McClanahan,2025-04-15 In 1969 a combination of utility companies announced they would build a 395 million nuclear power plant in Moscow Ohio about thirty miles southeast of Cincinnati Named after the president of Cincinnati Gas and Electric CG E the William H Zimmer nuclear power station was expected to provide the Cincinnati metropolitan area with affordable and clean energy well paying jobs and tax revenue However as news spread that construction on the Zimmer plant was unsafe as well as overbudget public opinion of the project soured culminating in a consumer led campaign that ultimately compelled investors to abandon the nuclear station in 1984 Zimmer

The Movement That Defeated a Nuclear Power Plant traces the story of the activists who called attention to the disaster and helped secure the plant's cancellation. Influenced by environmentalism, civil rights, and consumer rights, a broad-based coalition of concerned citizens, including parents, educators, local and state officials, whistleblowing construction workers, antinuclear activists, and lawyers joined together to insist on public input and government accountability. Although the nuclear project was 99 percent complete, pressure from the anti-Zimmer campaign and government regulators, along with major financial strain, caused CG E to repurpose the facility as a coal burning plant. By combining oral histories with government and corporate documentation, Zimmer pieces together a yet untold narrative about political agency, demonstrating that ordinary motivated people have the power to shape public health and energy infrastructure. The American Midwest Andrew R. L. Cayton, Richard Sisson, Chris Zacher, 2006-11-08 This first ever encyclopedia of the Midwest seeks to embrace this large and diverse area to give it voice and help define its distinctive character. Organized by topic, it encourages readers to reflect upon the region as a whole. Each section moves from the general to the specific, covering broad themes in longer introductory essays, filling in the details in the shorter entries that follow. There are portraits of each of the region's twelve states, followed by entries on society and culture, community and social life, economy and technology, and public life. The book offers a wealth of information about the region's surprising ethnic diversity, a vast array of foods, languages, styles, religions, and customs, plus well-informed essays on the region's history, culture, and values, and conflicts. A site of ideas and innovations, reforms and revivals, and social and physical extremes, the Midwest emerges as a place of great complexity, signal importance, and continual fascination.
