The Other War Lael Brainard, Carol L. Graham, Nigel Purvis, 2004-05-13 A Brookings Institution Press and the Center for Global Development publication The plight of the poorest around the world has been pushed to the forefront of America s international agenda for the first time in many years by the war on terrorism and the formidable challenges presented by the HIV AIDS pandemic In March 2002 President Bush announced the creation of the Millennium Challenge Account MCA This bilateral development fund represents an increase of 5 billion per year over current assistance levels and establishes of a new agency to promote growth in reform oriented developing countries Amounting to a doubling of U S bilateral development aid the largest increase in decades the MCA offers a critical chance to deliberately shape the face that the United States presents to people in poor nations around the world This book makes concrete recommendations on crafting a new blueprint for distributing and delivering aid to make the MCA an effective tool not only in its own right but also in transforming U S foreign aid and strengthening international aid cooperation more generally The book tackles head on the tension between foreign policy and development goals that chronically afflicts U S foreign assistance the danger of being dismissed as one more instance of the United States going it alone instead of buttressing international cooperation and

the risk of exacerbating confusion among the myriad overlapping U S policies agencies and programs targeted at developing nations particularly USAID In doing so The Other War draws important lessons from new international development initiatives such as the Global Fund to Fight AIDS TB and Malaria the mixed record of previous U S aid efforts trends in the U S budget for foreign assistance the agencies currently involved in administering U S development policy and the importance of the relationship between Congress and the executive branch in determining aid outcomes The MCA holds the promise of substantially increasing U S development assistance and piolicy and the importance of the relationship between Congress and the executive branch in determining aid outcomes The MCA holds the promise of substantially increasing U S development assistance and pioneering a new era in aid but the authors caution against creating yet another example of wasted aid that could undermine political support for foreign assistance for decades to come Millennium Challenge Account Library of Congress. Congress. Senate. Committee on Foreign Relations,2003 **Foreign Aid and Foreign Policy** Louis A. Picard,Robert Groelsema,Terry F. Buss,2007-09-27 This timely work presents cutting edge analysis of the problems of U S foreign assistance programs why these problems have not been solved in the past and how they might be solved in the future The book focuses primarily on U S foreign assistance and foreign policy as they apply to nation building governance and democratization The expert contributors examine issues currently in play and also trace the history and evolution of many of these problems over the years They address policy concerns as well as management and organizational factors as they affect programs and policies Foreign Aid and Foreign Policy includes several chapter length case studies on Iraq Pakistan Ghana Haiti and various countries in Eastern Europe and Africa but the bulk of the book presents broad coverage of general topics such as foreign aid and security NGOs and foreign aid capacity building and building democracy abroad Each chapter offers recommendations on how to improve the U S system of aid in the context of foreign policy **Millennium Challenge Account** ,2006 In a speech on March 14 2002 President Bush outlined a proposal for a major new U S foreign aid initiative The program referred to as the Millennium Challenge Account MCA is managed by the Millennium Challenge Corporation MCC and provides assistance through a competitive selection process to developing nations that are pursuing political and economic reforms in three areas ruling justly investing in people and fostering economic freedom If fully implemented the initiative would represent one of the largest increases in foreign aid spending in half a century outpaced only by the Marshall Plan following World War II and the Latin America focused Alliance for Progress

in the early 1960s The MCC differs in several respects from past and current U S aid practices 1 the size of the 5 billion commitment 2 the competitive process that rewards countries for past and current actions measured by 16 objective performance indicators 3 the pledge to segregate the funds from U S strategic foreign policy objectives that often strongly influence where U S aid is spent and 4 the requirement to solicit program proposals developed solely by qualifying countries with broad based civil society involvement
