Changing Addictive Behavior Bridging Clinical And Public Health Strategies:

Changing Addictive Behavior Jalie A. Tucker, Dennis M. Donovan, G. Alan Marlatt, 2001-02-15 This volume proposes that prevailing clinical approaches to treating addictive behaviors are actually best suited to a minority of the population with problems in the case of substance abusers those with substantial functional impairment and physical dependence But what about persons with mild to moderate addictive behavior problems for whom intensive treatment may prove unnecessarily costly disruptive and stigmatizing Or those substance abusers who are unable or unmotivated to abstain but want to reduce the harm associated with drug use Contributors draw upon cutting edge theory and research to examine ways that traditional therapeutic treatments can be supplemented by public health interventions that extend the reach and effectiveness of care Timely and pragmatic the book points the way toward necessary evolutions in the roles of behavior change specialists in today's challenging health care environment

Promoting Self-Change From Addictive Behaviors Harald Klingemann, Linda Carter-Sobell, 2007-08-09 Many are addicted Few are treated Yet many who are not treated recover Promoting Self Change from Addictive Behaviors examines natural recovery as a clinical phenomenon a field of inquiry and a vital component of therapy It also brings clinicians and counselors to a new understanding of addiction and recovery One of the few books on the topic this updated edition offers alternatives to disease models of addiction by exploring personal pathways to recovery Focusing on alcohol and drug problems it provides a literature review of 40 years of studies on self change with particular emphasis on the current decade and methodological issues starting with how much or how little treatment constitutes treatment The 24 experts keep the coverage consistently readable and dozens of brief narratives from individuals who have successfully recovered from an addictive behavior without formal help lend valuable personal perspectives More of the book's key features Core factors in self change from cognitive processes to social issues Case examples of natural recovery from smoking binge eating problem gambling and criminal behavior Redefining the role of treatment in changing addictive behaviors Cross cultural community and prevention perspectives on promoting self change Self change toolbox chapter offering assessment tools recovery strategies web links and other online resources With Promoting Self Change from Addictive Behaviors health care professionals and researchers from psychologists and social workers to nurses sociologists and physicians can find more effective methods to fit client needs and develop new insights into the recovery process Public health workers and policymakers will also find informative strategies for tapping this rich therapeutic resource
