Landscape Painting Mitchell Albala, 2011-11-15 Because nature is so expansive and complex so varied in its range of light landscape painters often have to look further and more deeply to find form and structure value patterns and an organized arrangement of shapes In Landscape Painting Mitchell Albala shares his concepts and practices for translating nature's grandeur complexity and color dynamics into convincing representations of space and light Concise practical and inspirational Landscape Painting focuses on the greatest challenges for the landscape artist such as Simplification and Massing Learn to reduce nature's complexity by looking beneath the surface of a subject to discover the form's basic masses and shapes Color and Light Explore color theory as it specifically applies to the landscape and learn the various strategies painters use to capture the illusion of natural light Selection and Composition Learn to select wisely from nature's vast panorama Albala shows you the essential cues to look for and how to find the most promising subject from a world of possibilities The lessons in Landscape Painting based on observation rather than imitation and applicable to both plein air

and studio practice are accompanied by painting examples demonstrations photographs and diagrams Illustrations draw from the work of more than 40 contemporary artists and such masters of landscape painting as John Constable Sanford Gifford and Claude Monet Based on Albala s 25 years of experience and the proven methods taught at his successful plein air workshops this in depth guide to all aspects of landscape painting is a must have for anyone getting started in the genre as well as more experienced practitioners who want to hone their skills or learn new perspectives *Art and the Gardener* Gordon Hayward,2008 In *Art and the Gardener* Gordon Hayward s tenth book on garden design he makes a radical departure from his earlier approaches in order to explore elements of visual language across two artistic disciplines fine painting and garden design in hopes that the remarkable crosscurrents will help reveal how to design or simply appreciate your garden with greater acuity

California Impressionists Susan Landauer,Irvine Museum,Georgia Museum of Art,Atlanta Committee for the Olympic Games,1996 The years around the turn of the century were a dynamic time in American art Different and seemingly contradictory movements were evolving and the dominant style that emerged during this period was Impressionism Based in part on the broken brushwork and high keyed palette of Claude Monet it was a form especially suited to the dramatic landscape and shimmering light of California This book celebrates forty Impressionist painters who worked in California from 1900 through the beginning of the Great Depression it includes widely recognized California artists such as Maurice Braun and Guy Rose less well known artists such as Mary DeNeale Morgan and Donna Schuster and eastern painters who worked briefly in the region such as Childe Hassam and William Merritt Chase The contributors essays examine the socioeconomic forces that shaped this art movement as well as the ways in which the art reflected California s self cultivated image as a healthful sun splashed arcadia

painters in the country As a teacher in a community college I am not teaching a particular style nor focusing on specific subject matter Some of my students work with the landscape but others do portraits or figurative work while others prefer still life or work abstractly In dealing with this mixture I ve realized that there are different ways to approach one s use of color and this formed my first idea for creating a book Furthermore as a teacher I ve spent time experimenting with different surfaces pastel brands and techniques in order to make suggestions to students to help them find the look they want to achieve I do not teach students to paint the way I do but instead try to share my experience and help them develop their own individual style
