Complementary Medicine In Clinical Practice:

Complementary Medicine in Clinical Practice David Rakel, Nancy Faass, 2006 The resources in this book are offered to empower you with greater access to the therapies of complementary medicine those supported by research evidence and most widely accepted by physicians and consumers Expanding the continuum of care to include lifestyle and complementary therapies can provide additional tools to address the health concerns that challenge our patients Botanical Medicine in Clinical Practice Ronald Ross Watson, Victor R. Preedy, 2008 The potential benefits of plants and plant extracts in the treatment and possible prevention of many leading health concerns are historically well known and are becoming more widely studied and recognized within the medical community It is these studies that led to the first compilation of new research developments identifying new extracts and uses for plants in disease prevention and treatment This major comprehensive reference work contains contributions from more than 150 clinical and academic experts covering topics such as treatments of cancer and cardiovascular diseases as well as historical plant use by indigenous people supported by recent scientific studies Authors review the safety and efficacy of botanical treatments while identifying the sources historical supportive data and mechanisms of action for emerging treatments Written by researchers currently carrying out identification and biomedical testing this is the most up to date text on the latest research from all over the world It is an essential resource for health care practitioners and herbalists as well as researcher students and professionals in botany and alternative medicine *Complementary therapies for neurological disorders: From bench to clinical practices* Yang Ye, Jingling Chang, Shuren Li, Lingyong Xiao, 2023-07-03 *Clinical Decision Making in Complementary & Alternative Medicine* Matthew Leach, 2010-07-16 There are few published texts that address professional practice issues in complementary and alternative medicine CAM There are no known works that describe a clinical framework for CAM practice The majority of texts on CAM to date explore the use or efficacy of specific CAM interventions and whilst the proposed text will also highlight evidence based interventions it will also inform practitioners how to apply these interventions within a clinical decision making framework Introduces a systematic framework to CAM clinical practice Focus on evidence based practice without ignoring the underlying philosophy of complementary and alternative medicine Includes learning objectives and learning activities to not only consolidate reader knowledge but to assist educators to effectively teach the process to students of CAM Enables CAM practitioners to systematically assess diagnose treat and evaluate client centred health problems in accordance with CAM art science and philosophy Guides CAM practitioner thinking assessment and care which may help to increase professional autonomy and practitioner accountability improve client outcomes and quality of care and reduce decision making error Clinical Decision Making in Complementary Alternative Medicine is also unique in that it focuses on evidence based practice while also paying attention to the underlying philosophy of complementary and alternative medicine includes learning objectives and activities to consolidate reader knowledge and help

lecturers teaching complementary and alternative medicine students enables complementary and alternative medicine practitioners to systematically assess diagnose treat and evaluate client centred health problems in accordance with the established art science and philosophy of complementary and alternative medicine guides practitioner thinking assessment and care all of which may help increase professional autonomy and accountability improve client outcomes and quality of care and reduce errors in decision making
