Chains Of Justice One Link At A Time:

Chains of Justice Sonia Cardenas, 2014-02-21 National human rights institutions state agencies charged with protecting and promoting human rights domestically have proliferated dramatically since the 1990s today more than a hundred countries have NHRIs with dozens more seeking to join the global trend These institutions are found in states of all sizes from the Maldives and Barbados to South Africa Mexico and India they exist in conflict zones and comparatively stable democracies alike In *Chains of Justice* Sonia Cardenas offers a sweeping historical and global account of the emergence of NHRIs linking their growing prominence to the contradictions and possibilities of the modern state As human rights norms gained visibility at the end of the twentieth century states began creating NHRIs based on the idea that if international human rights standards were ever to take root they had to be firmly implanted within countries impacting domestic laws and administrative practices and even systems of education However this very position within a complex state makes it particularly challenging to assess the design and influence of NHRIs some observers are inclined to associate NHRIs with ideals of restraint and accountability whereas others are suspicious of these institutions as pretenders in democratic disguise In her theoretically and politically grounded examination Cardenas tackles the role of NHRIs asking how we can understand the global diffusion of these institutions including why individual states decide to create an NHRI at a particular time while others resist the trend She explores the influence of these institutions in states seeking mostly to appease international audiences as well as their value in places where respect for human rights is already strong The most comprehensive account of the NHRI phenomenon to date *Chains of Justice* analyzes many institutions never studied before and draws from new data released from the Universal Periodic Review Mechanism of the United Nations Human Rights Council With its global scope and fresh insights into the origins and influence of NHRIs *Chains of Justice* promises to become a standard reference that will appeal to scholars immersed in the workings of these understudied institutions as well as nonspecialists curious about the role of the state in human rights

Handcuffs and Chain Link Benjamin Gonzalez O'Brien, 2018-07-25 Handcuffs and Chain Link enters the immigration debate by addressing one of its most controversial aspects the criminalization both of extralegal immigration to the United

States and of immigrants themselves in popular and political discourse Looking at the factors that led up to criminalization Benjamin Gonzalez O'Brien points to the alternative approach of the Immigration Reform and Control Act of 1986 and how its ultimate demise served to negatively reinforce the fictitious association of extralegal immigrants with criminality Crucial to Gonzalez O'Brien's account thus is the concept of the critical policy failure a piece of legislation that attempts a radically different approach to a major issue but has shortcomings that ultimately further entrench the approach it was designed to supplant The IRCA was just such a piece of legislation It highlighted the contributions of the undocumented and offered amnesty to some while attempting to stem the flow of extralegal immigration by holding employers accountable for hiring the undocumented The failure of this effort at decriminalization prompted a return to criminalization with a vengeance leading to the stalemate on immigration policy that persists to this day Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriations for ... Will "Justice" Bring Peace? Yehuda Z. Blum, 2016-09-12 The first part of this book contains a selection of articles written over five decades The second part includes a selection of legal opinions written between 1962-1965 when the author was working in the legal department of Israel's Ministry of Foreign Affairs An appendix reproduces a letter on anti-Semitism at the United Nations sent by the author in his capacity as Israel's Ambassador and Permanent Representative to the UN and addressed to the UN Secretary General The author's varied career as a leading academic and high ranking diplomat offers a unique perspective on many aspects of international law ranging from constitutional problems of the UN Charter to the Arab-Israel conflict The author has chosen to reproduce all these writings in their original form while being acutely aware that significant changes have occurred in many fields of international law in the intervening period This he has done consciously in the belief that preserving his writings unchanged will not only indirectly attest to the fundamental shifts in many areas of international law not all of which meet with his approbation
