Library of Congress Subject Headings Library of Congress, 2012 **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office, 2004 **Complications in Acute Care Surgery** Jose J. Diaz, David T. Efron, 2016-11-14 This text provides the reader a starting point for the most difficult and uncommon complications in acute care surgery It is designed to provide options to that ubiquitous intra operative or bedside question Well now what do we do with this The topics have been chosen for the extreme difficulty of management and the surprising regularity that they

present and the lack of large volume of accumulated evidence where expert experience remains vital The volume editors present a list of clinical scenarios intra operative findings and ethical circumstances that few general surgeons in their career will see in their career The authors represent the most prolific surgeons in practice today They present how they would manage these challenging acute care surgery problems based on their vast clinical experience Here these surgeons share their personal experience with the most difficult cases The text is divided into 4 parts The first part is Global Patient Issues when a singular surgical problem presents itself in a very complicated patient with an extensive list of unstable comorbid diseases The second part is Specific Disease Issues This is a surgical text and as such each issue is an unexpected intra operative finding and expert management The third part is Post Operative Issues and as any seasoned surgeon knows is the most critical part of managing a complicated surgical case The last section is Challenging Ethical Scenarios The text is designed to provide the surgeon in training or the seasoned general surgeon unique clinical or operative options for the care of their patients
