Fortunes A River The Collision Of Empires In Northwest America:

Fortune's a River Barry M. Gough, 2007 Winner of the John Lyman Book Award for best Canadian naval and maritime history Finalist for the Nereus Writers Trust Non fiction Award Finalist for the Roderick Haig Brown Regional Prize BC Book Prize Longlisted for the 2007 Victoria Butler Book Prize Honourable Mention for the Canadian Nautical Research Society's Keith Matthews Award *Fortune's a River* is the most authoritative and readable account to date of just how British Columbia became British and how Oregon Washington and Alaska became American By the closing years of the 18th century the stage was set for a major international confrontation over the Northwest Coast Imperial Russia was firmly established in Alaska Spain was extending its trade routes north from Mexico Captain James Cook had claimed Northwest America for England and Captain Robert Gray had claimed the Columbia River region for the United States Open warfare between Spain and England was narrowly averted during the Nootka Sound Controversy of 1789 1794 and again between Britain and the US in the War of 1812 when a British warship seized American property in Oregon In *Fortune's a River* noted historian Barry Gough re examines this Imperial struggle for possession of the future British Columbia and fully evokes its peculiar drama It turned out the great powers were reluctant conquerors in this area Russia and Spain withdrew of their own accord Britain was in a position to dominate but couldn't be bothered The US vaguely wished to fulfill its manifest destiny by securing the Northwest Coast but it was not a priority In the end the battle was carried on by private enterprise and individuals of vision Alexander Mackenzie established an overland route to the coast and with his partners Simon Fraser and David Thompson set up a network of fur trading forts south to Oregon US president Thomas Jefferson countered by sending out the Lewis and Clark expedition to strengthen American claims and an American entrepreneur John Jacob Astor established a lonely US outpost at Astoria Gough examines each of the players in this territorial drama bringing them fully to life and vividly recounting their hardships and struggles *Fortune's a River* is a major historical work that reads like a wild west adventure

Britannia's Navy on the West Coast of North America, 1812-1914 Barry Gough, 2016-10-04 The influence of the Royal Navy on the development of British Columbia and the Pacific Northwest was both extensive and effective Yet all too frequently its impact has been ignored by historians who instead focus on the influence of explorers fur traders settlers and railway builders In this thoroughly revised and expanded edition of his classic 1972 work naval historian Barry Gough examines the contest for the Columbia country during the War of 1812 the 1844 British response to the aggressive American agenda of President Polk's Manifest Destiny and cries of Fifty four forty or fight the gold rush invasion of 30 000 outsiders and the jurisdictional dispute in the San Juan Islands that spawned the so called Pig War The author also looks at the Esquimalt based fleet in the decade before British Columbia joined Canada and the Navy's relationship with coastal indigenous peoples over the five decades that preceded the Great War

Furs and Frontiers In the Far North John R. Bockstoe, 2009-09-15 This comprehensive history of the native and maritime fur trade in Alaska during the eighteenth and

nineteenth centuries is without precedent The Bering Strait formed the nexus of the circumpolar fur trade in which Russians British Americans and members of fifty native nations competed and cooperated The desire to dominate the fur trade fed the European expansion into the most remote regions of Asia and America and was an agent of massive change in these regions Award winning author John R Bockstoce fills a major gap in the historiography of the area in covering the scientific commercial and foreign relations implications of the northern fur trade In addition the book provides rare insight into the relationship between the Western powers and the Native Americans who provided them with fur ivory and whalebone in exchange for manufactured goods tobacco tea alcohol and hundreds of other things But this is also the story of the enterprising individuals who energized the Alaskan fur trade and in doing so forever altered the region's history

Empire Maker Kenneth N. Owens, 2015-07-01 A native of northern Russia Alexander Baranov was a middle aged merchant trader with no prior experience in the fur trade when in 1790 he arrived in North America to assume command over Russia's highly profitable sea otter business With the title of chief manager he strengthened his leadership role after the formation of the Russian American Company in 1799 An adventuresome dynamic and charismatic leader he proved to be something of a commercial genius in Alaska making huge profits for company partners and shareholders in Irkutsk and St Petersburg while receiving scandalously little support from the homeland Baranov receives long overdue attention in Kenneth Owens's **Empire Maker** the first scholarly biography of Russian America's virtual imperial viceroy His eventful life included shipwrecks battles with Native forces clashes with rival traders and Russian Orthodox missionaries and an enduring marriage to a Kodiak Alutiiq woman with whom he had two children In the process the book reveals maritime Alaska and northern California during the Baranov era as fascinating cultural borderlands where Russian English Spanish and New England Yankee traders and indigenous peoples formed complex commercial political and domestic relationships that continue to influence these regions today

The Indianization of Lewis and Clark William R. Swagerty, 2012-10-29 Although some have attributed the success of the Lewis and Clark expedition primarily to gunpowder and gumption historian William R Swagerty demonstrates in this two volume set that adopting Indian ways of procuring processing and transporting food and gear was crucial to the survival of the Corps of Discovery The Indianization of Lewis and Clark retraces the well known trail of America's most famous explorers as a journey into the heart of Native America a case study of successful material adaptation and cultural borrowing Beginning with a broad examination of regional demographics and folkways Swagerty describes the cultural baggage and material preferences the expedition carried west in 1804 Detailing this baseline reveals which Indian influences were already part of Jeffersonian American culture and which were progressive adaptations the Corpsmen made of Indian ways in the course of their journey Swagerty's exhaustive research offers detailed information on both Indian and Euro American science medicine cartography and cuisine and on a wide range of technologies and material culture Readers learn what the Corpsmen wore what they ate how they traveled and where they slept and with whom before during and after

the return Indianization is as old as contact experiences between Native Americans and Europeans Lewis and Clark took the process to a new level accepting the hospitality of dozens of Native groups as they sought a navigable water route to the Pacific This richly illustrated interdisciplinary study provides a unique and complex portrait of the material and cultural legacy of Indian America offering readers perspective on lessons learned but largely forgotten in the aftermath of the epic journey *Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America* Robin

Inglis,2008-04-02 The Northwest Coast of America ranging from northern California through Oregon Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic it was systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s Subsequently the imperial ambitions of Russia Spain and Britain and an assumption of manifest destiny by the United States led to further exploration and ensured that the region would become disputed territory before national boundaries were determined in the mid 19th century The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America tells of the heroic endeavors and remarkable achievements the endless speculation about a northwest passage and the fighting and manipulation for commercial advantage that surrounded this terrain This is done through an introductory essay a detailed chronology an extensive bibliography modern maps and selected historical maps and drawings and over 400 cross referenced dictionary entries Entries cover the native people encountered the scientists and artists who left an invaluable documentary and visual record of people places flora and fauna the numerous voyages taken by men such as Vitus Bering James Cook Juan Francisco de la Bodega y Quadra and George Vancouver overland expeditions like those of Alexander Mackenzie Simon Fraser Meriwether Lewis and William Clark and David Thompson and maritime fur traders including George Dixon Grigori Shelikhov Robert Gray and William Sturgis No other dictionary exists that is dedicated solely to the coverage of this region

Captain Cook's Final Voyage James K. Barnett,2020-10-14 Maritime historian and researcher James K Barnett transcribed two extraordinary little known journals from Captain James Cook s third exploratory voyage They offer remarkable eyewitness accounts at the time of initial European contact the first reasonably accurate maps of North America s west coast the earliest comprehensive report from the Bering Sea ice pack and the dramatic story of Cook s death at Kealahukua Bay Astonishing for accounts of landings along Hawai i Vancouver Island and Alaska both chronicles languished in Australian archives for over a century Barnett adds context and commentary to complete the story Commissioned by the British Admiralty Cook set sail in July 1776 to confirm the outline of North America s Pacific coastline and search for the elusive Northwest Passage The expedition s sailing ships the Resolution and the Discovery traveled to the South Seas then chanced upon the Hawaiian Islands before reaching the Oregon coastline and the Arctic Cook chose to winter in the Hawaiian archipelago where he died in a skirmish His crews made a second attempt to find the coveted route then returned

to England after more than four years at sea James Burney was first lieutenant on the Discovery Active in shore parties and chart preparation he saw Cook's death from the ship's deck One of the few accounts from the consort vessel his writing provides new details and important thoughtful impressions of North and South Pacific people and places Working under the notorious William Bligh Henry Roberts was Master's Mate on the Resolution performing essential hydrographic and cartographic tasks He was a few feet away when Cook was killed His well illustrated logbook includes coordinates tables of routes and records of weather at sea but also lively accounts of shore excursions Illustrations include maps and drawings as well as images by the expedition's official artist John Webber

Unstable Properties Patricia Burke Wood, David

Rossiter, 2022-10-15 The so called land question dominates political discourse in British Columbia *Unstable Properties* reverses the usual approach investigating Aboriginal claims to Crown land to reframe the issue as a history of Crown attempts to solidify claims to Indigenous territory The political and intellectual leadership of First Nations has exposed the fragility of BC's political and civil property regimes insisting that the province grapple with diverse interpretations of sovereignty governance territory and property From the historical geographic processes through which the BC polity became entrenched in its present territory to key events of the twenty first century the authors of this clear eyed study highlight the unstable ideological foundation of land and title arrangements In 2015 the Truth and Reconciliation Commission emphasized the need to educate Canadians about settler colonialism *Unstable Properties* puts critical human geography at the service of this goal by demonstrating that understanding different conceptualizations of land and territorialization is a key element of reconciliation

Historical Dreadnoughts Barry Gough, 2010-07-05 An account of Arthur Marder his famous sparring partner Captain Stephen Roskill and their enduring quest for pre eminence in the naval history field This is the story of the remarkable intersecting careers of the two greatest writers on British naval history in the twentieth century the American professor Arthur Marder son of immigrant Russian Jews and Captain Stephen Roskill who knew the Royal Navy from the inside Between them these contrasting characters were to peel back the lid of historical secrecy that surrounded the maritime aspects of the two world wars based on the privileged access to official papers they both achieved through different channels Initially their mutual interests led to a degree of friendly rivalry but this was to deteriorate into a stormy academic feud fought out in newspaper columns and the footnotes of their books much to the bemusement and sometimes amusement of the naval history community Out of it surprisingly emerged some of the best historical writing on naval themes and a central contribution of this book is to reveal the process by which the two historians produced their literary masterpieces Anyone who has read Marder's *From the Dreadnought to Scapa Flow* or Roskill's *The War at Sea* and they were both bestsellers in their day will be entertained and enlightened by this story of the men A J P Taylor called our historical dreadnoughts A book about naval historians and their differing approaches to writing history might be dry and dull but in the author's capable hands makes a fascinating read Warship 2012
