By Lewis R Donelson From Hebrews To Revelation A Theological Introduction:

From Hebrews to Revelation Lewis R. Donelson, 2001-01-01 In this clearly written introduction to the latter half of the New Testament Lewis Donelson begins by asking if we read this text in this way what voices do we hear Such a reading strategy requires historical imagination because the documents are separated from us by time space language and culture It also requires making these texts conversation partners in our understanding about God and ourselves Solidarity Perfected Kevin McCrudden, 2008-12-10 This monograph examines the concept of Jesus perfection in the Epistle to the Hebrews in relation to the broader theological themes of divine beneficence and divine philanthropia Three times in Hebrews Jesus is described as being perfected Hebrews 2 10 5 9 7 28 and in two of these instances Hebrews 2 10 5 8 9 the author explicitly links the theme of Jesus suffering to the content of his perfection By examining representative selections of Greek non literary papyri this study argues that the customary application of the Greek verb to denote the idea of legal notarization of a public document suggests the more comprehensive idea of official definitive attestation Informed by such a notion of perfection as official definitive attestation this study argues that the language of Christ s perfection in Hebrews functions as a christological grammar for reflecting upon the character of Christ Far from being remotely transcendent Jesus is characterized instead by divine beneficence and philanthropia by a motivation to draw near to the community of the faithful gathered around his memory This study argues for the cogency of this proposal based on exegetical grounds the literary character of Hebrews as an epistolary homily and the social setting of Hebrews as one characterized by social distress and or persecution in or near the vicinity of Rome **A Shadow of Glory** Tod Linafelt, 2002-10-04 A Shadow of Glory takes up the most recent discourse on biblical interpretation and uses a cross disciplinary approach to form a new self critically aware perspective to the New Testament in the post Holocaust world **The Bible** Jerry L. Sumney, 2021-01-05 What is the Bible How did it get to us Why are translations so different And what influence has the Bible had on culture From its very first pages The Bible An Introduction Third Edition offers clear answers to the most basic questions that first time students and curious inquirers bring to the Bible Without presuming either prior knowledge of the Bible or a particular attitude toward it Jerry L Sumney uses straightforward language to lead the reader on an exploration of the Bible s contents and the history of its writings showing how critical methods help readers understand what they find in the Bible Filled with maps charts illustrations and color photographs to enhance the student s experience with the text This third edition offers a number of revisions and a new section on the deuterocanonical books Neither polemical nor apologetic The Bible presents the biblical writings as the efforts of men and women in the past to understand their lives and their world in light of the ways they understood the divine **Preliminary biblical studies** David M. Steimle, 2015-05-29 This work is a compilation of research designed to assist students researching the Bible and passing a program at a University in biblical studies It covers a myriad of topics focusing primarily on the biblical text and contains deeper exposition on texts and themes commonly researched in

an undergraduate Graduate Christian studies and Masters in Divinity programs that focus on the Bible This text is divided by the Old and New Testament and further subdivided based on traditional category of the Bible **New Testament Theology**

Frank J. Matera,2007-01-01 In this systematic book by book exploration of the theology of each New Testament writing Frank J Matera explores theological diversity and unity in the writings of the New Testament After an introduction to the history and method of New Testament theology he explains and describes the theologies of the Synoptic Pauline and Johannine traditions as well as the rich theology of other New Testament voices Hebrews the Catholic Epistles and the book of Revelation Integrating both Protestant and Catholic approaches this work provides students pastors and scholars a comprehensive view of the New Testament that is rich in exegetical and theological insight *Hebrews, the General Letters, and Revelation* Charles B. Puskas,2016-10-28 Most New Testament NT introductions because of page limitations and other reasons tend to minimize their treatment of the last nine books of the Christian Bible from Hebrews to Revelation The focus in these introductions is often on the four Gospels and the Letters of Paul As important as these books are one should not neglect with only a brief survey the treatment of Hebrews the General Letters and the book of Revelation The title given later to the collection Catholic Epistles or General Letters is a reminder of its general appeal to the whole church despite its slow canonical recognition and authorship issues Nevertheless these writings from Hebrews to Revelation continue to capture our attention and ignite our imagination My purpose for this book is to supplement my NT introduction and others like it with a focus on specific questions about each book from Hebrews to Revelation When and why was each book written By whom and to whom was each book written What are some special features of each book How soon or late was each book included in the NT collection Answers to many of these questions are tentative The assured results of scholarship are in continual need of reevaluation Since the 1980s a host of diverse studies have emerged and I have endeavored to include them when they are relevant to the discussion *Cry of the Elephant Man* Erik L. Strandness MD MATH,2016-06-30 We are in danger of losing our identities as unique beings created in the image of God Our culture not wanting to answer to a higher authority tries to expel God from the planet but in the process strips off the very image that makes us human If we officiate at the death of God we will also be forced to preside over the funeral of man The good news is that despite the loud voices declaring that we are just evolved animals the vast majority of us behave as if we are special Since the characteristics that make humans unique are found nowhere else on the planet we are compelled to look to the heavens We have a choice we can find significance running with the pack or in becoming children of God We can howl at the moon or offer prayers to our Father but either way we will end up worshiping our maker Dr Strandness explores what it means to be created in the image of God by examining those qualities that are universally recognized as unique to humankind He makes the case that these characteristics have a heavenly origin and can only be adequately explained by a Biblical understanding of humans as Gods image bearers **They Went Out from Us** Daniel R. Streett,2011-01-27 By means of careful historical work and exegesis

Streett argues that the secession mentioned in 1 John did not have to do with a later complex Christological issue such as docetism Cerinthianism or a devaluation of the historical life death of Jesus but rather concerned the foundational belief in the Messiahship of Jesus a tenet the secessionists had renounced in order to return to the Jewish synagogue He critiques the common maximalistic mirror reading approach to the letter as misguided and contends that the letter is primarily pastoral meant to comfort and reassure the community rather than to argue against the secessionists Streett s main contributions are his detailed examination of the ancient historical evidence especially the Patristic evidence for the Johannine opponents and his in depth and innovative exegesis of the key opponent passages 1 Jn 2 18 27 4 1 6 5 6 12 2 Jn 4 11 **Christian**

Understandings of Christ David H. Jensen, 2019-04-02 Seeing the contours of Christian thought about Christ Throughout the two thousand year span of Christian history believers in Jesus have sought to articulate their faith and their understanding of how God works in the world How do we as we examine the vast and varied output of those who came before us understand the unity and the diversity of their thinking How do we make sense of our own thought in light of theirs The Christian Understandings series offers to help In this insightful volume David H Jensen offers an engaging tour through more than two millennia of thought on Christ Starting with the New Testament and moving forward Jensen outlines the myriad beliefs developments and questions encompassing the attempts to understand Christianity s most central and most mysterious figure From the patristic portrayals to medieval Christology from the Reformation to the Enlightenment and into the twentieth century and beyond Jensen presents a helpful and needed guide **Metanoia and OTHER SERMONS**

Ruskin Falls, 2021-10-31 The book is a collection of twenty three sermons from the period of February through August 2020 Each sermon is preceded and thereby situated in the congregation by that Sunday s greeting and after the church moved to online only worship due to the outbreak of COVID 19 by the day s announcements The author considers his preaching style to be more irenic than competitive in spirit If though there is homiletic competition going on in what he is doing here it is he says with preachers and with himself when he numbers among them who are bent as preachers on being conservative or evangelical or liberal or progressive or idiosyncratic or entertaining or otherwise situated above the word that preachers as preachers must strive to submit to and serve He intends his sermons as exercises in openness for the truth of God s word which word the church is ever on the verge of losing touch with and needing to learn anew to hear and heed The sermons are neither feel good nor finger pointing They are neither prosperity promoting nor therapeutically oriented They are not even an attempt to make the church sound relevant to the issues of the day Rather they simply aim at openness to the truth that sets us free for and in and through the faith and courage that Christ came bringing **Keep Yourself From Idols** Terry

Griffith, 2003-03-01 Challenging gnosticizing interpretations of the letter Terry Griffith explores how the polemic against idols was variously used in Jewish and Christian circles to define self identity and the limits of community He shows that the rhetoric of 1 John is not polemical but pastoral directed at confirming Johannine Christians in their fundamental confession of

faith and preventing further defections of Jewish Christians back to Judaism Griffith argues that the christological focus in 1 John concerns the identification of Jesus as the Messiah and that the ending of the letter both contributes to the author's overall pastoral strategy and sheds light on the issues of sin and christology that are raised in this letter **James and Jude** William Frank Brosend, 2004-06-21 Sample Text *Introducing the New Testament* Mark Allan Powell, 2018-05-15 This lively engaging introduction to the New Testament is critical yet faith friendly lavishly illustrated and accompanied by a variety of pedagogical aids including sidebars maps tables charts diagrams and suggestions for further reading The full color interior features art from around the world that illustrates the New Testament's impact on history and culture The first edition has been well received over 60 000 copies sold This new edition has been thoroughly revised in response to professor feedback and features an updated interior design It offers expanded coverage of the New Testament world in a new chapter on Jewish backgrounds features dozens of new works of fine art from around the world and provides extensive new online material for students and professors available through Baker Academic's Textbook eSources *The New Testament* Donald A. Hagner, 2012-11-15 This capstone work from widely respected senior evangelical scholar Donald Hagner offers a substantial introduction to the New Testament Hagner deals with the New Testament both historically and theologically employing the framework of salvation history He treats the New Testament as a coherent body of texts and stresses the unity of the New Testament without neglecting its variety Although the volume covers typical questions of introduction such as author date background and sources it focuses primarily on understanding the theological content and meaning of the texts putting students in a position to understand the origins of Christianity and its canonical writings Throughout Hagner delivers balanced conclusions in conversation with classic and current scholarship The book includes summary tables diagrams maps and extensive bibliographies *Joshua Traditions and the Argument of Hebrews 3 and 4* Bryan J. Whitfield, 2013-06-26 This monograph examines the place of chapters 3 and 4 in the larger argument of Hebrews particularly the relationship of the people of God in Heb 3 7 4 13 to the surrounding discussion of the high priest The connection between the great high priest and the people of God proved a central question for twentieth century scholars including Ernst K semann The first chapter of this work examines previous attempts to explain the flow of the argument and revisits the proposal of J Rendel Harris who thought attention to the two Joshuas of the Hebrew Bible was the key to connecting Heb 3 7 4 13 to its frame The second chapter examines reading practices within Second Temple Judaism that shaped those of the author of Hebrews Two subsequent chapters explore the history of Second Temple interpretation of the texts central to Harris's proposal Numbers 13 14 and Zechariah 3 The Levi priestly tradition receives particular attention The following chapter provides a careful study of the early chapters of Hebrews that explores allusions and echoes to Numbers and to Zechariah The monograph concludes with a positive assessment of much of Harris's proposal *Hebrews as Pseudepigraphon* Clare K. Rothschild, 2009 Clare K Rothschild offers the first comprehensive study of Hebrews Pauline attribution arguing the text was originally composed to

amplify an early collection of Paul's letters Provided by publisher Letters to the Church Karen H. Jobes, 2011-11-01 Respected New Testament scholar Karen Jobes explores the cultural and theological background of Hebrews and the general epistles James through Jude in this rich commentary Writing from an evangelical perspective Jobes addresses issues of historical relevance as well as how these ancient books connect with Christian faith and practice today Letters to the Church includes Historical background for each book focusing on authorship genre date and content An exploration of the major themes in each book and detailed commentary on key passages Boxes with chapter goals outlines challenges and significant verses Sidebars addressing difficult passages or ideas Maps photographs charts and definitions Questions for discussion reflection and testing A comparison of the teachings about Christ in each of the letters Pastors professors students and laypeople interested in deeper biblical study will find this an invaluable resource that offers well researched commentary in an accessible spiritually meaningful form

Into All the World Mark Harding, Alanna Nobbs, 2017 Into All the World the third volume from editors Mark Harding and Alanna Nobbs on the content and social setting of the New Testament brings together a team of eminent Australian scholars in ancient history New Testament and the early church to take the story of Christianity into the Jewish and Greco Roman world of the first century In thirteen chapters the contributors discuss all the post Pauline New Testament writings devoting attention to both their content and their context They examine the impact of the growth of the church on both Jews and Gentiles exploring issues such as the diaspora minorities the Book of Acts and the Fourth Gospel The book then proceeds to a discussion of the impact of Christianity on the Roman state including consideration of the book of Revelation and the imperial cult A final chapter investigates how the church was perceived by Clement of Rome at the end of the first century

New Testament Conversations Suzanne Watts Henderson, 2019-08-06 Historical introductions to the New Testament typically devote careful attention to its ancient context exploring these texts against the backdrop of Jewish and Hellenistic thought But biblical scholars have been slower to appreciate the pluralistic setting in which students of all ages read the New Testament today Students today bring to the study of the New Testament an increasing sense that its message while dominant in the Western world for millennia is now just one voice among many religious and philosophical options In this book students encounter the New Testament in relation to the wider landscape of sacred traditions both ancient and contemporary What is more they will reflect on the ways in which both writers and interpreters adopt adapt and elaborate on common views and practices in their own cultural settings Rather than a repository of doctrinal beliefs the New Testament emerges as a lively conversation partner in the human quest for meaning and purpose Several features distinguish The New Testament Conversation from other introductions to the New Testament The book combines standard historical and literary scholarship on New Testament writings presented in the body of the work with selected excerpts from non Christian traditions In addition students will encounter diverse interpretations of selected New Testament passages across time and place Finally this book presents historical literary and theological questions as

mutually illuminating rather than oppositional This book describes the New Testament s contents as inherently religious responses to the realities of the Roman world both in occupied Palestine and beyond Jesus appears in these texts as a savior who is apocalyptic prophet messianic figure and community organizer As a divinely sanctioned agent of God s coming reign Jesus elicits allegiance to a divine rather than human ruler in ways that carry both religious and socio political implications Thus more than other books this textbook highlights the communal context and implications of each writing
