Computer Vision - ECCV 2008 David Forsyth, Philip Torr, Andrew Zisserman, 2008-10-11 Welcome to the 2008 European Conference on Computer Vision These proceedings are the result of a great deal of hard work by many people To produce them a total of 871 papers were reviewed Forty were selected for oral presentation and 203 were selected for poster presentation yielding acceptance rates of 4.6% for oral 23.3% for poster and 27.9% in total

We applied three principles First since we had a strong group of Area Chairs the final decisions to accept or reject a paper rested with the Area Chair who would be informed by reviews and could act only in consensus with another Area Chair Second we felt that authors were entitled to a summary that explained how the Area Chair reached a decision for a paper Third we were very careful to avoid conflicts of interest Each paper was assigned to an Area Chair by the Program Chairs and each Area Chair received a pool of about 25 papers The Area Chairs then identified and ranked appropriate reviewers for each paper in their pool and a constrained optimization allocated three reviewers to each paper We are very proud that every paper received at least three reviews At this point authors were able to respond to reviews The Area Chairs then needed to reach a decision We used a series of procedures to ensure careful review and to avoid conflicts of interest Program Chairs did not submit papers The Area Chairs were divided into three groups so that no Area Chair in the group was in conflict with any paper assigned to any Area Chair in the group

Computer Vision - ECCV 2004 Tomas Pajdla, Jiri Matas, 2004-05-10 Welcome to the proceedings of the 8th European Conference on Computer Vision Following a very successful ECCV 2002 the response to our call for papers was almost equally strong 555 papers were submitted We accepted 41 papers for oral and 149 papers for poster presentation Several innovations were introduced into the review process First the number of program committee members was increased to reduce their review load We managed to assign to program committee members no more than 12 papers Second we adopted a paper ranking system Program committee members were asked to rank all the papers assigned to them even those that were reviewed by additional reviewers Third we allowed authors to respond to the reviews consolidated in a discussion involving the area chair and the reviewers Fourth their reports their reviews and their responses were made available to the authors as well as to the program committee members Our aim was to provide the authors with maximal feedback and to let the program committee members know how authors reacted to their reviews and how their reviews were or were not reflected in the final decision Finally we reduced the length of reviewed papers from 15 to 12 pages The preparation of ECCV 2004 went smoothly thanks to the efforts of the organizing committee the area chairs the program committee and the reviewers We are indebted to Anders Heyden Mads Nielsen and Henrik J Nielsen for passing on ECCV traditions and to Dominique Asselineau from ENST TSI who kindly provided his GestRFIA conference software We thank Jan Olof Eklundh and Andrew Zisserman for encouraging us to organize ECCV 2004 in Prague
