**Good Housekeeping** , 1924 *The Fairy-Tale Vanguard* Stijn Praet, 2019-07-08 Ever since its early modern inception as a literary genre unto its own the fairy tale has frequently provided authors with a textual space in which to reflect on the nature status and function of their own writing and that of literature in general At the same time it has served as an ideal laboratory for exploring and experimenting with the boundaries of literary convention and propriety While scholarship pertaining to these phenomena has focused primarily

on the fairy tale adaptations and deconstructions of postmodernist writers this essay collection adopts a more diachronic approach. It offers fairy tale scholars and students a series of theoretical and literary historical expositions as well as case studies on English, French, German, Swedish, Danish, and Romanian texts from the seventeenth to the twenty-first century by authors as diverse as Marie Catherine d'Aulnoy, Ricki Ducornet, Hans Christian Andersen, and Robert Coover. [Fairy-Tale Revivals in the Long Nineteenth Century](#) Abigail Heiniger, 2023-09-12. This collection opens with marginalized responses to the highly politicized Cinderella traditions in the Anglophone world. In the United States, Cinderella was incorporated into the gendered narrative of the American Dream and narratives of empire in the colonial world, particularly in the mid-1800s. Marginalized writers have responded to these nationalistic colonial traditions in two distinctive ways: clever Cinderellas who negotiate a broken system or passive Cinderellas who die as anti-heroes in disenchanting fairy tales. This dual tradition of marginalized Cinderellas is also apparent across the Anglophone world. Potential texts include the out-of-print works of Sin ad de Valera, excerpts from the novels of Hannah Crafts, Jessie Fauset, and Julia Kavanagh, along with dramas by Ann Devlin and collected oral tales.
