Contextualising Rural Education in South African Schools , 2023-04-03 South Africa s democratic government inherited a divided and unequal system of education Under apartheid South Africa had nineteen different educational departments separated by race language geography and ideology This education system prepared learners in different ways for the positions they were expected to occupy in social economic and political life under apartheid and was funded and resourced in ways that favoured white people and disadvantaged black people who remain in the working class The newly elected democratic government in 1994 laid a foundation for a single national education system Twenty five years after the dawn of democracy education is still

in a parlous state in many communities in South Africa but it is in the rural areas mainly in the former homelands that learners are most disadvantaged Contributors are Olufemi Timothy Adigun Oluwatoyin Ayodele Ajani Alan Bhekisisa Buthelezi Joyce Phikisile Dhlamini Bongani Thulani Gamede Samantha Govender Lawrence Kehinde Nontobeko Prudence Khumalo Primrose Ntombenhle Khumalo Azwidohwi Philip Kutame Manthekeleng Linake Sive Makeleni Nkhensani Maluleke Bothwell Manyonga Mncedisi Christian Maphalala Takalani Mashau Hlengiwe Romualda Mhlongo Rachel Gugu Mkhasibe Dumisani Wilfred Mncube Nicholas Tumelo Mollo Ramashego Shila Mphahlele Fikile Mthethwa Grace Matodzi Muremela Edmore Mutekwe Nokuthula Hierson Ndaba Clever Ndebele Thandiwe Nonkululeko Ngema Phiwokuhle Ngubane Sindile Ngubane Dumisani Nzima Livhuwani Peter Ramabulana and Maria Tsakeni

Wrecking Ball Stu Woolman, 2021-04-29 Wrecking Ball explores in an unprecedented manner a decalogue of wicked problems that confronts humanity Nuclear proliferation climate change pandemics permanent technological unemployment Orwellian public and private surveillance social media that distorts reality cyberwarfare the fragmentation of democracies the inability of nations to cabin private power the failure of multinational institutions to promote collaboration and the deepening of autocratic rule in countries that have never known anything but extractive institutions Collectively or even severally these wicked problems constitute crises that could end civilisation Does this list frighten you or do you blithely assume that tomorrow will be just like yesterday Wrecking Ball shows that without an inclusive system of global governance the collective action required to solve those wicked problems falls beyond the remit of the world's 20 inclusive democracies 50 flawed democracies and 130 extractive elitist autocracies Flawed democracies and autocracies that already struggle to produce goods necessary for their own citizens to flourish are simply incapable of committing to international arrangements that address the existential threats posed by the decalogue of

wicked problems This then is our children s inheritance Dystopias far far worse than the polities that we ourselves have known What if anything can mitigate the harms that are our legacy Wrecking Ball offers as an answer a ground breaking analysis of South Africa s political economy It demonstrates that this country s elitist and extractive political and economic institutions not only make resolution of ongoing domestic crises unattainable likewise they make meaningful responses to wicked problems impossible Smart people think they have all the answers Without laboring under any such illusions Martin Luther King Jr eloquently opined The arc of the moral universe is long but it bends towards justice But what will happen King would acidly ask if we continue to dawdle and simply run out of time Wrecking Ball similalry operates under no such smart pretenses and undeterred and unmatched ventures into terrains traversed by truly great political economists Smith Ricardo Marx and Keynes By knitting together what we all know to be the facts with cutting edge theory in economics sociology history and political science the book paints an unflinching portrait of where we are and where we are headed Are we ready to be honest with ourselves about the likely future of this overheated overpopulated planet
