Translating the Occupation Jonathan Henshaw, Craig A. Smith, Norman Smith, 2021-02-15 From 1931 to 1945, as Japanese imperialism spread throughout China, three distinct regions experienced life under occupation: Manchukuo, East China, and North China. Yet despite the enduring importance of the occupation to world history and historical memory in East Asia, *Translating the Occupation* is the first English language volume to make available key sources from this period to both scholars and students. Contributors have translated texts from Chinese, Japanese, and Korean on a wide range of subjects. Each is accompanied by a short essay to contextualize the translation and explain its significance. This volume offers a practical, accessible sourcebook from which to challenge standard narratives. The texts have been selected to deepen our understanding of the myriad tensions, transformations, and continuities in Chinese wartime society. *Translating the Occupation* reasserts the centrality of the occupation to twentieth-century Chinese history, opening the door further to much needed analysis.

Sulmaan Wasif Khan chronicles the grand strategies that have sought to protect China from aggression and ensure it would never again experience the powerlessness of the late Qing and Republican eras.

Paths of Innovation in Warfare Nicholas Michael Sambaluk, 2018-04-20 Innovation shapes wars, and twelve studies by former faculty members of West Point's United States Military Academy examine specific cases of past and present military innovation. The complex, competitive, and dynamic environment that defines war drives combatants to seek solutions to potentially lethal problems. As some solutions prove effective, gain traction, and win emulation, they follow a path of innovation. The chapters address a broad array of innovations, including in weapon technology, strategy, research, and development philosophy, organization of the military instrument, and leveraging maps for strategic goals. Geographically, the examples in this volume span four continents and the Mediterranean Sea, and chronologically, they proceed from the twelfth century to the twenty-first. Collectively, the studies point to the interconnected value of pursuing constructive solutions to challenges, networking interdisciplinary forms of knowledge, appropriately balancing expectations and capabilities, and understanding an innovation as a journey rather than as an episodic event.

Unending Capitalism Karl Gerth, 2020-05-14 In this provocative account, Karl Gerth argues that consumerism, rather than communism, explains the history of China since 1949.

China's War Reporters Parks M. Coble, 2015-03-09 When Japan invaded China in 1937, Chinese journalists greeted the news with euphoria, convinced their countrymen, led by Chiang Kai-shek, would triumph. Parks Coble shows that correspondents underplayed China's defeats for fear of undercutting morale, and then saw their writings disappear, and themselves denounced, after the Communists came to power.

Global History in China Xin Fan, 2024-06-30 This book explores global

history as an emerging field of scholarly studies in China today Readers are invited to rethink the origin of global history in China and to examine its current state Chinese scholarship is rooted in a warm appreciation of globalization in the age of Opening up and Reform and presented as a trendy transnational intellectual movement at the opening of the twenty first century On the one hand global history claims an identity of the new eager to criticize the Eurocentric bias embedded in the narratives of the old ones from world history on the other hand as an emerging field it is yet to face competitions from national histories and area studies which are nurtured by latest state initiatives with outspoken political agendas As a whole global history captures Chinese scholars tenacious interest in studying globalization through the lens of history This book will interest historians China scholars and those trying to grasp the Chinese perspective on the world **The Adoption Plan**

Jack Neubauer, 2025-03-18 During the tumultuous years of World War II and the Cold War new global humanitarian ideas and practices coalesced around the cause of saving the children in China How did China's children become archetypal victims who ignited a new global humanitarian imagination And who would prevail in the transnational contest to control the vast quantities of aid flowing into China on their behalf The Adoption Plan offers a new history of the rise of global humanitarianism that places the recipients administrators and critics of humanitarian aid in China at the center of the story Analyzing how the adoption plan for international child sponsorship became one of the most popular fundraising strategies for humanitarian work in China and across the world Jack Neubauer explores how the globalization of humanitarian aid was linked to new practices of global intimacy that enabled donors to build personal relationships with Chinese children across geographic and cultural divides Drawing on hundreds of letters written by Chinese children to foreign sponsors and extensive research in Chinese archives Neubauer shows how China's Nationalist and Communist parties mobilized the emotional bonds between children and sponsors to secure international support for their competing political projects By the 1950s child sponsorship and international adoption had become the most hotly contested humanitarian programs in Cold War East Asia Upending the conventional view of humanitarianism as a tool of Western influence The Adoption Plan demonstrates that it was often the Chinese recipients of aid who were best able to control its material and ideological uses **Southeast Asia in China**

Ying-kit Chan, Chang-Yau Hoon, 2022-11-28 As part of China's south Southeast Asia has historically assumed a peripheral position when juxtaposed against the power of the Chinese state In the existing scholarly literature the power asymmetry is reflected in the ostensible bias where most studies are about China's presence in or engagement with Southeast Asia rather than the reverse studies on the presence or influence of Southeast Asia in China have been a marginal enterprise The present volume aims to fill this void by exploring the historical entanglements and contemporary engagements of Southeast Asians in China through a Southeast Asian perspective As China seeks to understand Southeast Asia's presence in the country on its own terms it is also engaged in a process of self discovery and defining where and how it should stand in relation to the region Departing from the discourse of China as the a priori center dominating the scholarship

on China Southeast Asia relations the present volume hopes to subvert such power relations in order to bring fresh perspectives on the historical and contemporary contributions of Southeast Asia ns in China *Japan and Asia's Contested Order* Yul Sohn,T. J. Pempel,2018-08-20 This book brings together up to date research from prominent international scholars in a collaborative exploration of the Japan s efforts to shape Asia s rapidly shifting regional order Pulled between an increasingly inward looking America whose security support remains critical and a rising and more militarily assertive China with whom Japan retains deep economic interdependence Japanese leaders are consistently maneuvering to ensure the country s regional interests Nuclear and missile threats from North Korea and historically problematic relations with South Korea further complicate Japanese endeavors So too do the shifting winds of Japanese domestic politics economics and identity The authors weave these complex threads together to offer a nuanced portrait of both Japan and the region Scholars observers of politics and policymakers will find this a timely and useful collection **News under Fire** Shuge Wei,2017-09-05 *News under Fire* China s Propaganda against Japan in the English Language Press 1928 1941 is the first comprehensive study of China s efforts to establish an effective international propaganda system during the Sino Japanese crisis It explores how the weak Nationalist government managed to use its limited resources to compete with Japan in the international press By retrieving the long neglected history of English language papers published in the treaty ports Shuge Wei reveals a multilayered and often chaotic English language media environment in China and demonstrates its vital importance in defending China s sovereignty Chinese bilingual elites played an important role in linking the party led propaganda system with the treaty port press Yet the development of propaganda institution did not foster the realization of individual ideals As the Sino Japanese crisis deepened the war machine absorbed treaty port journalists into the militarized propaganda system and dashed their hopes of maintaining a liberal information order A superbly researched and well nuanced account of an overlooked topic nationalist China s propaganda system and the multiple ways in which it intersected with the treaty port foreign language press of the time Combining a wealth of archival and newspaper sources it is destined to be on the must read list of all who are interested in state propaganda and news dissemination in the Republican period Julia C Strauss professor of Chinese politics SOAS University of London An absorbing and well sourced study of KMT propaganda efforts to convince the United States to side with China rather than Japan in WWII The study shows how the KMT facing a massive power asymmetry compared to its Japanese opponent managed to effectively use the soft power of foreign propaganda Rudolf G Wagner senior professor of Chinese studies Cluster of Excellence Asia and Europe Heidelberg University Germany **Politics in China** William A. Joseph,2019 On October 1 2019 the People s Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world s poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to

a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest Politics in China provides an accessible yet authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book's chapters provide overviews of major periods in China's modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan

Wartime Culture in Guilin, 1938-1944 Pingchao Zhu, 2015-10-30 This book examines the development of wartime culture in the city of Guilin Guangxi Province in southwestern China during a major part of the country's war of resistance against Japanese invasion between 1938 and 1944 This study challenges existing historiography on China's wartime culture at three levels First the Guangxi warlord group played a crucial role in maintaining regional security providing a liberalized political environment for wartime cultural activities and facilitating wartime nationalist communist relations at both local and national levels Second wartime culture was more literary than political and it reflected a powerful intellectual vigor that was an indispensable component of China's war efforts Intellectuals of different social and political backgrounds were their own organic selves feeling no pressure to come to intellectual consensus in literary production Third wartime culture was characterized by the active participation of many international groups political organizations and foreign individuals The literary works produced in Guilin between 1938 and 1944 clearly reflected a combination of Chinese national and international anti fascist and anti military sentiment Chinese literary masterpieces were translated into different foreign languages and noted foreign literature and political works were introduced to Chinese audiences through various cultural and political exchange programs in the city

China and the True Jesus Melissa Wei-Tsing Inouye, 2018-12-03 In 1917 the Beijing silk merchant Wei Enbo's vision of Jesus sparked a religious revival characterized by healings exorcisms tongues speaking and most provocatively a call for a return to authentic Christianity that challenged the Western missionary establishment in China This revival gave rise to the True Jesus Church China's first major native denomination The church was one of the earliest Chinese expressions of the twentieth century charismatic and Pentecostal tradition which is now the dominant mode of twenty first century

Chinese Christianity To understand the faith of millions of Chinese Christians today we must understand how this particular form of Chinese community took root and flourished even throughout the wrenching changes and dislocations of the past century The church s history links together key themes in modern Chinese social history such as longstanding cultural exchange between China and the West imperialism and globalization game changing advances in transport and communications technology and the relationship between religious movements and the state in the late Qing circa 1850 1911 Republican 1912 1949 and Communist 1950 present day eras Vivid storytelling highlights shifts and tensions within Chinese society on a human scale How did mounting foreign incursions and domestic crises pave the way for Wei Enbo a rural farmhand to become a wealthy merchant in the early 1900s Why did women in the 1920s and 30s such as an orphaned girl named Yang Zhendao devote themselves so wholeheartedly to a patriarchal religious system What kinds of pressures induced church leaders in a meeting in the 1950s to agree that Comrade Stalin had saved many more people than Jesus This book tells the striking but also familiar tale of the promise and peril attending the collective pursuit of the extraordinary how individuals within the True Jesus Church in China over the past century have sought to muster divine and human resources to transform their world

Tombs and Transnational History in Greater China Gotelind Müller, 2022 This collection of case studies is concerned with tombs that testify to transnational history Special attention is given to tombs of Westerners and Russians still extant in Greater China but also to those of some noted Chinese who were involved in transnational history during the 20th century Tombs have a special potential to cast familiar things in a new light They also provide the possibility to counter check received narratives which might have been tailored along certain vested interests and circulated with specific target groups in mind

A Legislative History of the Taiwan Relations Act Martin B. Gold, 2016-12-27 As 1979 dawned President Jimmy Carter extended diplomatic recognition to the People s Republic of China upending longstanding U S foreign policy in Asia For thirty years after the triumph of Mao s revolution the United States continued to recognize the claim of the Republic of China based on Taiwan to govern the entire country Intricate economic and cultural relations existed between Washington and Taipei backed by a Mutual Defense Treaty While Carter withdrew from the treaty satisfying a core Chinese condition for diplomatic relations he presented Congress with legislation to allow other ties with Taiwan to continue unofficially Many in Congress took issue with the President Generally supportive of his policy to normalize relations with China they worried about Taiwan s future Believing Carter s legislation was incomplete especially regarding Taiwan s security they held extensive hearings and lengthy debates substantially strengthening the bill The President ensured the measure comported with the terms of normalization He negotiated with Congress to produce legislation he could sign and Beijing could at least tolerate Although the final product enjoyed broad consensus in Congress fights over amendments were fierce and not always to the President s advantage Passage of the Taiwan Relations Act stabilized America s position in Asia and its situation with Taipei while allowing the new China to be properly launched Now in its fourth decade the Act remains

highly impactful on the leading bilateral relationship in the world The United States Constitution makes Congress the President's partner in shaping American foreign policy The Taiwan Relations Act of 1979 vividly demonstrates how robust congressional engagement and inter Branch cooperation leads to stronger and more durable policy outcomes which enjoy a greater degree of public acceptance Making China Modern Klaus Mühlhahn, 2019-01-14 Klaus Mühlhahn situates modern China in the nation's long dynamic tradition of overcoming adversity and weakness through creative adaptation a legacy of crisis and recovery that is apparent today in China's triumphs but also in its most worrisome trends Mühlhahn's panoramic survey rewrites the history of modern China for a new generation
