Foreign Policy Analysis Klaus Brummer, Kai Oppermann, 2024 Foreign Policy Analysis is the most systematic thorough guide to core foreign policy approaches drawing insights from international relations and non-Western perspectives to provide students with a full understanding of theory. Brummer and Oppermann put theoretical approaches front and centre without neglecting the right connection with international relations theories. This book challenges Western-centric perspectives on foreign policy analysis and reflects the rise of non-Western scholarship in the field. This edition is available for students and institutions to purchase in a variety of formats. The Oxford Handbook of Foreign Policy Analysis Juliette Kaarbo, Cameron Theis, 2024-01-17 The Oxford Handbook of Foreign Policy Analysis repositions the subfield of Foreign Policy Analysis (FPA) to a central analytic location within the study of International Relations (IR). Over the last twenty years IR has seen a cross-theoretical turn toward incorporating domestic politics, decision making, agency practices and subjectivity, the staples of the FPA subfield. This turn however is underdeveloped theoretically, empirically and methodologically. To reconnect FPA and IR research, this handbook links FPA to other theoretical traditions in IR, takes FPA to a wider range of state and non-state actors and connects FPA to significant policy challenges and debates. By advancing FPA along these trajectories, the handbook directly addresses enduring criticisms of FPA including that it is isolated within IR, it is state-centric, its policy relevance is not always clear and its theoretical foundations and methodological techniques are stale. The Oxford Handbook of Foreign Policy Analysis provides an inclusive and forward-looking assessment of this subfield. Edited and written by a team of world-class scholars and with a preface by Margaret Hermann and Stephen Walker, the handbook sets the agenda for future research in FPA and in IR. The Oxford Handbooks of International Relations is a twelve-volume set of reference books offering authoritative and innovative engagements with the principal sub-fields of International Relations. The series as a whole is under the General Editorship of Christian Reus-Smit of the University of Queensland and Duncan Snidal of the University of Oxford, with each volume edited by specialists in the field. The series both surveys the broad terrain of International Relations scholarship and reshapes it, pushing each sub-field in challenging new directions. Following the

example of Reus Smit and Snidal's original Oxford Handbook of International Relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions *Foreign Policy Analysis* Valerie M. Hudson, Benjamin S.

Nigeria Steve Itugbu, 2017-05-30 Steve Itugbu for many years a foreign policy aide to Obasanjo draws on an extensive corpus of official documents interviews unpublished material and first hand experience to explore the president's multi faceted personality in depth In so doing Itugbu demonstrates that Nigeria's foreign policy has suffered through a combination of personalisation that is subjugation to the will of Obasanjo and the failings of bureaucratic structures The book focuses specifically on Nigeria's decision not to intervene in Darfur in 2004 which is shown to be attributable to Obasanjo's politicking and inherent focus on shoring up his own position Ultimately an important opportunity for the African Union to set a precedent for humanitarian intervention was missed a pattern which has since repeated itself across Africa Such personalisation is common in the region and the book therefore acts as a case study for better understanding the problems facing foreign policy making diplomacy and leadership in Africa Throughout Itugbu provides a reasoned and thorough analysis of the complex and interconnected issues facing Nigeria and Africa today and the prospects of resolving these in the future This behind the scenes account of the mechanics of Nigerian foreign policy is essential reading for all students researchers and policy makers working on Africa

Identity, Culture, and Chinese Foreign Policy Kangkyu Lee, 2020-11-29 This book assesses the role of identity and Chinese face culture in Chinese foreign policy by analyzing China's political and economic retaliation against South Korea's deployment of the THAAD Terminal High Altitude Area Defense system on its soil By examining the history and military action of China Japan and North and South Korea the book argues that China's divergent responses were caused by different expectations according to whether states had a perceived identity as a friend or a rival The author demonstrates that Chinese

Foreign policy decisions are influenced by many factors The real world is complex and many variables have to be considered when making a decision A psychological approach to decision making facilitates the understanding and explaining of the complexity of foreign and global policies precisely because of the prolonged transitional stage of the contemporary international system The course of world politics is shaped by the decisions of leaders Uncertainty involved in decision making in foreign policy can relate to the motivations beliefs intentions or calculations of the opponents If it is not possible to understand how decisions are made then maybe it is at least feasible to understand these decisions and perhaps more importantly predict various results with regards to international politics This book provides a new perspective on the study of international relations by analyzing the subjective elements idiosyncrasies that occur in decision making at the individual level The use of psychological methods of analysing the foreign policy decision making process proposes a necessary investigation path into international relations Political Psychology of Turkish Political Behavior Cengiz Erisen,2016-04-14

The primary motivation for this book is to focus on something crucial that is missing in Turkish political science well founded theories on the Turkish voter and empiricism in scholarly research Given the absence of such theories one could ask what then the best model is for explaining a Turkish citizen's vote choice and political behaviour and what schools of thought Turkish political science has Unfortunately it is not possible to offer a satisfactory response to either question at this point and among the clear deficiencies in the current literature the primary one is the lack of a robust model explaining how Turkish citizens form their political attitudes engage in political participation or cast their votes With these important questions in mind this book aims to generate an interest in the theoretical and methodological tools that one can employ to conduct research contributing to the needs of the literature particularly in political behaviour and political psychology This book expands our understanding about the processes and the mechanisms of Turkish political behaviour and contributes to the foundations of theory building in the literature This book was published as a special issue of Turkish Studies **Foreign Policy** Ernest Petri?,2013-01-11 Foreign Policy From Conception to Diplomatic Practice represents an original and important contribution to the study of foreign policy uniquely framed by the experiences of small and new countries Ambassador Ernest Petri artfully brings together academic expertise and years of diplomatic experience to provide a thorough treatment of

national and international environments the foreign policy decision making process and an original analysis of the means of foreign policy and diplomacy The role of the United Nations the EU strategic actors and the role of foreign policy as a diplomatic instrument are examined Finally a reflection of the foreign policy concerns of small and new countries with special attention to Slovenia and legal aspects are offered
