## **Cfo Insights Delivering High Performance:**

**CFO Insights** Michael R. Sutcliffe, Michael Donnellan, 2006-05-12 CFO Insights Delivering High Performance explores the implications of Accenture's high performance finance research and interprets the link between high performance business and the role of the CFO in delivering this. Written from the perspective of the Chief Financial Officer, the book provides real world relevant examples including flagship interviews with CFOs of high performing businesses. The book also includes industry analyses prepared by the Accenture Strategy and Business Architecture Practice, case studies and chapters dedicated to the CFO and financial practices of Japan, China, Latin America and Eastern Europe. **CFO Insights** C. Cristian Wulf, 2006-07-28 The benefits Carrefour achieved have been substantially in excess of predictions. The Shared Service accounting centers enabled streamlined processes, lowered costs and introduced standard processes, a standard system and standard data for a global company. The new infrastructure can support rapid expansion and can add new stores with the flip of a switch. From a systems point of view, Carrefour now has a factory in place to deliver high efficiency systems, tools, processes and training. From Chapter 9 Implementation and Operational Imperatives for ERP, the benefits of efficient information delivery are demonstrated by the results of one of the world's largest mySAP.com implementations. Siemens achieved a twenty five percent cost reduction through streamlined information delivery and improved access to financial information. It also enhanced its reporting capabilities from seventy percent to nearly 100 percent through increased intranet availability. From Chapter 3 Financial and Management Reporting, Research shows that high performance businesses and governments use finance technology as one of the capabilities to help executives make better decisions for resource allocation while at the same time increasing productivity. CFO Insights Enabling High Performance through Leading Practices for Finance ERP includes a number of case studies and lessons learned from Accenture clients across a variety of industries that have implemented, upgraded and operated Oracle, PeopleSoft and SAP. Each case study highlights vital thoughts, benefits and considerations and provides relevant guidance as one proceeds with an ERP on the journey toward high performance. **CFO Insights** Stewart Clements, Michael Donnellan, Cedric Read, 2005-08-19 Many CFOs have led their companies to invest in ERP and shared services in order to create leaner, more global organization structures. Today they seek more radical transformation through business process outsourcing (BPO). CFO Insights is a practical, comprehensive guide to this exciting, fast growing field. It features expert advice from the CFOs of major companies worldwide including BP, Procter Gamble, Dell and Exel. Step by step it takes you through the stages of a successful outsourcing solution from evaluating providers and contracting through transition planning and risk management. We have seen cost reductions every year for each of the 13 years of our outsourcing experience; now finally we are seeing the outsourcing market mature. The advancement of multi-client centers will create new value. As new low cost centers spring up around the world, I want to have easy access to the opportunities. Alan Eilles, CFO Downstream BP. Outsourcing is not about sitting still. On the one hand, as

CFO you have to be in control and have the right control mechanisms in place On the other this is an evolving relationship where both parties feel empowered and energized to make a real difference in the business John Coghlan Group Finance Director of Exel My view of the CFO s role is relatively simple How do you add value The CFO has to be in the forefront in understanding at a strategic level the relative economics of different parts of the business model and vitally play a decisive role in deciding what should be insourced and what should be outsourced Clayton Daley CFO Procter Gamble
