Champions The Making Of Olympic Swimmers:

Champions Daniel F. Chambliss, 1988 Focuses on four swimmers Rowdy Gaines Mary T Meagher Mike O'Brien Dara Torres and their coach Mark Schubert Making Sense of the Social World Daniel F. Chambliss, Russell K.

Schutt, 2014-12-16 At the heart of this book is the authors firm belief that understanding research methods is critical to being an informed citizen in our complex fast paced social world Now in its Fifth Edition *Making Sense of the Social World* by Daniel F Chambliss and Russell K Schutt continues to help students achieve that understanding by providing a balanced treatment of qualitative and quantitative methods integrating substantive examples and research techniques throughout All essential elements of social research methods are covered including validity causation experimental and quasi experimental design and techniques of analysis Additionally it is written in a less formal style to make concepts more accessible to students and it includes wide ranging practical exercises drawn from every experience to help students get hands on with the material

Not only do students find the book approachable and easy to digest but they also enjoy it **Duels in the Pool** Matthew De George, 2013-07-05 In the sports world battles between rivals can be friendly hotly contested or even hostile An individual sport at its core swimming is defined by iconic rivalries such as those between Ian Thorpe and Grant Hackett Michael Phelps and Ryan Lochte and Jenny Thompson and Dara Torres Throughout its history swimming has showcased some of its top athletes competing face to face challenging each other in ways that captivate their fans *Duels in the Pool Swimming's Greatest Rivalries* highlights the best of these contests Spanning nearly 100 years this book delves into the individual showdowns team battles friendly competitions and heated political rivalries that have played out in pools around the world From their early beginnings through the highlights of their careers this book follows the top athletes in the sport and the rivals who pushed them to the pinnacle of swimming Individual races are recounted bringing to life the intense competition that drove the swimmers to glory In addition to the individual athletes *Duels in the Pool* also examines some of the most exciting rivalries that existed between colleges and among nations Although such rivalries as those between the U S and Australia took place exclusively in the pool others such as the battle against East Germany during the 1970s and 80s were intensified by the political climate and allegations of doping Exhaustively researched *Duels in the Pool* includes original interviews and rich details shining a light on some of the sport's finest athletes and the rivalries that propelled them to greatness This book will appeal not only to sports historians and researchers but also to fans of swimming at every level

Amazing Pace Paul McMullen, 2006-08-08 A vibrant portrait of American swimmer Michael Phelps the dominant athlete at the 2004 Olympics who has relentlessly pushed himself promoted his sport and appears poised to ultimately accumulate the most gold medals in Olympic history Before he was old enough to have a driver's license Michael Phelps had a world record Before he ever took a college class or turned 20 he had earned distinction by winning 8 medals 6 gold and 2 bronze at the Athens Olympics the most in non boycotted Games Along the way he captivated an American television audience and

confronted the critics who questioned his ambition *Amazing Pace* provides the most revealing look yet at a young man who became a world class athlete before he had the chance to grow up by respected Baltimore Sun journalist Paul McMullen who followed Phelps's rise from an obscure 14 year old to the most scrutinized competitor at the world's biggest sporting event details the plotting of his career from turning professional at age 16 to the management of the first crises he encountered Paul McMullen's 5 years of observation add dramatic context to the life of a young athlete whose rise to prominence coincided with the tumult of the first Summer Olympics after 9/11 No Olympian has ever earned 10 gold medals in a career but Michael Phelps is on pace to achieve that milestone at the 2008 Games in Beijing China Ethnographies Revisited

Antony J. Puddephatt, William Shaffir, Steven W. Kleinknecht, 2009-12-16 This book presents reflexive first hand accounts from the authors of major book length ethnographies recounting how they generated their key ideas in the practice of field research This volume provides a fresh approach to teaching qualitative research by encouraging students to think creatively and theoretically in the field The Interaction Order Norman K. Denzin, 2019-02-12 This volume brings together leading scholars in the area of symbolic interactionism to offer a broad discussion of issues including identity dialogue and legitimacy

Boundary Objects and Beyond Geoffrey C. Bowker, Stefan Timmermans, Adele E. Clarke, Ellen Balka, 2016-02-26 The multifaceted work of the late Susan Leigh Star is explored through a selection of her writings and essays by friends and colleagues Susan Leigh Star 1954-2010 was one of the most influential science studies scholars of the last several decades In her work Star highlighted the messy practices of discovering science asking hard questions about the marginalizing as well as the liberating powers of science and technology In the landmark work *Sorting Things Out* Star and Geoffrey Bowker revealed the social and ethical histories that are deeply embedded in classification systems Star's most celebrated concept was the notion of boundary objects representational forms things or theories that can be shared between different communities with each holding its own understanding of the representation Unfortunately Leigh was unable to complete a work on the poetics of infrastructure that further developed the full range of her work This volume collects articles by Star that set out some of her thinking on boundary objects marginality and infrastructure together with essays by friends and colleagues from a range of disciplines from philosophy of science to organization science that testify to the wide ranging influence of Star's work Contributors Ellen Balka Eevi E Beck Dick Boland Geoffrey C Bowker Janet Ceja Alcal Adele E Clarke Les Gasser James R Griesemer Gail Hornstein John Leslie King Cheris Kramarae Maria Puig de la Bellacasa Karen Ruhleder Kjeld Schmidt Brian Cantwell Smith Susan Leigh Star Anselm L Strauss Jane Summerton Stefan Timmermans Helen Verran Nina Wakeford Jutta Weber **Pooling Talent** Matthew De George, 2014-07-02 Swimming is primarily an individual endeavor yet certain accomplishments even by some of the most illustrious names in the sport can only be fully appreciated when considered alongside the contributions of their teammates After all Michael Phelps would never have earned a record eight gold medals in the 2008 Olympics were it not for his teammates world record setting efforts in the 400 freestyle relay

In *Pooling Talent: Swimming's Greatest Teams* Matthew De George highlights the top relay teams, squads and programs in the history of competitive swimming. Each chapter describes in detail the history surrounding the team, the crucial races and the key swimmers. Part I examines relay teams such as the 1976 U.S. Women's 400 Freestyle, the 2000 Australian Men's Freestyle and the 2004 U.S. Men's Medley, showcasing how four opponents in the individual events can mesh seamlessly into a team. Part II explores the national squads spanning from the 1924 U.S. Olympians to the 2001 World's Australians, revealing the interplay between team and individual success. In Part III the top developmental programs around the world are featured, including the 1930 Japanese Men's program and the North Baltimore Aquatic Club. Together the relay teams, squads and programs provide constant motivation, pushing individuals to achieve much more than they ever could in isolation. Extensively researched and rich in detail, *Pooling Talent* takes a novel look at swimming accomplishments, old and new, casting the accolades of individuals in a fresh light. Fans, coaches, athletes and researchers alike will find this a unique and refreshing history of swimming's greatest teams.

Olympic Black Women Martha Ward Plowden, 1996 The ancient Greeks excluded women from the Olympics. When the modern games were reinstated in 1896 the ban was continued. But in the next Olympiad in 1900 women were included. It was not until 1932 that the first African American women were selected to participate in the Olympics in Los Angeles, California. Since that eventful year more and more black women have participated in the Olympics. Now they compete in all areas of track and field, tennis, basketball, rowing, volleyball and figure skating. This book highlights some of the accomplishments of these Olympic medalists and attests to their magnificent representation of our country abroad. With a brief biographical outline and a listing of each award won, Martha Ward Plowden brings to life some of the world's greatest athletes. Included is a timeline of participants in each Olympics, a listing of Olympic sites through the years, a glossary and suggested reading. An excellent text for history classes, *Olympic Black Women* is a tribute to the accomplishment of Olympic women throughout the years.

Beyond the Concept of Sport W. Robert Griffiths, 2024-09-13 *Beyond the Concept of Sport* challenges tired assumptions about athletics to unveil sports' underestimated yet far-reaching social impact and philosophical significance. While governments downplay its influence, author Robert Griffiths recognizes that sports, especially cricket, deeply channels the human spirit for participants and fans alike. He eschews clichés to deliver fresh insight into sports resonance. This is no dry academic tome but rather a lively examination blending scholarship with accessibility. Griffiths brings iconoclastic yet sage opinions to unpacking how athletic pursuits shape culture and consciousness. He illuminates the underappreciated role sports play in forging identity, purpose, inspiration, escapism and more for millions globally. Grappling with issues often overlooked when discussing athletics, Griffiths' unconventional analysis explores fandom, nationalism, arts, business and the very meaning woven through sports rituals. Written with passionate intellect, wit and a distaste for the dull, *Beyond the Concept of Sport* cries out to be read by both die-hard fans and curious sceptics. After all, few human realms spark such fervour and unity across the world's divides like that of sports. This book captures that emotional impact while

elevating sports as a subject worthy of serious yet spirited consideration **From Virtue to Vice** Richard A.

O'Connor, Penny Van Esterik, 2015-03-01 The recovered possess the key to overcoming anorexia Although individual sufferers do not know how the affliction takes hold piecing their stories together reveals two accidental afflictions One is that activity disorders dieting exercising healthy eating start as virtuous practices but become addictive obsessions The other affliction is a developmental disorder which also starts with the virtuous those eager for challenge and change But these overachievers who seek self improvement get a distorted life instead Knowing anorexia from inside the recovered offer two watchwords on helping those who suffer One is negotiate to encourage compromise which can aid recovery where coercion fails The other is balance for the ill to pursue mind with body activities to defuse mind over body battles **Revisiting Symbolic**

Interaction in Music Studies and New Interpretive Works Norman K. Denzin, 2014-03-28 Addressing a perceived gap between symbolic interaction and ethno musicological approaches to the study of music this special issue seeks to bring the fields closer by highlighting some of the complementary theoretical constructs of phenomenology and symbolic interaction as they relate to music studies **The Oxford Handbook of Expertise and Democratic Politics** Gil Eyal, Thomas

Medvetz, 2023 In The Oxford Handbook of Expertise and Democratic Politics Gil Eyal and Thomas Medvetz have brought together a broad group of scholars who have engaged substantively and theoretically with debates regarding the nature of expertise and the social roles of experts to examines these areas within sociology and allied disciplines The analyses take an historical and relational approach to the topic and are motivated by the sense that growing mistrust in experts represents a danger to democratic politics today Bringing together investigations from social scientists philosophers and legal scholars into the political dimensions of expertise this Handbook connects interdisciplinary work done in science and technology studies with the more classic concerns topics and concepts of sociologists of professions and intellectuals The Road To Excellence K. Anders Ericsson, 2014-03-05 Excellence and the highest levels of performance in the arts and sciences sports and games have always been an object of fascination to both scientists and lay people Only during the last 20 years have scientists studied these levels of performance in the laboratory in order to identify their mediating mechanisms Contrary to the common belief that innate talents are the critical factors for exceptional performance investigators have found that acquired skills knowledge and physiological adaptations in response to intense practice are the primary mechanisms mediating the highest levels of performance This is the first and only book to examine how elite performers effect their exceptional accomplishments The world s leading researchers on expert performance and creative achievement review theories and recent findings from many different domains of expertise on how experts optimize improvement in their performance and eventually attain excellence Elite performers are shown to have engaged in deliberate practice activities specifically designed to improve their performance from an early age By age 20 they have often accumulated over 10 000 hours of practice The essential elements of deliberate practice such as specific goals to improve performance successive

refinement through repetition feedback and instruction are explicated for different domains Although the content of practice tasks will necessarily differ from domain to domain investigators have found invariant characteristics for the optimal duration of practice sessions maximal amounts of daily practice the length of intense preparation around 10 years and ages of peak performance Some of the book s chapters extend the review to the acquisition of everyday life skills such as reading to the performance of teams of experts and to the development of creative achievement geniuses and artistic child prodigies The book concludes with commentaries by several outstanding scientists in psychology education and history of science who discuss the generalizability of presented ideas and raise issues for future issues EXTRA COPY It could be said that striving for excellence is what characterizes humanity or perhaps what characterizes humanity at its best Why do so few individuals ever reach the highest levels when so many start out on the Road to Excellence In this book the world s foremost researchers of expert performance in domains as diverse as sports medicine chess and the arts explore the similarities and differences in the extended and strenuous Road to Excellence taken by the successful individuals in each domain Their findings will intrigue and inspire readers who are themselves driven to achieve or who simply want to better understand the processes involved

Learning From the Links David K. Hurst, 2010-05-11 For the first time a seasoned business executive and avid golfer combines these two passions to explore what makes for top performance in each field Management consultant David K Hurst explores compelling links relating the two activities to explain clearly what every manager who plays golf may feel only intuitively that there is a deep systemic connection between them For on the tee as in the boardroom a player can t just hit and hope he or she must continually think ahead contemplate multiple scenarios and consider the downside of every decision And then everything depends on execution In Learning from the Links Hurst clarifies muddled thinking in both management and golf he deals squarely with the challenge of implementing a game plan and seeing it through Hurst takes to task the current head down instructional model used to teach golf and management He addresses the huge gulf between knowing what to do in a given situation and knowing how to do it This chasm is an ever present hazard both on the course and in an organization it keeps people from solving their problems and achieving their goals By examining golfers and managers struggles for improvement Hurst shows us why complex systems are so hard to change and how to set about changing them systematically Using the latest thinking from fields as diverse as neuroscience artificial intelligence art and anthropology Hurst s primary purpose is to help his readers make sense of their own experience to help them learn more effectively His practical advice is profusely illustrated with examples from both golf and management allowing the reader to move back and forth between his or her experiences in both activities Part business management book part strategy guide these are more than just lessons for one s game or one s office these are lessons for life

The Sociology of Hypocrisy Stephen G. Wieting, 2016-03-09 With close attention to the spheres of sport and religion as important sites of moral currency this book draws on media coverage of major cases of hypocrisy attending to differing meanings and consequences of hypocrisy within

the US France and Iceland Instances come from scandals within the established churches as well as cases from the National Collegiate Athletic Association the Tour de France and the inquest into the Hillsborough Disaster in the UK It considers the importance of the context within which moral conduct takes place and the relevance of this for the occurrence of hypocritical action while exploring also the implications of advances in computer and information technology for controlling messages and monitoring deceit Identifying the negative effects of the detection of hypocrisy at individual and institutional levels the author engages with the work of Goffman to argue for the importance of trust in institutions underlining the necessity of minimizing and correcting hypocritical acts by which this is undermined A detailed study of hypocrisy and the need for trust this volume will appeal to scholars and students of sociology with interests in social and moral conduct sport religion Goffman and the notion of social life as artifice **Thinking and Problem Solving** Robert J. Sternberg,2013-10-22

Thinking and Problem Solving presents a comprehensive and up to date review of literature on cognition reasoning intelligence and other formative areas specific to this field Written for advanced undergraduates researchers and academics this volume is a necessary reference for beginning and established investigators in cognitive and educational psychology **Thinking and Problem Solving** provides insight into questions such as how do people solve complex problems in mathematics and everyday life How do we generate new ideas How do we piece together clues to solve a mystery categorize novel events and teach others to do the same Provides a comprehensive literature review Covers both historical and contemporary approaches Organized for ease of use and reference Chapters authored by leading scholars Beyond Caring Daniel F. Chambliss,2024-05-31 Vividly documenting the real world of the contemporary hospital its nurses and their moral and ethical crises Dan Chambliss offers a sobering revelation of the forces shaping moral decisions in our hospitals Based on more than ten years field research Beyond Caring is filled with eyewitness accounts and personal stories demonstrating how nurses turn the awesome into the routine It shows how patients many weak and helpless too often become objects of the bureaucratic machinery of the health care system and how ethics decisions once the dilemmas of troubled individuals become the setting for political turf battles between occupational interest groups The result is a compelling combination of realism and a powerful theoretical argument about moral life in large organizations *Sociology* David M. Newman,Jodi O'Brien,2008-01-07 This carefully edited companion anthology provides provocative eye opening examples of the practice of sociology in a well edited well designed and affordable format It includes short articles chapters and excerpts that examine common everyday experiences important social issues or distinct historical events that illustrate the relationship between the individual and society The new edition will provide more detail regarding the theory and or history related to each issue presented The revision will also include more coverage of global issues and world religions *Age Is Just a Number* Dara Torres,Elizabeth Weil,2010-03-02 From legendary Olympic gold medalist Dara Torres comes a motivational inspirational memoir about staying fit aging gracefully and pursuing your dreams Dara Torres captured the hearts and minds of Americans

of all ages when she launched her Olympic comeback as a new mother at the age of forty one years after she had retired from competitive swimming and eight years since her last Olympics When she took three silver medals in Beijing including a heartbreaking 01 second finish behind the gold medalist in the women s 50 meter freestyle America loved her all the more for her astonishing achievement and her good natured acceptance of the results Now in Age Is Just a Number Dara reveals how the dream of an Olympic comeback first came to her when she was months into her first hard won pregnancy With humor and candor Dara recounts how she returned to serious training while nursing her infant daughter and contending with her beloved father s long battle with cancer Dara talks frankly about diving back in for this comeback about being an older athlete in a younger athletes game about competition doubt and belief about working through pain and uncertainty and finally about seizing the moment and most important never giving up A truly self made legend her story will resonate with women of all ages and with anyone daring to entertain a seemingly impossible dream
