

JESUS

SYMBOL of GOD

"A wonderful, mind-clearing, landmark book."
—David Toolan, S.J.

Roger Haight

By Roger Haight Jesus Symbol Of God

Gary Dorrien

By Roger Haight Jesus Symbol Of God:

The Future of Christology Roger Haight, 2005-01-01 The Future of Christology covers much the same ground as Jesus Symbol of God though in a much more accessible and compact format Jesus, Symbol of God Roger Haight, 1999 Already hailed as a landmark in contemporary Catholic theology Jesus Symbol of God surveys scriptural data the key moments in the development of doctrine and the distinctive horizons of our contemporary world to develop a comprehensive and systematic christology for our time The task of christology is to explain what it means to say that Jesus is the bearer and revealer of God in the Christian community the decisive mediation of God's salvation or in other words the symbol of God *Christian Community in History Volume 1* Roger D. Haight, 2004-09-16 Drawing upon the methodology developed in his Dynamics of Theology 1990 and exemplified in Jesus Symbol of God 1999 Roger Haight in this magisterial work achieves what he calls an historical ecclesiology or ecclesiology from below In contrast to traditional ecclesiology from above which is abstract idealist and ahistorical ecclesiology from below is concrete realist and historically conscious In this first of two volumes Haight charts the history of the church's self understandings from the origins of the church in the Jesus movement to the late Middle Ages In volume 2 Haight develops a comparative ecclesiology based on the history and diverse theologies of the worldwide Christian movement from the Reformation to the present While the ultimate focus of the work falls on the structure of the church and its theological self understanding it tries to be faithful to the historical social and political reality of the church in each period *The Spirit of American Liberal Theology* Gary Dorrien, 2023-09-05 The Spirit of American Liberal Theology is an interpretation of the entire U S American tradition of liberal theology A highly condensed and far more accessible summary of Gary Dorrien's three volume trilogy The Making of American Liberal Theology Westminster John Knox Press 2001 2003 and 2006 Dorrien here presses the argument that the most abundant diverse and persistent tradition of liberal theology is the one that blossomed in the United States and is still refashioning itself While discussions of English and German liberalism persist new material includes expanded treatment of the Black social gospel the Universalists developments into early 2020s and a robust expression of the author's post Hegelian liberal liberationist perspective

Dynamics of Theology Roger Haight, 2001-01-01 Roger Haight reflects on the foundations upon which all theological statements rest exploring how theologians go about the task of theology His goal is to provide the fundamental grounds for the retrieval of traditional doctrine in new creative interpretations that come to bear upon life in our world today In a new Afterword Haight looks ahead from his methodological principles here to their application in his acclaimed Jesus Symbol of God Book jacket *Christology from the Margins* Thomas Bohache, 2008 Provides a comprehensive queer discussion of Christology concluding with the view of Christ's person and work from a queer perspective Suitable for undergraduate study Catholic Theological Ethics Todd A. Salzman, Michael G. Lawler, 2015-11-23 This book has two objectives one explicit and one implicit The explicit objective is to explore the normative implications for both general and sexual ethics of the

methodological and anthropological developments in Catholic tradition The implicit objective is to stimulate dialogue in the Church about ethics particularly sexual ethics a dialogue that must necessarily include all in the communion Church laity theologians and hierarchy Since we believe that genuine and respectful dialogue about sexual morality is sorely needed to clarify Christian truth today we intend this book to be part of that genuine dialogue

Pessimism in Kant's Ethics and Rational Religion Dennis Vanden Auweele, 2018-11-05 The historical period of the Enlightenment is usually thought of as the high point of philosophical optimism By breaking the chains of traditional heteronomous morality the tutelage of dogmatic religion and the oppression of authoritarian politics the Enlightenment created the space for a new self critical and autonomous frame of reference for human effort Immanuel Kant is undoubtedly the greatest philosopher in the German Enlightenment And Kant was a pessimist In this book the author explores Kant's moral and religious philosophy and shows that a pessimistic undercurrent pervades these This provides a new vantage point not only to assess comprehensively Kantian philosophy but also to provide much needed context and reading assistance to the general premises of Kant's philosophy of autonomy and rationality For Kant to be autonomous and rational is not something human nature naturally pursues instead reason but must reframe rethink and reshape human nature Human nature is a problem autonomy and rationality are the solution Kant's subsequent attempts to establish a rational religion can be explained in extension of this problem Since human beings are not naturally prone to act autonomously they have to be educated through historical institutions that are reformed appropriately so as to provide the incentives for human beings to become autonomous This is where Kant believed religion could play an important pedagogical function

Beyond Missio Dei Sarosh Koshy, 2021-11-24 In this book Sarosh Koshy strives to go beyond the mission model of Christianity that emerged alongside and within the colonial enterprise and ethos since the sixteenth century Rather than denounce the inheritance of the mission movement that transformed both the church and world in innumerable ways it is a simultaneous expression of appreciation for this precious heritage and an attempt to do justice by it through a yearning quest for relevant paradigms of Christian engagement Indeed there is an intense tension within this book and in fact a twin tension at that The tension is between those seeking to keep the current mission paradigm alive out of habit or as a self serving device thus corrupting and withering away a bequeathed that essentially set free the voluntary independent spirit of Christian individuals and their intentional collectives from both the ecclesiastical and political authorities On the other side are those who enlist mission both as a subsequent activity and as a basis to pursue innocuous and at times apparently heroic options that would seemingly satisfy a supposed missional mandatory This work enlists postcolonial and poststructuralist resources pedagogically to teach of mission missiology World Christianity and intercultural theology

The Perspective of Resurrection Petr Gallus, 2021-04-15 Because the Christian faith stands and falls with Jesus Christ Christology is at the heart of its theology Answering the question of Jesus Christ's identity is therefore urgent Petr Gallus attempts to do so by critically reflecting on tradition and articulating it for today Page

4 de la couverture *Evil and Evolution: A Theodicy* Richard W. Kropf, 2004-08-18 First published in 1984 and recently revised and updated this book deals with the problem of evil or theodicy God's justice It contends that the process of evolution particularly as it bears on the emergence of free will rather than being a barrier to faith gives us the key to understanding its greatest obstacle the existence of so much suffering in the world It further advances the still contested claim that God is truly our fellow sufferer in our struggle to overcome evil in all of its many forms *Evangelization as Interreligious Dialogue* John C. Cavadini, Donald Wallenfang, 2019-08-21 What does Jesus have to do with Buddha What does Muhammad have to do with Krishna One of the most important tasks for theology in the twenty first century is interreligious dialogue Given the rapid process of globalization and the surge of information via the Internet travel and library networking today interreligious dialogue has become a necessary element within Christian theology that no longer can be avoided *Evangelization as Interreligious Dialogue* features eleven essays plus an extensive introduction that exercise a live conversation between religious others Divided into four thematic sections 1 Catholic approaches to interreligious dialogue 2 dialogues between Judaism and Christianity 3 dialogues between Islam and Christianity and 4 dialogues between Hinduism Buddhism and Christianity this volume conducts a sustained theological reflection on the current state of interreligious dialogue by signaling its hopeful promises and unrelenting challenges The reader will be invited to encounter the religious other firsthand and put his or her most cherished theological assumptions to the test This book aims to provoke an expansion of horizons for theological imagination as it exposes the basic dialectic of identity and difference as played out in the interaction between diverse religious beliefs practices and experiences *Meaning and Method in Comparative Theology* Catherine Cornille, 2019-02-21 The first systematic overview of the field of comparative theology *Meaning and Method in Comparative Theology* offers a synthesis of and a blueprint for the emerging field of comparative theology It discusses various approaches to the field the impact of religious views of other religions on the way in which comparative theology is conducted and the particularities of comparative theological hermeneutics It also provides an overview of the types of learning and of the importance of comparative theology for traditional confessional theology Though drawing mainly from examples of Christian comparative theology the book presents a methodological framework that may be applied to any religious tradition *Meaning and Method in Comparative Theology* begins with an elaboration on the basic distinction between confessional and meta confessional approaches to comparative theology The book also identifies and examines six possible types of comparative theological learning and addresses various questions regarding the relationship between comparative and confessional theology Provides a unique and objective look at the field of comparative theology for scholars of religion and theologians who want to understand or situate their work within the broader field Contains methodological questions and approaches that apply to comparative theologians from any religious tradition Recognizes and affirms the diversity within the field while advancing unique perspectives that might be the object of continued discussions among theologians

Meaning and Method in Comparative Theology offers an important basis for scholars to position their own work within the broader field of comparative theology and is an essential resource for anyone interested in theology conducted in dialogue with other religious traditions 2021 PROSE Finalist in the Theology Religious Studies category Untouchable Bodies, Resistance, and Liberation Joshua Samuel, 2020-02-25 In *Untouchable Bodies Resistance and Liberation* Joshua Samuel constructs an embodied comparative theology of liberation by comparing divine possessions among Hindu and Christian Dalits in South India Critiquing the problems inherent in prioritizing texts when studying religious traditions Samuel calls for the need to engage in body and people centered interreligious learning This comparative theological reading of ecstatic experiences of the divine in Dalit bodies in Hinduism and Christianity brings out the powerful liberative potential inherent in the bodies of the oppressed enabling us to identify alternative modes of resistance and new avenues of liberation among those who are dehumanized and discriminated and to find deeper and meaningful ways of speaking about God in the context of oppression *Theology and the Social Sciences* Michael Barnes, 2018-05-16 Original essays demonstrate that sociology history anthropology and psychology all leave their mark on theology and open new paths to understanding and that theology in turn provides significant questions and perspectives for the social sciences By providing archeological data sociological theory demographics and economic data psychological insights and new methods of historical interpretation the social sciences can open the way for a more sophisticated understanding of the social nature of human existence Theology challenges the social sciences through moral and transcendental questions as well as informs the social sciences through its larger and deeper perspectives The symbiotic nature of this relationship is described in the lead off essays by John Coleman and Gregory Baum The rich conversation between theologians and sociologists that follows moves from Von Balthasar's use of the social sciences and Rahner's approach to ecumenism to the roles of psychology and neuropsychology in understanding religious events **The T&T Clark Companion to Augustine and Modern Theology** C.C. Pecknold, Tarmo Toom, 2013-07-18 The T T Clark Companion to Augustine and Modern Theology is both a theological companion to the study of Augustine and a resource for thinking about Augustine's importance in modern theology Each of the essays brings Augustinian depth to a broad range of contemporary theological concerns The volume unveils cutting edge Augustinian scholarship for a new generation and at the same time enables readers to see the timely significance of Augustine for today Each of the essays not only introduces readers to key themes in the Augustinian corpus but also provides readers with fresh interpretations that are fully conversant with the theological problems facing the church in our world today Designed as both a guide for students and a reference point for scholars it will seek both to outline the frameworks of key Augustinian debates while at all times pushing forward fresh interpretative strategies concerning his thought Christ as Mediator Jon M. Robertson, 2007-08-23 This is a new analysis of the theological concept of divine mediation which was central to the Arian controversy of the early 4th century Robertson illustrates the variety of perspectives within the debate as well as showing the

theological backdrop of Athanasius insight on Christ as mediator **Catholic Moral Theology and Social Ethics** Christina Astorga,2013-12-01 Proposing a new method for moral theology Christina Astorga seeks to recast our understanding of the discipline by drawing from the faith vision of the entire theological enterprise including scripture dogmatic theology social ethics and spirituality *Finding Salvation in Christ* Christopher D. Denny,Christopher McMahon,2011-05-01 Finding Salvation in Christ brings together some of the most important figures in contemporary theology to honor the work of William Loewe systematic theologian and specialist in the theology of Bernard Lonergan SJ For over three decades Loewe s writings have sought to make classic christological and soteriological doctrines comprehensible to a Catholic Church that is working to integrate individual subjectivity communal living and historical consciousness in the wake of the Second Vatican Council Essays included in this volume assess Loewe s reinterpretation of patristic and medieval Christology from Irenaeus to Anselm of Canterbury and explain the significance of the theology of Lonergan and Loewe for the fields of soteriology economics family life and interreligious theology While some recent postliberal theologies have polarized the church s relationship with contemporary culture by minimizing similarities between Christianity and other worldviews the contributors in this volume continue Lonergan s project of integrating the findings of various intellectual disciplines with Christian theology and use Loewe s historical and systematic work as a guide in that endeavor While Lonergan s transcendental Thomism has been criticized by both traditionalists and revisionists essays in this collection apply Loewe s theological methodology in a variety of ways to demonstrate that time honored doctrines about Christ can be transplanted into new cultural contexts and gain intelligibility and credibility in this process Having lived and labored through the far reaching changes in Catholic thought introduced in recent decades Loewe s career provides a model for theologians attempting to build bridges between the past and the present and between the church and the world **Carmelite Prayer** Keith J. Egan,2003 Thoroughly contemporary and pragmatic this collection of essays provides a clear picture of Carmelite teaching while encouraging a journey of discovery and faith

Thank you very much for downloading **By Roger Haight Jesus Symbol Of God**. As you may know, people have look numerous times for their chosen books like this By Roger Haight Jesus Symbol Of God, but end up in malicious downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they cope with some harmful bugs inside their laptop.

By Roger Haight Jesus Symbol Of God is available in our digital library an online access to it is set as public so you can download it instantly.

Our digital library hosts in multiple countries, allowing you to get the most less latency time to download any of our books like this one.
