

Chapter 30 Lenses

Exercises

30.1 Converging and Diverging Lenses (pages 603–604)

1. A(n) lens is a piece of glass or plastic that refracts light.
2. Describe how a lens is able to form images.

A lens forms an image by bending parallel rays of light that pass through it.

3. Is the following sentence true or false? A converging lens is also known as a concave lens. false
4. A converging lens is thicker in the middle.
5. A(n) convex lens causes rays of light that are initially parallel to meet at a single point.
6. A diverging lens is also known as a(n) concave lens.

Use the illustration below to answer Questions 7 and 8.

7. The lens on the left is a(n) convex or converging lens.
8. Is the following sentence true or false? The lens on the right causes rays to appear as if they come from a single point. true

Match each term to its definition.

Term	Definition
<u>a</u> 9. principal axis	a. line joining the centers of curvature of a lens
<u>d</u> 10. focal point	b. distance between the center of the lens and its focal point
<u>c</u> 11. focal plane	c. plane perpendicular to the principal axis that passes through either focal point
<u>b</u> 12. focal length	d. location where a beam of light parallel to the principal axis converges

13. Is the following sentence true or false? A lens has two focal points and two focal planes. true

 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July-December *Academic Tribes and Territories*
 Tony Becher,Paul Trowler,2001-10-16 Acclaim for the first edition of *Academic Tribes and Territories*. Becher's insistence upon in-depth analysis of the extant literature while reporting his own sustained research doubled the thickness of the material to be covered. *Academic Tribes and Territories* is a superb addition to the literature on higher education. There is here an education to be had. Burton R. Clark, *Higher Education*. Becher's landmark work. The higher education community both practitioners and educational researchers need to assimilate and to heed the message of this important and insightful book. Alan E. Bayer, *Journal of Higher Education*. A bold approach to a theory of academic relations. The result is a debt to him. Becher for all students of higher education. *The Times Educational Supplement*. A classic in its field. The book is readily accessible to any member of the academic profession but it also adds significantly to a specialist understanding of the internal life of higher education institutions in Britain and North America. I confidently predict that it will appear prominently on citation indices for many years. Gareth Williams, *Studies in Higher Education*. How do academics perceive themselves and colleagues in their own disciplines and how do they rate those in other subjects? How closely related are their intellectual tasks and their ways of organizing their professional lives? What are the interconnections between academic cultures and the nature of disciplines? *Academic Tribes and Territories* maps academic knowledge and explores the diverse characteristics of those who inhabit and cultivate it. This second edition provides a thorough update to Tony Becher's classic text first published in 1989 and incorporates research findings and new theoretical perspectives. Fundamental changes in the nature of higher education and in the academic's role are reviewed and their significance for academic cultures is assessed. This edition moves beyond the first edition's focus on elite universities and the research role to examine academic cultures in lower status institutions internationally and to place a new emphasis on issues of gender and ethnicity. This second edition successfully renews a classic in the field of higher education.

Transnational Perspectives on Curriculum History Gary McCulloch,Ivor Goodson,Mariano González-Delgado,2019-11-22 This book offers a remarkable range of research that

emphasises the need to analyse the shaping of curricula under historical social and political variables Teachers life stories the Cold War as a contextual element that framed curricular transformations in the US and Europe and the study of trends in education policy at transnational level are issues addressed throughout The book presents new lines of work offering multidisciplinary perspectives and provides an overview of how to move forwards The book brings together the work of international specialists on Curriculum History and presents research that offers new perspectives and methodologies from which to approach the study of the History of Education and Educational Policy It offers new debates which rethink the historical study of the curriculum and offers a strong interdisciplinary approach with contributions across Education History and the Social Sciences This book will be of great interest for academics and researchers in the fields of education and curriculum studies It will also appeal to educational professionals teachers and policy makers **Research Handbook on Curriculum and Education** Elizabeth Rata,2024-04-12 This incisive Handbook brings together a wealth of innovative research from international curriculum and education experts to ask the question what knowledge should be taught in school how should it be taught and for what purpose **Forthcoming Books** Rose Arny,2002-02 *Subject Guide to Books in Print* ,1997

Ch 32 Study Guide Conceptual Physics Key Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the power of words has become more evident than ever. They have the capability to inspire, provoke, and ignite change. Such could be the essence of the book **Ch 32 Study Guide Conceptual Physics Key**, a literary masterpiece that delves deep to the significance of words and their affect our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book's key themes, examine its writing style, and analyze its overall effect on readers.
