Then the local matchmaker delivers startling news: if Lily's feet are bound properly, they will be flawless. Lily now has the power to make a good marriage and change the fortunes of her family. To prepare for her new life, she must undergo the agonies of footbinding, learn *nu shu*, the famed secret women's writing, and make a very special friend, Snow Flower. But a bitter reversal of fortune is about to change everything.

In *Snow Flower and the Secret Fan*, New York Times bestselling author Lisa See takes us on a journey back to a captivating era of Chinese history and delves into one of the most mysterious of human relationships: female friendship. In nineteenth-century China, in a remote Hunan county, a girl named Lily, at the tender age of seven, is paired with a *laotong*, an old woman, in an emotional match that will last a lifetime. The *laotong*, Snow Flower, introduces herself by sending Lily a silk fan on which she has written a poem in *nu shu*, a unique language that Chinese women created in order to communicate in secret away from the influence of men. As the years pass, Lily and Snow Flower send messages on the fan and compose stories on handkerchiefs, reaching out of isolation to share their hopes, dreams, and accomplishments. Together, they endure the agony of footbinding and reflect upon their arranged marriages, their loneliness, and the joys and tragedies of motherhood. The two find solace in their friendship, developing a bond that keeps their spirits alive. But when a misunderstanding arises, their relationship suddenly threatens to tear apart.

Play Among Books Miro Roman, Alice_ch3n81, 2021-12-06 How does coding change the way we think about architecture? This question opens up an important research perspective. In this book, Miro Roman and his AI, Alice_ch3n81, develop a playful scenario in which they propose coding as the new literacy of information. They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books. Focusing on the intersection of information technology and architectural formulation, the authors create an evolving intellectual reflection on digital architecture and computer science.

baojuan literally precious scrolls a Chinese folk genre featuring alternating verse and prose that was used by monks to illustrate religious precepts for lay listeners They represent only two of numerous versions composed in a variety of genres of these legends which were once popular all over China While the seeds of the Mulian legend in which a man rescues his mother from hell can be found in Indian Buddhist texts the story of Woman Huang who seeks her own salvation appears to be indigenous to China With their graphic portrayals of the underworld dramatization of Buddhist beliefs about death salvation and rebirth and frank discussion of women s responsibility for sin these texts provide detailed and powerful descriptions of popular religious beliefs and practices in late imperial China especially as they relate to women
