denial of Indigenous sovereignty Karen Stote argues that this coercive sterilization must be considered in relation to the larger goals of Indian policy to gain access to Indigenous lands and resources while reducing the numbers of those to whom the federal government has obligations Stote also contends that in accordance with the original meaning of the term this sterilization should be understood as an act of genocide and she explores the ways Canada has managed to avoid this charge This lucid engaging book explicitly challenges Canadians to take up their responsibilities as treaty partners to reconsider their history and to hold their government to account for its treatment of Indigenous peoples
