Ribera's Repetitions Todd P. Olson, 2024-10-08 The seventeenth century Valencian artist Jusepe de Ribera spent most of his career in Spanish Viceregal Naples where he was known as Lo Spagnoletto or the Little Spaniard Working under the patronage of Spanish viceroys Ribera held a special position bridging two worlds In *Ribera's Repetitions* art historian Todd P Olson sheds new light on the complexity of Ribera s artwork and artistic methods and their connections to the Spanish imperial project Drawing from a diverse range of sources

including poetry literature natural history philosophy and political history Olson presents Ribera's work in a broad context. He examines how Ribera's techniques including rotation material decay through etching and repetition influenced the artist's drawings and paintings. Many of Ribera's works featured scenes of physical suffering from Saint Jerome's corroded skin and the flayed bodies of Saint Bartholomew and Marsyas to the ragged beggar philosophers and the eviscerated Tityus. But far from being the result of an individual sadistic predilection, Olson argues Ribera's art was inflected by the legacies of the Reconquest of Spain and Neapolitan coloniality. Ribera's material processes and themes were not hermetically sealed in the studio; rather, they were engaged in the global Spanish Empire. Pathbreaking and deeply interdisciplinary, this copiously illustrated book offers art history students and scholars a means to see Ribera's art anew.

Family Disintegration Anton Purcell, 2002. The contemporary family is being distracted, disturbed, and distraught by societal pressures from every direction. The nuclear family concept, believed crucial to child rearing, is becoming passé according to census data. Or has the wave of disruption to families crested? It is hoped that this bibliography will serve as a useful tool to researchers seeking further information on families and the pressures being exerted upon them in the 21st century.

Genetic Criticism Dirk Van Hulle, 2022. This book introduces genetic criticism as a reading strategy which investigates the origins and development of texts over time. Using case studies including Samuel Beckett and Ian McEwan, Van Hulle discusses the concrete and more abstract dimensions of this approach.

The Nirvana Express Mick Brown, 2023-09-07. In 1897, an Indian yogi named Bava Lachman Dass exhibited himself at the Westminster Aquarium in London, demonstrating forty-eight yoga positions to a bemused audience. Four years earlier, Hindu philosopher Swami Vivekananda had spoken at the first World Parliament of Religions in Chicago, where theosophist Annie Besant rhapsodised about his inborn sense of worth and the exquisite beauty of his spiritual message. The Victorians had conflicted views on the religious beliefs and practices of the Indian subcontinent, blending fascination and suspicion. But within two generations, legions of young Westerners would be following the hippie trail to India, and the Beatles would be meditating at the feet of the guru Maharishi Mahesh Yogi. Journalist Mick Brown's vivid account charts the eccentric history of the West's evolving love affair with Indian religion through a curious cast of scholars, seekers, charlatans, and saints. From Edwin Arnold, whose epic poem about the life of the Buddha became a best seller in Victorian Britain, to the occultist and magician Aleister Crowley, and from spiritual teachers Jiddu Krishnamurti, Meher Baba, and Ramana Maharshi to the controversial guru Rajneesh, *The Nirvana Express* is an exhilarating, sometimes troubling journey through the West's search for enlightenment.
