weight loss is not starvation or slaving it out at the gym Any fitness expert would tell you that weight loss is only 20% workout and 80% nutrition The key to weight loss lies with what you eat and no you don't have to do all those crazy restrictive diets out there don't eat carbs don't eat fats oh proteins are the enemy don't eat red meats all of that is bullcrap really and sounds like being in nutritional prison How long can you even do that for Every macronutrient has its own unique benefit and contribution to your health and well being so when they say don't eat carbs or fats they are asking you to eliminate all of the benefits that your body is supposed to get from that macronutrient which can expose your body to illnesses and diseases that may not be immediately visible This is why no Doctor or Nutritionist would endorse any of those restrictive diets You are supposed to eat a BALANCED DIET at all times like I said earlier food is like yin and yang everything is interconnected and works together So rather than punishing yourself on a diet that may end up damaging your health what you should be doing is eating more of thermogenic enhancers those natural foods that are designed to speed up your metabolism and force your body to burn more fat Weight loss is really that simple but they won't tell you this because they want you to keep buying weight loss pills teas and gadgets so that they can make more profits In this book you'll learn What thermogenic enhancers are How thermogenic enhancers turn your body into a fat burning furnace A List of Foods That are Strong Thermogenic Enhancers and How to Easily Incorporate Them Into Your Daily Diet A 60 day Fat Burning Meal Plan Over 80 fat burning recipes No matter how busy or lazy you are you WILL LOSE WEIGHT on this meal plan *The Formula* Gene Daoust, Joyce Daoust, 2007-12-18 Are you frustrated by low fat high carbohydrate or all protein diets that don't work Tired of white knuckle restrictions or doing math at every meal Fed up with a constant craving for sugars and carbohydrates Do you wish you had a magic formula for losing weight and keeping it off Well now you do From 40 30 30 zone nutrition pioneers and authors of 40 30 30 Fat Burning Nutrition comes a weight loss program so easy and effective anyone can do it The Formula actually helps your body to maximize its natural fat burning potential making it much more than a diet it's a dietary prescription for living well feeling great and performing better Here's how it works When you eat the right proportions of carbohydrates proteins and fats you can help your body to automatically unleash its own natural fat burning hormone glucagon the key to getting rid of unwanted body fat while keeping blood sugar steady and energy high The result You can learn how to burn fat faster while eating foods you enjoy Featuring menu plans shopping lists and progress charts The Formula provides a personalized program for each person's specific needs and body type So whether you're a couch potato a professional athlete or somewhere in between you'll discover Five different versions of The Formula and how to find the right one for your weight and activity level The 21 Day Fat Flush Formula for accelerated weight loss More than 200 delicious recipes including perfectly balanced 40 30 30 fajitas chili grilled cheese sandwiches pork tenderloin and New York cheesecake Special Kids Favorites and Family Style meals Healthy advice on prepared foods fast foods and vegetarian meals With The Formula you don't have to give up the foods you love follow complicated meal plans count calories or food blocks or
