

H-250

Oneida's most AFFORDABLE MODEL

This dynamic shooting machine was designed specifically with the hunting archer in mind. No other bow in any price range compares in speed, smoothness of draw or absence of recoil. The same high quality materials and workmanship go into the production of this bow as with all bows in our line. The same goes for quality control standards and inspection procedures. ONEIDA LABS quality durability and performance in a no frills package.

New for 1989 is the improved finish on the H-250. Each is chemically cleaned, Zinc Chromate primed and finished with two coats of Electrostatic Pulver coating. The result is a dull non-glare finish which requires no additional camo treatment before going afield.

Our outboard limbs on the H-250, as with all Eagle Bows, are Vermont hardrock Maple inner core laminates with Gordon Bo-Tuff™ Fiberglass backing. The string nock is injection molded ABS which is epoxied for permanent durability.

Duane Joyce

"I have hunted with a bow for 27 years and have finally settled on the ultimate bow, my Oneida H-250. This New Brunswick bear travelled only 30 yards before expiring after a well placed arrow penetrated completely. This bow is the smoothest, fastest shooting and hardest hitting I have ever shot. I can't imagine shooting any other bow ever again. Thanks for producing the world's best bow."
