The legal Ramifications of the Universal Declaration of Human Rights under the International Human Rights Regime. An Overview Kofi Kyere Asante, 2020-07-22. Essay from the year 2020 in the subject Politics. Topic: Public International Law and Human Rights. grade 4.0. language: English. abstract: The legal status of the UDHR in International law has engendered great debate and discourse. For years, scholars and authors alike have posited a myriad of theories regarding what many have described as a highly contentious subject. The purpose of this paper is to bring clarity to an issue that has befuddled and continues to befuddle students of law. The paper offers an intriguing and a multi-faceted approach to the enforceability of the UDHR on both the world and domestic Ghanaian stages. It takes the reader through a refreshing description of basic concepts that encapsulate human rights and expatiates in conjunction with case law the legal effects of the UDHR from the Ghanaian perspective against an international backdrop.

Russia's Aggression Against Ukraine. State Responsibility, Individual Responsibility and Accountability Alexander Antonov, 2018-09-17. Master's Thesis from the year 2018 in the subject Politics. Topic: Peace and Conflict. Security. grade 12. University of Southern Denmark. language: English. abstract: The majority of legal practitioners and liberal democratic states hold the same opinion: Russia's annexation of Crimea and its support to the rebels in Eastern Ukraine constituted an act of aggression against the sovereign state of Ukraine. Four years have passed since fighting erupted in Ukrainian regions adjacent to Russia, leaving thousands of innocent civilians dead, traumatised, or homeless. Families have been torn apart. Despite a vast amount of evidence, Russia has continued to deny the facts that it breached international law by annexing a foreign territory and supporting the so-called Donetsk People's Republic and Luhansk People's Republic after the ousting of the former pro-Russian president Viktor Yanukovich at the end of the Maidan revolution in February 2014. Most researchers expounded on the international norms Russia has put at stake and pondered over Russia's unreasonable legal justifications for its actions in Crimea. The Ukraine crisis has been dealt with extensively both from a political science and legal perspective, but only a few scholars discussed the tools international law provide to establish Russia's responsibility.

for its wrongful conduct and to hold individuals responsible suspected of having committed crimes against humanity and war crimes on Ukrainian territory Scrutinizing Ukraine's recent application at the International Court of Justice on the basis of two treaties the International Convention for the Suppression of the Financing of Terrorism and the International Convention on the Elimination of All Forms of Racial Discrimination and analysing Ukraine's acceptance of the ICC jurisdiction pursuant to Art 12 3 of the Rome Statute this author aimed to identify the tools and barriers of international law in the context of establishing state and respectively individual responsibility An analysis of the role of the UN Human Rights Monitoring Mission in Ukraine complemented the former two perspectives Whereas the ICJ and the ICC can enforce international law and hold either states ICJ or individuals responsible ICC the HRMMU was examined for the purpose of creating accountability for grave violations of international human rights law and international humanitarian law **Select**

between different but overlapping legal systems has always presented challenges to black letter law. This is particularly true of the relationship between international law and domestic law and the relationship between federal law and the laws of individual federation members. Moreover, some organisations have created their own supranational constitutional systems: the United Nations Charter is the best known and is often referred to as the World Constitution, but the European Court of Justice in Luxembourg views the European Treaties as a Constitutional Charter for Europe, while the European Court of Human Rights has defined the European Convention on Human Rights as a constitutional instrument of European public order. It is in the dynamic relationship between domestic constitutional laws, EU law, the ECHR and the UN Charter that the most persistent difficulties arise. In this context, interordinal instability not only provokes strong academic interest but also affects what has been called governance or global government and undermines both legal certainty and individual fundamental rights. Different solutions, constitutionalist and pluralist, have been explored but none of them has received global acceptance. In this book, Luis Gordillo analyses the interordinal instabilities which arise at the European level, focusing on three main strands of case law and their implications: *Solange*, *Bosphorus* and *Kadi*. To solve the difficulties caused by this instability, Gordillo proposes a form of soft constitutionalism which he calls interordinal constitutionalism as a means to bring order and stability to global legal governance. The original Spanish thesis on which this book is based was awarded the Nicolás Pérez Serrano Prize by the Centro de Estudios Políticos y Constitucionales for the best dissertation in constitutional law 2009-2010.

Complete International Law Ademola Abass, 2012. Includes bibliographical references and index. **The Readmission of Asylum Seekers under International Law** Mariagiulia Giuffré, 2020-02-20. This monograph could not be more timely as discourses relating to refugees' access to territory, rescue at sea, push back and push back by proxy dominate political debate. Looking at the questions which lie at the junction of migration control and refugee law standards, it explores the extent to which readmission can hamper refugees' access to protection. Though it draws mainly on European law, notably the European Convention on Human Rights, it also examines other international frameworks including those employed by the United Nations and instruments such as the Refugee Convention. Therefore, this book is of importance to readers of international law, refugee law, human rights and migration studies at the global level. It offers an analysis of both the legal and policy questions at play and engages fully with widely disputed cases concerning readmission, agreements, deportation with assurances and interception at sea. By so doing, this book seeks to clarify a complex field which has at times suffered from partiality in both its terminology and substance.
