Foreign Modernism Ihor Junyk, 2013-06-17 At the beginning of the twentieth century Paris was the cosmopolitan hub of Europe and home to a vast number of foreigners including the writers painters sculptors and musicians who were creating works now synonymous with modernism itself such as *Les Femmes d'Alger* *The Rite of Spring* and *Ulysses* The situation at the end of the period however could not have been more different even before the violence of the Second World War the cosmopolitan avant garde had largely abandoned Paris driven out by nationalism xenophobia and intolerance *Foreign Modernism* investigates this tense and transitional moment for both modernism and European multiculturalism by looking at the role of foreigners in Paris's artistic scene Examining works of literature sculpture ballet and performing arts music and architecture Ihor Junyk combines cultural history with contemporary work in transnationalism and diaspora studies Junyk emphasizes how migr artists used radical new forms of art to resist the culture of virulent nationalism taking root in France and to articulate new forms of cosmopolitan identity

curatorial work that the celebrated poet Frank O Hara 1926 1966 undertook for the Museum of Modern Art in New York and abroad Upon his premature death the New York Times obituary ran with the headline Frank O Hara 40 Museum Curator Exhibitions Aide at Modern Art Dies Also a Poet However in the half a century since O Hara s fascinating career as a curator where he oversaw exhibitions of the likes of Jackson Pollock Helen Frankenthaler David Smith and Larry Rivers among others has been eclipsed by the critical attention given over to his poetry Drawing on a broad range of unpublished archival material the book reveals the impact O Hara s curatorial work had both on the reception of American modern art abroad and on the curatorial profession itself It focuses on his travelling exhibitions for MoMA s International Program a vehicle for soft power during the fraught years of the cultural Cold War exposing him to new art artists and cities while developing important transnational networks far from New York from Madrid to Venice Zagreb to Otterlo Bringing together close readings of O Hara s poems and unpublished letters with a selection of archival illustrations Holman argues for O Hara s sense of exuberant continuity between life as a writer and a curator an American and a cosmopolitan revealing that he was so much more besides the quintessential New York poet It is perfect reading for anyone interested in American art in the mid 20th century curatorial and museum studies or simply this lesser known but fascinating aspect of the legendary poet s career

Nadia Boulanger and Her World Jeanice Brooks,2020-11-19 Nadia Boulanger 1887 1979 was arguably one of the most iconic figures in twentieth century music and certainly among the most prominent musicians of her time For many composers especially Americans from Aaron Copland to Philip Glass studying with Boulanger in Paris or Fontainebleau was a formative moment in a creative career Composer performer conductor impresario and charismatic and inspirational teacher Boulanger engaged in a vast array of activities in a variety of media from private composition lessons and lecture recitals to radio broadcasts recordings and public performances But how to define and account for Boulanger s impact on the music world is still unclear Nadia Boulanger and Her World takes us from a time in the late nineteenth century when many careers in music were almost entirely closed to women to the moment in the late twentieth century when those careers were becoming a reality Contributors consider Boulanger s work in the worlds of composition musical analysis and pedagogy and explore the

geographies of transatlantic and international exchange and disruption within which her career unfolded Ultimately this volume takes its title as a topic for exploration asking what worlds Boulanger belonged to and in what sense we can consider any of them to be hers *Americanism, Media and the Politics of Culture in 1930s France* David A. Pettersen, 2016-05-20 First book to focus on Americanism and its consideration of French film and literature The book is organized around individual figures texts and films making it easy to adopt for individual units in courses The book is written in clear accessible and jargon free language The book brings a new and innovative transatlantic perspective to 1930s French culture The book offers new perspectives on important figures that we thought we knew well The book mixes cultural history with the analysis of individual films and novels in a way that is engaging to read **Concepts of the World** Effie Rentzou, 2022-09-15 How did the avant garde imagine its interconnected world And how does this legacy affect our understanding of the global today The writers and artists of the French avant garde aspired to reach a global audience that would be wholly transformed by their work In this study Effie Rentzou delves deep into their depictions of the interwar world as an international and modern landscape one marked by a varied cosmopolitanism The avant garde's conceptualization of the world paralleled rejected or expanded prevailing notions of the global sphere The historical avant garde which encompassed movements like futurism Dada and surrealism was self consciously international operating across global networks and developed with the whole world as its horizon and its public In the heady period between the end of the Belle poque and the tumult of World War II both individual artists including Guillaume Apollinaire Blaise Cendrars Francis Picabia Louis Aragon Leonora Carrington and Nicolas Calas and collective endeavors such as surrealist magazines and exhibitions grappled with contemporary anxieties about economic growth imperialism and colonialism as well as various universalist cosmopolitan and internationalist visions By probing these works *Concepts of the World* offers an alternative narrative of globalization one that integrates the avant garde's enthusiasm for as well as resistance to the process Rentzou identifies within the avant garde a powerful political language that expressed the ambivalence of living and creating in an increasingly globalized world a language that profoundly shaped the way the world has been conceptualized and is experienced today **European Elites and Ideas of Empire, 1917-1957** Dina Gusejnova, 2016-06-16 Who thought of Europe as a community before its economic integration in 1957 Dina Gusejnova illustrates how a supranational European mentality was forged from depleted imperial identities In the revolutions of 1917 to 1920 the power of the Hohenzollern Habsburg and Romanoff dynasties over their subjects expired Even though Germany lost its credit as a world power twice in that century in the global cultural memory the old Germanic families remained associated with the idea of Europe in areas reaching from Mexico to the Baltic region and India Gusejnova's book sheds light on a group of German speaking intellectuals of aristocratic origin who became pioneers of Europe's future regeneration In the minds of transnational elites the continent's future horizons retained the contours of phantom empires This title is available as Open Access [The Art of Joaquín Torres-García](#) Aarnoud Rommens, 2016-08-05 Intertwining art

history aesthetic theory and Latin American studies Aarnoud Rommens challenges contemporary Eurocentric revisions of the history of abstraction through this study of the Uruguayan artist Joaquín Torres García After studying and painting for decades in Europe Torres García returned in 1934 to his native home Montevideo with the dream of reawakening and revitalizing what he considered the true indigenous essence of Latin American art Abstract Spirit Rommens rigorously analyses the paradoxes of the painter's aesthetic philosophical doctrine of Constructive Universalism as it sought to adapt European geometric abstraction to the Americas Whereas previous scholarship has dismissed Torres García's theories as self-contradictory Rommens seeks to recover their creative potential as well as their role in tracing the transatlantic routes of the avant-garde Through the highly original method of reading Torres García's artworks as a critique on the artist's own writings Rommens reveals how Torres García appropriates the colonial language of primitivism to construct the artificial image of pure pre-Columbian abstraction Torres García thereby inverts the history of art this book teases out the important lessons of this gesture and the implications for our understanding of abstraction today

The London Object Grant Hamilton, 2021-05-26 tienne Balibar writes that today we are at the end of capitalism This is not because capitalism has run its course or has met an irresistible force but because there can be no purer form of capitalism than the one we have today Taking seriously the idea that this strain of capitalism has not only seized the urban environment but is the urban environment works by Michael Moorcock Iain Sinclair Penelope Lively Peter

Ackroyd and J G Ballard are read as representative of a loosely allied group of London writers who have anticipated critiqued and offered up various avenues of resistance to the deleterious effects of this most vigorous strain of capitalism Writing on the city by charting a politics of reconnection to the real that necessarily unsettles the epistemological and ontological ground upon which both modernity and capitalism sit this stable of writers makes clear the ways in which the sheer materiality of the urban environment profoundly influences the being and thinking of individuals In so doing these writers produce works which when read together give the coordinates of an altermodernity that might just allow capitalism to reach its final conclusion **Narcissistic Mothers in Modernist Literature** Marie G raldine Rademacher,2019-09-13

Narcissistic mothers are an important motif in modernist literature Tracing its appearance in the works of writers such as D H Lawrence and Virginia Woolf this book questions the dichotomous image of either benevolent or suffocating mother which has pervaded religion art and literature for centuries Instead of focusing on the mother child dyad as characterized primarily by maternal domination and the child s submission Marie G raldine Rademacher insists on the definitional nuances of the term narcissism and considers the political and socio economic context of the time in shaping these women s narcissistic behavior The study thus inspires a more positive re reading of the protagonists ** cole de Paris global** Annabel

Itinerant Ideas Joanna Crow, 2022-09-10 This book explores how ideas about race travelled across national borders in early twentieth century Latin America It builds on a vast array of scholarly works which underscore the highly contingent and flexible nature of race and racism in the region The framework of the nation state dominates much of this scholarship in part because of the important implications of ideas about race for state policies This book argues that we need to investigate the cross border elaboration of ideas that informed and fed into these policies It is organized around three key policy areas labour cultural heritage and education and focuses on conversations between Chilean and Peruvian intellectuals about the indigenous question Most historical scholarship on Chile and Peru draws attention to the wars fought in the nineteenth century and their long term consequences which reverberate to this day Relations between the two countries are therefore interpreted almost exclusively as antagonistic and hostile Itinerant Ideas challenges this dominant historical narrative
