Foucault His Thought His Character:

Foucault Paul Veyne, 2013-10-11 Michel Foucault and Paul Veyne the philosopher and the historian Two major figures in the world of ideas resisting all attempts at categorization Two timeless thinkers who have long walked and fought together In this short book Paul Veyne offers a fresh portrait of his friend and relaunches the debate about his ideas and legacy Foucault is not who you think he is writes Veyne he stood neither on the left nor on the right and was frequently disowned by both He was not so much a structuralist as a sceptic an empiricist disciple of Montaigne who never ceased in his work to reflect on truth games on singular constructed truths that belonged to their own time A unique testimony by a scholar who knew Foucault well this book succeeds brilliantly in grasping the core of his thought and in stripping away the confusions and misunderstandings that have so often characterized the interpretation of Foucault and his work **Foucault on the Arts and Letters** Catherine M. Soussloff, 2016-10-06 As one of the most important philosophers of the 20th century Michel Foucault's reputation today rests on his political philosophy in relation to the contemporary subject in a neo liberal and globalized society This book offers insight into the role of the arts in Foucault's thought as a means to better understanding his contribution to larger debates concerning contemporary existence Visual culture literary film and performance studies have all engaged with Foucauldian theories but a full examination of Foucault's significance for aesthetic discourse has been lacking until now This book argues that Foucault's particular approach to philosophy as a way of thinking the self through the work of art provides significant grounds for rethinking his impact today The volume moves across as many disciplinary boundaries as Foucault himself did demonstrating the value of Foucault's approach to aesthetic discourse for our understanding of how the arts and humanities reflect upon contemporary existence in a globalized society Adorno, Foucault and the Critique of the West Deborah Cook, 2018-11-27 Adorno Foucault and the Critique of the West argues that critical theory continues to offer valuable resources for critique and contestation during this turbulent period in our history To assess these resources it examines the work of two of the twentieth century's more prominent social theorists Theodor W Adorno and Michel Foucault Although Adorno was situated squarely in the Marxist tradition that Foucault would occasionally challenge Cook demonstrates that their critiques of our current predicament are complementary in important respects Among other things they converge in their focus on the historical conditions economic in Adorno and political in Foucault that gave rise to the racist and authoritarian tendencies that continue to blight the West But this book will also show that as Adorno and Foucault plumb the economic and political forces that have shaped our identities they offer remarkably similar answers to the perennial question What is to be done **Foucault and the Modern International** Philippe Bonditti, Didier Bigo, Frédéric Gros, 2017-02-07 This book addresses the possibilities of analyzing the modern international through the thought of Michel Foucault The broad range of authors brought together in this volume question four of the most self evident characteristics of our contemporary world international neoliberal biopolitical and global and thus fill significant gaps in both

international and Foucault studies The chapters discuss what a Foucauldian perspective does or does not offer for understanding international phenomena while also questioning many appropriations of Foucault's work This transdisciplinary volume will serve as a reference for both scholars and students of international relations international political sociology international political economy political theory philosophy and critical theory more generally

Memory in a Time of Prose Daniel D. Pioske, 2018-08-15 *Memory in a Time of Prose* investigates a deceptively straightforward question what did the biblical scribes know about times previous to their own Daniel D Pioske attempts to answer this question by studying the sources limits and conditions of knowing that would have shaped biblical stories told about a past that preceded the composition of these writings by a generation or more This book is comprised of a series of case studies that compare biblical references to an early Iron Age world ca 1175-830 BCE with a wide range of archaeological and historical evidence from the era in which these stories are set Pioske examines the relationship between the past disclosed through these historical traces and the past represented within the biblical narrative He discovers that the knowledge available to the biblical scribes about this period derived predominantly from memory and word of mouth rather than from a corpus of older narrative documents For those Hebrew scribes who first set down these stories in prose writing the means for knowing a past and the significance attached to it were in short wed foremost to the faculty of remembrance *Memory in a Time of Prose* reveals how the past was preserved transformed or forgotten in the ancient world of oral living speech that informed biblical storytelling

The Person in Narrative Therapy M. Guilfoyle, 2015-12-17 This book argues that narrative practice does not have a coherent formulation of personhood in the way one finds in other fields such as psychoanalysis and cognitive behavioural therapy It examines the post structural principles that underpin narrative practice which make available powerful conceptual tools for theorizing the person

Human Rights and the Care of the Self Alexandre Lefebvre, 2018-04-19 When we think of human rights we assume that they are meant to protect people from serious social legal and political abuses and to advance global justice In *Human Rights and the Care of the Self* Alexandre Lefebvre turns this assumption on its head showing how the value of human rights also lies in enabling ethical practices of self transformation Drawing on Foucault's notion of care of the self Lefebvre turns to some of the most celebrated authors and activists in the history of human rights such as Mary Wollstonecraft Henri Bergson Eleanor Roosevelt and Charles Malik to discover a vision of human rights as a tool for individuals to work on improve and transform themselves for their own sake This new perspective allows us to appreciate a crucial dimension of human rights one that can help us to care for ourselves in light of pressing social and psychological problems such as loneliness fear hatred patriarchy meaninglessness boredom and indignity

The Ashgate Research Companion to Modern Theory, Modern Power, World Politics Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate

Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation

Arshin Adib-Moghaddam,2013-10-10 On the Arab Revolts and the Iranian Revolution Power and Resistance Today is the first comparative analysis of two central political events that have altered our world forever the Arab uprisings which started in Tunisia and the Iranian revolution in 1979 Adib Moghaddam demonstrates how contemporary forms of protest are changing our understanding about the way power and resistance function In a theoretical tour de force which is substantiated with a range of primary material he argues that acts of protest in Tehran to Cairo can be entirely linked to the same act in New York London Madrid and Athens Breaking through the east west north south divide Adib Moghaddam shows how the Arab revolts promise to shift the discourse away from the idea that Arabs and Muslims are peculiar that Middle Eastern Studies cannot be linked to political theory that the dynamics of rebellion there are fundamentally different from the politics of revolt here Adib Moghaddam argues that the dialectics of power and resistance are truly universal and that they are unfolding within a globalised political context that is increasingly interconnected In order to illuminate this argument theoretically the study is organised around conceptual terms that feed into forms of power and resistance such as revolution radicalism dissent knowledge neighbour and reform These terms and concepts are discussed and deconstructed via an empirical discussion of pivotal events beyond the non western world demonstrating that for a long time and without realising it we have been living in the end times of unitary categories such as west and east *Critique of Political Decolonization* Bernard

Forjwuor,2023-05-24 What is political independence As a political act what was it sanctioned to accomplish Is formal colonialism over or a condition in the present albeit mutated and evolved In *Critique of Political Decolonization* Bernard Forjwuor challenges what in normative scholarship has become a persistent conflation of two different concepts political decolonization and political independence This scholarly volume is an antinormative and critical refutation of the decolonial accomplishment of political independence or self determination in Ghana He argues that political independence is insufficiently a decolonial claim because it is framed within the context of a country where a permanent colonial settlement was never deemed necessary for the consolidation of future colonial political obligations So while territorial dissolution was politically engineered by Ghanaians the colonial merely reconstitutes itself in different legal and ideological forms Forjwuor

offers new methodological theoretical and conceptual approaches to engaging the questions of colonialism political independence political decolonization justice and freedom and constructs multiple conceptual bridges between traditional disciplinary fields of inquiry including politics history law African studies economic history critical theory and philosophy and political theory Using the Ghanaian experience as a rich case study Forjwuor rethinks what colonialism and decolonization mean and asserts that decolonization is primarily a question of justice

Insuring Life

Luis Lobo-Guerrero, 2016-04-20 This book is a contribution to the scholarly engagement with the wider problem of governing through risk and the politics of uncertainty It takes life insurance as an empirical site from which to ask what is the kind of governance created through insurance an instance of and how does it contribute to the transcendence of liberalism By making a distinction between capable life as object of insurance and potential life as that which escapes its control the book conducts a historical epistemological analysis of the problems of valuation truth production securitisation classification and gendering that constitute life insurance products and practices Insuring Life offers a critical engagement with the epistemology of life insurance to demonstrate the unnecessary and precarious character of the conditions that make this instrument of liberal governance possible It concludes that the transcendence of liberalism relies on the technological agency of these instruments and that its challenge begins by redefining the terms under which the potential of life if invaluable is to be thought as event The book follows Insuring War as the third of a trilogy that analyses how concepts and practices of power risk and security materialise in the form of insurance as a central instrument of governance in the liberal world It will
