Chakras Rays And Radionics:

Chakras - Rays and Radionics David V. Tansley,1984 A most practical guide to understanding the significance of subtle energies **Chakras - Rays & Radionics** Tansley,1984-01-30 **Chakras** Patricia Mercier,2000 Mercier has written a great book for cynics and believers alike For anyone raised in the nonmystical United States these Eastern medicinal spiritual theories may be a bit hard to swallow yet the book is still chock ful of good health advice invigorating guided imagery techniques and statements that make you stop and say Huh FIT This illustrated guide provides instruction and inspiration for revitalizing seven major chakras 21 minor ones and connecting pathways **Introduction to the Seven Rays** Kurt Abraham,1986 **Healing with the Chakra Energy System** John R. Cross,2006-10-25 Written in accessible language for bodyworkers and hands on therapists Healing with the Chakra Energy System describes the use of very simple nonsuppressive and nonsymptomatic techniques in which the cause of the disease process may be halted and disharmony within the body may be changed into harmony Each chapter contains case histories and descriptions of how to treat many conditions including muscular joint spinal organic and emotional Based on the author s decades of clinical and teaching experience this book represents a fresh approach to healing by tapping chakra energy **Balancing the Pairs of Opposites; The Seven Rays and Education; and Other Essays in Esoteric Psychology** Kurt Abraham,1993 **Psionic Medicine** J H Reyner,2011-12-31 Psionic Medicine heralds the dawn of a new era in medical practice with health maintaining and curative potentials that are a significant addition to the repertory of treatment developed in biochemical medicine In Psionic Medicine the critical factor is not chemistry and surgical intervention though such methods remain indicated in some cases but subtle informational inputs that affect the patient s biofield The book in the hands of the reader provides a remarkably clear and concise overview of what psionic medicine is how it works and why it deserves the kind of attention that presently only molecular and genetics based breakthroughs are accorded It merits serious and urgent attention by the general lay public and the medical professionals alike **Radionics & The Subtle Anatomy Of Man** David V Tansley,2011-05-31 Radionics is defined as a method of diagnosis and therapy which is primarily concerned with the utilization of subtle force fields and energies for the purpose of investigating and combating the causes of disease which ravage humanity and the other kingdoms of nature But in examining the history and development of radionics from the pioneering work of Dr Albert Abrams and Ruth Drown to the latest experimental work at the de la Warr Laboratories David Tansley discovered a curious paradox In literature on the subject and in the rate books which provide the very core of radionic therapeutic measures there are plenty of references to man s physical organic systems but little regarding the probability of underlying force fields which might govern and determine the health of the physical form This book represents an informed endeavour to redress the balance by providing a simple yet practical outline of the subtle anatomy of man The theory is not new Abrams diagnosed at a distance and Drown treated absent patients David Tansley believes that the time is

Nicholas Goodrick-Clarke,2008-10-14 Western esotericism has now emerged as an academic study in its own right combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order This introduction to the Western esoteric traditions offers a concise overview of their historical development Nicholas Goodrick Clarke explores these traditions from their roots in Hermeticism Neo Platonism and Gnosticism in the early Christian era up to their reverberations in today s scientific paradigms While the study of Western esotericism is usually confined to the history of ideas Goodrick Clarke examines the phenomenon much more broadly He demonstrates that far from being a strictly intellectual movement the spread of esotericism owes a great deal to geopolitics and globalization In Hellenistic culture for example the empire of Alexander the Great which stretched across Egypt and Western Asia to provinces in India facilitated a mixing of Eastern and Western cultures As the Greeks absorbed ideas from Egypt Babylon Assyria and Persia they gave rise to the first esoteric movements From the late sixteenth to the eighteenth centuries post Reformation spirituality found expression in theosophy Rosicrucianism and Freemasonry Similarly in the modern era dissatisfaction with the hegemony of science in Western culture and a lack of faith in traditional Christianity led thinkers like Madame Blavatsky to look East for spiritual inspiration Goodrick Clarke further examines Modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of Carl Gustav Jung This book traces the complete history of these movements and is the definitive account of Western esotericism *Astrology and the Art of Healing* A.T.
