Compose Yourself! Andy Barnett, 2003 Music touches your body mind and spirit through the same principles of resonance that govern the cycles of life here on earth and shape the galaxies beyond Right now your own body is playing a complex rhythm including the beating of your heart and the constant flow of your breath Even if you can't sing or play an instrument you can use the musical model presented in this book to create a more harmonious life **The Publishers Weekly**, 2003 [The Rhythm of Life](#) Charles Brodie Patterson, 1915 **Bibliographic Guide to Music** New York Public Library. Music Division, 2004 [Awaken 101](#) Christopher Uhl, Melissa DiJulio, 2020-09-15 Discovering our meaning and purpose our reason for being can seem like an impossible task especially given the tumultuous times in which we find ourselves Through challenging provocations uplifting narratives and profound insights this book emboldens readers to experience their lives not as spectators but as reflective courageous and purposeful participants We can turn toward the problems look them in the eye and begin the work of setting things right we can begin the process of awakening Organized as a five part journey it explores both cognitively and experientially what it might mean to assume the rightful authorship of your life By breaking out of the dominant narrative of how life should be lived and by becoming more aware of the world around us we can gain the tools essential for becoming open minded embodied introspective and soulful human beings
