Foreign Aid and Development in South Korea and Africa
Kelechi A. Kalu, Jiyoung Kim, 2021-08-15 This book compares the rapid development of South Korea over the past 70 years with selected countries in sub Saharan Africa to assess what factors contributed to the country s success story and why it is that countries that were comparable in the past continue to experience challenges in achieving and sustaining economic growth In the 1950s South Korea s GDP per capita was 876 roughly comparable with that of Cote d Ivoire and somewhat below Ghana s The country s subsequent transformation from a war ravaged international aid dependent economy to the 13th largest economy in the world has been the focus of considerable international admiration and attention But how was it that South Korea succeeded in multiplying its GDP per capita by a factor of 23 while other Less Developed Countries continue to experience challenges This book compares South Korea s politics of development and foreign assistance with that of Ghana Nigeria and Zambia which were also major recipients of the U S aid to investigate the specific contexts that made it possible for South Korea to achieve success Overall this book argues that effective state capacity in South Korea s domestic and international politics provided an anchor for diplomatic engagement with donors and guided domestic political actors in the effective use of aid for economic development This book will be of interest to researchers and students working on development comparative political economy and foreign aid and to policy makers and practitioners looking for a greater understanding of comparative development trajectories

Aid in Transition Theodor N. Grigoriadis, 2014-10-14 This book

is the one of the first to address aid effectiveness as a political and comparative economics question Since the collapse of the Soviet Union and the transition of its republics to market structures and more representative forms of government the European Commission has recognized the necessity of a closer economic cooperation with Russia Ukraine and Kazakhstan the three largest economies of the former Soviet Union This book suggests that the foreign aid of the European Union provided a set of reform incentives to post Soviet planners It created the grounds for the institutional and social transformation of the bureaucracy at both central and regional levels by integrating it into the aid allocation process In Russia Ukraine and Kazakhstan the observed subordination of NGOs to the developmental priorities of the bureaucracy occurred at the expense of diversity and political openness Nevertheless this reality led to the emergence of transnational sovereignty partnerships that reduced poverty for the general population and motivated both bureaucrats and entrepreneurs to cooperate Empirical models alone are not sufficient to delineate all the aspects of principal agent relationships in post Soviet bureaucracies This is why formal modeling and analysis of qualitative data are extremely useful Evaluation reports indicate the problems and challenges faced by aid bureaucrats and suggest that the weakly institutionalized environments of Ukraine and Central Asia Kazakhstan are less conducive to aid effectiveness than the heavily bureaucratized environment of Russia The proposed incentives system for the allocation of foreign aid links EU foreign policy with bureaucratic decision making and reflects the choice sets of the donor and the recipient Multilevel definitions of aid effectiveness are provided in the course of the book chapters International Education Aid in Developing Asia I-Hsuan Cheng, Sheng-Ju

Chan, 2015-05-22 This book provides an Asian perspective on the timely urgent questions of how international education aid and development should move forward and what development roles Asia should play especially following the end of the UN Millennium Development Goals MDGs and Education for All EFA in 2015 To answer these questions four separate but interwoven parts which analyze and anchor education MDGs and EFA policies and practices by means of diverse case studies of donor states recipient states and states with a dual and transitional role in Asia are addressed On the basis of the analyses a clearer and concrete direction for effectively and sustainably extending international education aid and development beyond 2015 can be derived **US Presidential Doctrines Handbook - Volume 1 President Barack Obama Doctrine - Strategic Information and Materials** IBP, Inc., 2017-01-11 US Presidential Doctrines Handbook Reagan Carder Clinton Bush Obama The Fragmentation of Aid Timo Casjen Mahn, Mario Negre, 2016-08-31 This edited volume provides an

assessment of an increasingly fragmented aid system Development cooperation is fundamentally changing its character in the wake of global economic and political transformations and an ongoing debate about what constitutes and how best to achieve global development This also has important implications for the setup of the aid architecture The increasing number of donors and other actors as well as goals and instruments has created an environment that is increasingly difficult to manoeuvre Critics describe today s aid architecture as fragmented inefficient overly complex and rigid in adapting to the

dynamic landscape of international cooperation By analysing the actions of donors and new development actors this book gives important insights into how and why the aid architecture has moved in this direction The contributors also discuss the associated costs but also potential benefits of a diverse aid system and provide some concrete options for the way forward

Guilty Party: the International Community in Afghanistan Graciana del Castillo, 2014-04-02 Recalling an unforgettable trip throughout Afghanistan in Nowroz 1978 only three weeks before the bloody communist coup d tat the author uses places along the way to describe how foreign conquerors nationalist policies a variety of ethnicities and religions and the Silk Route combined to mold present day Afghanistan Such places provided the stage for the famous battles of ancient and modern times as they provided the different livelihoods of the afghan population that still lives mostly from agriculture and livestock production Gripping accounts on the political and security transitions since 9 11 have not been matched by similar ones on the economic and social ones which is the purpose of this book Based on what she saw in a more recent visit in 2011 the author explains to a general audience how misguided economic policies misplaced priorities and wasteful aid have led Afghanistan to an infamous record the country not only relapsed into conflict but became the most aid dependent country in the world Muddling through as in the past is no longer an option as NATO troops withdraw and aid falls sharply The author makes a proposal to help the country to move away from the vicious circle of insecurity aid drug and food dependency to a virtuous one of genuine investment rural development employment opportunities and improved livelihoods The cost of the Afghan war in terms of human lives and taxpayers money has been outrageous and taxpayers should demand a debate among all stakeholders on how to move forward

Japan's Foreign Aid to Africa Pedro Amakasu Raposo, 2013-09-05 The Tokyo International Conference on African Development TICAD was established in 1993 with the intention of creating opportunities for trade and investment on both sides and the promotion of sustainable development In 2003 the conference translated Japanese aid policy to Africa into three key pillars human centered development poverty reduction through economic growth and the consolidation of peace and since 2005 Africa has on several occasions been the

largest recipient of Japanese overseas aid Tracing Japanese foreign aid to Africa during and after the Cold War this book examines how the TICAD process sits at the intersection of international relations and domestic decision making Indeed it questions whether the increase in aid has been driven by domestic changes such as demands from civil society and donor interest or pressures emanating from the international system Taking Angola and Mozambique as case studies the book explores how Japan's development cooperation with Africa has assisted previously war torn states make the transition from war to peace and in doing so demonstrates the centrality of human security to Japanese foreign policy as a means of ensuring sustainable development This book will have great interdisciplinary appeal to students and scholars of Japanese and African studies Japanese politics international relations theory foreign policy economic development and sustainable development

The Fission of Power Stephan De Spiegeleire, Joshua Polchar, 2015-03-13 Something s afoot with power The nation state is being challenged structurally and institutionally Its model of hierarchical power monopoly on violence and binding law is being squeezed from below and from above by grassroots organizations on the one end and supranational organizations on the other Development aid is becoming caught up with strategic interests in the political military and economic areas Centralized power with major international oil companies is a thing of the past The internet has the capacity to bring people together or to divide them All of these developments are changing our world drastically and altering our view on the world In The Fission of Power we make sense of these different changes and demonstrate what they have in common Power is becoming more widely distributed more accessible and more evanescent but without losing amplitude As a result actors of all kinds must be more flexible under flux they must take on a more agile and networked approach to implementing their decisions prepare for change and engage in more iterative and experimentalist forms of decision making The first step is to

On January 12 2010 the deadliest earthquake in the history of the Western Hemisphere struck the nation least prepared to handle it Jonathan M Katz the only full time American news correspondent in Haiti was inside his house when it buckled along with hundreds of thousands of others In this visceral authoritative first hand account Katz chronicles the terror of that day the devastation visited on ordinary Haitians and how the world reacted to a nation in need More than half of American adults gave money for Haiti part of a monumental response totaling 16.3 billion in pledges But three years later the relief effort has foundered It's most basic promises to build safer housing for the homeless alleviate severe poverty and strengthen Haiti to face future disasters remain unfulfilled The Big Truck That Went By presents a sharp critique of international aid that defies today's conventional wisdom that the way wealthy countries give aid makes poor countries seem irredeemably hopeless while trapping millions in cycles of privation and catastrophe Katz follows the money to uncover startling truths about how good intentions go wrong and what can be done to make aid smarter With coverage of Bill Clinton who came to help lead the reconstruction movie star aid worker Sean Penn Wyclef Jean Haiti's leaders and people alike Katz weaves a complex darkly funny and unexpected portrait of one of the world's most fascinating countries The Big Truck That Went By is not only a definitive account of Haiti's earthquake but of the world we live in today The Companion to Development Studies Emil Dauncey, Vandana Desai, Robert B.
