Published Essays, 1953-1965 Eric Voegelin, 2000 The period covered by the material published in this volume marks the transition in Eric Voegelin s career from Louisiana to Munich After twenty years in the United States in 1958 Voegelin accepted an invitation to fill the political science chair at Ludwig Maximilian University a position left vacant throughout the Nazi period and last occupied by the famous Max Weber who had died in 1920 The themes most prominent in the fourteen items reprinted here reflect the concerns of a transition not only in a scholar s career and in the momentous shifts in world politics taking place around him but also in the development of his understanding of the stratification of reality and the attendant demands for a science of human affairs adequate to the challenges posed by the persistent crisis of the West in its latest configurations and by contemporary philosophy Several of the items herein originated as talks to a specific organization on problems facing German democratization and the development of a market economy amid the ruins of a fragmented culture and infrastructure in a society without historically evolved institutional supports for a satisfactory social and political order Accordingly pragmatic matters occupy a central place in a number of these pieces especially the overriding question of how Germany could move from an illiberal and ideological political order into a modern liberal democratic one Those accustomed to the theoretical profundity of Voegelin s writings may find welcome relief in the down to earth commonsensical drift of this material addressed often to laymen and businessmen But of course the philosophical subject matter lurks everywhere It finds full expression in several instances as the controlling context of even the least pretentious presentations One of the attractions of these essays is what the author brings forward as serviceable elementary guideposts under adverse conditions of intellectual disarray social decay and turmoil

Person-Centered Politics Eamonn O'Higgins, 2024-04-09 What accounts for the widespread disillusionment

with politics Person centered Politics suggests that politics today through its structures processes and institutions tends to presuppose and to impose a certain caricature of the human person that inhibits and frustrates a real sense of personal participation in an authentic common good of politics and society In 12 chapters that touch on fundamental themes of political philosophy Person centered Politics proposes the social and transcendent dimensions of personal existence and their application to the renewal of politics today The themes explore the commonly accepted assumptions of politics today and how a renewed understanding of the person can invigorate political discourse and action In Person centered Politics the author is in continuous dialogue with some of the major contemporary philosophers and thinkers such as Eric Voegelin David Walsh Robert Sokolowski Vaclav Havel Pierre Manent Peter Simpson and Joseph Ratzinger Benedict XVI Detailed footnotes in each chapter provide reference to further sources of enlightenment and research Person centered Politics proposes an outline for a renewed vision of politics that is centered on the truth of human existence and not a politics that distorts and suffocates the human spirit because in the words of E Voegelin the right order of the soul through philosophy furnishes the standard for the right order of society and not the other way round Science, Politics, and Gnosticism Eric Voegelin,1968 Atheism? Stephen E. Parrish,2019-05-06 Does atheism have a monopoly on reason and science Many think so or simply assume so Atheism challenges the many hidden assumptions that have led to the popular belief that atheism is the default position for explaining reality Delving into the most basic and fundamental questions of existence this thought provoking book explains that atheism does not and cannot provide a secure foundation for thought and life Specifically it demonstrates that atheistic theories cannot explain the existence of an ordered universe the conundrums of consciousness and knowledge or why there is morality or beauty Rather than being the result of reason atheism is shown to be in effect a revolt against reason If you enjoy pondering the most basic issues that confront us in our world today then Atheism is the book for you **Kabbalah in Italy, 1280-1510** Moshe Idel,2011-01-01 This survey of the history of Kabbalah in Italy represents a major contribution from one of the world s foremost Kabbalah scholars Idel charts the ways that Kabbalistic thought and literature developed in Italy and how its unique geographical situation facilitated the arrival of both Spanish and Byzantine Kabbalah The Voegelinian Revolution Lynda Lytle Holmstrom,2017-09-08 Over the past half century Eric Voegelin has produced a demanding body of writing on the philosophy of history and the history of political theory since antiquity This is the first full scale treatment of his inquiry into the reality of man s political existence It includes close readings of the texts with Voegelin s own comments on them interspersed offering a thorough explication of the philosopher s quest Incorporating an Autobiographical Memoir prepared in collaboration with Voegelin especially for the volume Ellis Sandoz interweaves the events of this great thinker s life with the philosophical inquiry to which that life has been devoted Among the uniquely engaging biographical subjects covered are Voegelin s reminiscences of his involvement with such seminal minds as Max Weber and with Karl Kraus Hans Kelsen and other lights of Vienna s intellectual community of the 1920s and 1930s a full discussion of his early responses to

national socialism and his escape from the Anschluss in 1938 and a summary of his early years in America with particular attention to the years at Louisiana State University with Cleanth Brooks Robert Penn Warren and Robert Heilman Carefully analyzing Voegelin s contribution to our understanding of ourselves Sandoz convincingly argues that Voegelin s achievement is revolutionary He emphasizes the common sense running through Voegelin s thought and reveals how Voegelin reached a new analysis of reality and provides us with a new science of human affairs Sandoz does not reveal the truth to end the quest for truth but shows how such stop history answers are defective Exploring the meaning of that first truth as it has been intellectually and spiritually unraveled by one of our century s leading thinkers Voegelinian Revolution shows anyone interested in politics and human affairs how to follow Voegelin s path This book will be of interest to historians political theorists students of philosophy and religion and educated readers concerned about the plight of American Western civilization and looking for a new view on our current crisis

Religion and Public Reasons John Finnis,2011-04-07 The essays in Religion and Public Reasons seek to argue for and illustrate a central element of John Finnis s theory of natural law that the main tenets of personal and political morality and of a good legal order are taught both by reason arguments accessible to everyone and by authentic divine revelation teachings accessible to all who have a reasonable faith in its witnesses The author s main books each include arguments for rejecting atheism and agnosticism several papers here take up these arguments and indicate ways in which they open onto the reasonable grounds for accepting that more about God s nature and about the meaning of Creation including ongoing natural evolution is disclosed by the revelation carried far forward among the Jewish people and given definitive form by the Jews and Greeks who assembled in the universal Church as witnesses of Christ to carry forward that revelation into our present Several papers argue that public reason properly includes such a religion and that Humeian Nietzschean Deweyian Rawlsian or other atheistical or deistic understandings of a reasonable secularism are badly mistaken Many substantial papers record the author s position in controversies within Catholicism since the 1960s on social justice contraception and abortion nuclear deterrence Newman on conscience before pope Maritain s hopes for a new Christendom and von Balthasar s for a hell empty of human persons and on proportionalism and Lonerganian historical consciousness as moral theological methods Previously unpublished papers include several University and college sermons and a substantial introduction

Eric Voegelin's Asian Political Thought Lee Trepanier,2020-06-22 The rise of Asia in global affairs has forced western thinkers to rethink their assumptions theories and conclusions about the region Eric Voegelin s Asian Political Thought brings together a mixture of established and rising scholars from both Asia and the West to reflect upon the political philosopher s thought about China Japan Korea Central Asia and India From Voegelin s writings readers will not only understand how Voegelin s approach can illuminate the fundamental principles and issues about Asia but also what are the challenges and possibilities that Asia offers in the twentieth first century For those who want to move past the superficial commentary and clich s about Asia Eric Voegelin s

Asian Political Thought is the book for you **The Monstrosity of Christ** Slavoj Zizek, John Milbank, 2011-02-25 A militant Marxist atheist and a Radical Orthodox Christian theologian square off on everything from the meaning of theology and Christ to the war machine of corporate mafia What matters is not so much that i ek is endorsing a demythologized disenchanted Christianity without transcendence as that he is offering in the end despite what he sometimes claims a heterodox version of Christian belief John Milbank To put it even more bluntly my claim is that it is Milbank who is effectively guilty of heterodoxy ultimately of a regression to paganism in my atheism I am more Christian than Milbank Slavoj i ek In this corner philosopher Slavoj i ek a militant atheist who represents the critical materialist stance against religion s illusions in the other corner Radical Orthodox theologian John Milbank an influential and provocative thinker who argues that theology is the only foundation upon which knowledge politics and ethics can stand In *The Monstrosity of Christ* i ek and Milbank go head to head for three rounds employing an impressive arsenal of moves to advance their positions and press their respective advantages By the closing bell they have not only proven themselves worthy adversaries they have shown that faith and reason are not simply and intractably opposed i ek has long been interested in the emancipatory potential offered by Christian theology And Milbank seeing global capitalism as the new century s greatest ethical challenge has pushed his own ontology in more political and materialist directions Their debate in *The Monstrosity of Christ* concerns the future of religion secularity and political hope in light of a monstrous event God becoming human For the first time since i ek s turn toward theology we have a true debate between an atheist and a theologian about the very meaning of theology Christ the Church the Holy Ghost Universality and the foundations of logic The result goes far beyond the popularized atheist theist point counterpoint of recent books by Christopher Hitchens Richard Dawkins and others i ek begins and Milbank answers countering dialectics with paradox The debate centers on the nature of and relation between paradox and parallax between analogy and dialectics between transcendent glory and liberation Slavoj i ek is a philosopher and cultural critic He has published over thirty books including *Looking Awry* *The Puppet and the Dwarf* and *The Parallax View* these three published by the MIT Press John Milbank is an influential Christian theologian and the author of *Theology and Social Theory* *Beyond Secular Reason* and other books Creston Davis who conceived of this encounter studied under both i ek and Milbank

Revolution and the Millennium James F. Rinehart, 1997-10-30 An interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies China Mexico and Iran that were profoundly impinged upon by European and American imperialism The study explores the role of apocalyptic beliefs in radical movements bent on sociopolitical transformation It concludes that millennial expectations performed important and similar preparatory leadership and therapeutic functions in each case Millenarian movements are powerful and emotional social movements that expect an immediate collective total this worldly supernatural salvation and transformation of society They anticipate the complete destruction of the existing sociopolitical and economic order which they assert will be followed by a new and

perfect society This study provides an interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies that were profoundly impinged upon by European and American imperialism It seeks to explore the functional role of millenarianism in these three revolutions In all three cases millenarianism prepared the way for revolutionary transformation It acted as a catalyst for action among that group of the most ardent revolutionists who were willing to pay any price to achieve what they were convinced was the inevitable goal of a utopian society Millenarianism created the potential for charismatic leadership to emerge It functioned as a doctrinal platform that awaited the opportunity to elevate a prophetic revolutionary leader to take control Finally millenarianism performed a therapeutic identity and cathartic function by providing the doctrinal foundation and an effective organization for a social healing process to take place A challenge to conventional arguments on the origins and outcomes of revolutions this study will be of great interest to scholars and researchers in comparative politics sociology and religion

Voegelin, Schelling, and the Philosophy of Historical Existence Jerry Day, 2003 In this important new work Jerry Day brings to light the need for an extensive reinterpretation of the mature philosophy of Eric Voegelin based on Voegelin's published and unpublished appreciation for nineteenth century German philosopher F W J Schelling Schelling whom Day maintains was one of the most important guides to Voegelin's mature philosophy of consciousness and historiography has been described as the father of several disparate movements and schools of continental philosophy chief among them being Hegelian idealism and existentialism This characterization implies that Schelling was a scattered thinker with little or no appreciation for philosophy as a disciplined inquiry into the nature of human affairs Voegelin was critical of this portrayal of Schelling He argued that it lacked proper sensitivity for the impressive extent to which this giant of continental thought was able to rise above the creed communities of his time and recover the abiding concern of mature philosophers everywhere the philosophia perennis Those who claim that Schelling was scattered have failed according to Voegelin to appreciate the nonideological breadth of this great philosopher misled by the splinter movements and schools that arose from mere fragments of his thought In truth Schelling founded no school and launched no movement Instead he reasoned with the disciplined integrity and wonder of a spiritual realist Day argues that Voegelin was a fine interpreter of Schelling particularly during the decisive years when the central orientation of Voegelin's mature thought was beginning to take hold between the writing of his History of Political Ideas and its eventual transformation into Order and History Day gathers an impressive array of evidence to interpret Voegelin's little known support for Schelling's achievements while offering detailed analyses and helpful summaries of a vast body of literature that has yet to be translated into English Day's partial agreement with Voegelin's uncommon assessment of Schelling provides him with the point of departure that leads to one of this book's most distinctive contributions to contemporary thought It has the rare ability to help clear the way for philosophical realists to make peace with many of their contemporaries giving them further grounds for accepting the strongest anthropological and psychological insights of recent

continental philosophy while helping them to avoid its tendencies toward nihilistic despair or fideistic historicism By reading each philosopher through the eyes of the other Day provides an analysis that will be illuminating for Voegelin scholars and Schelling scholars alike The book will also appeal to readers with more general interests in the history and development of continental philosophy political theory and comparative religion over the past century

America on Trial, Expanded Edition Robert Reilly, 2022-02-01 The Founding of the American Republic is on trial Critics say it was a poison pill with a time release formula we are its victims Its principles are responsible for the country's moral and social disintegration because they were based on the Enlightenment falsehood of radical individual autonomy In this well researched book Robert Reilly declares not guilty To prove his case he traces the lineage of the ideas that made the United States and its ordered liberty possible These concepts were extraordinary when they first burst upon the ancient world the Judaic oneness of God who creates ex nihilo and imprints his image on man the Greek rational order of the world based upon the Reason behind it and the Christian arrival of that Reason Logos incarnate in Christ These may seem a long way from the American Founding but Reilly argues that they are in fact its bedrock Combined they mandated the exercise of both freedom and reason

Revivalism and Cultural Change George M. Thomas, 2019-04-08 The history of Christianity in America has been marked by recurring periods of religious revivals or awakenings In this book George M Thomas addresses the economic and political context of evangelical revivalism and its historical linkages with economic expansion and Republicanism in the nineteenth century Thomas argues that large scale change results in social movements that articulate new organizations and definitions of individual society authority and cosmos Drawing on religious newspapers party policies and agendas and quantitative analyses of voting patterns and census data he claims that revivalism in this period framed the rules and identities of the expanding market economy and the national policy Subtle and complex Fascinating Randolph Roth Pennsylvania History

Revivalism and Cultural Change should be read with interest by those interested in religious movements as well as the connections among religion economics and politics Charles L Harper Contemporary Sociology Readers old and new stand to gain much from Thomas's sophisticated study of the macrosociology of religion in the United States during the nineteenth century He has given the sociology of religion its best quantitative study of revivalism since the close of the 1970s Journal for the Scientific Study of Religion

Civil Society and the Search for Justice in Russia Christopher Marsh, Nikolas K. Gvosdev, 2002-01-01 More than a decade has passed since path breaking policies aimed at liberalizing post Soviet society were first introduced in Russia Today these promises of freedom equality and justice remain largely unfulfilled and Russia's political system continues to exhibit signs of the deep rooted problems that may well retard if not completely derail any possibility of future reform Against this stark background Civil Society and the Search for Justice in Russia explores the various dimensions of Russia's civil society the meaning of and search for justice the role of the Orthodox church as a principal unifier in civil society the need for new freedoms for women and ethnic minorities and the role of mass education

and the free press in inculcating and articulating new civic values Expertly blending the historical with the theoretical the recent with the empirical this work offers new insight and analysis into the ability of a nascent Russian civil society to engage effectively with the twenty first century Russian state to ensure social religious and political justice **Ancient and Modern Religion and Politics** J. LeBlanc,Carolyn M. Jones Medine,2012-10-22 This book brings a variety of voices into conversation about the issues of identity community tension and violence and peace in the West from Sophocles to Alice Walker from Lincoln to Martin Luther King Jr and from Euripides to Edward Said **Roman Catholic Political Philosophy** James V. Schall,2006-08-01 In Roman Catholic Political Philosophy author James V Schall tries to demonstrate that Roman Catholicism and political philosophy revelation and reason are not contradictory It is his contention that political philosophy the primary focus of the book asks certain questions about human purpose and destiny that it cannot by itself answer Revelation is the natural complement to these important questions about God human being and the world Schall manages to avoid polemicism or triumphalism as he shows that revelation and political thought contribute to a fuller understanding of each other **Revolution** Rosemary H. T. O'Kane,2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more *Private Agriculture in Armenia* Zvi Lerman,Astghik Mirzakhanian,2001-01-01 This book details and analyzes an extensive farm survey of Armenian land reform Zvi Lerman and Astghik Mirzakhanian two principal contributors to the design of the study present their invaluable insight into the rapid land reform strategy implemented in Armenia Unique among the former Soviet Republics the entire agricultural sector of this country shifted from collective large scale farm enterprises to individual production in 1992 The authors pay special attention to the commercialization of private farms and their access to supply and marketing channels outside the old state controlled system Family incomes from farming and off farm sources are discussed as well as problems of rural social services and social infrastructure The authors demonstrate how official statistical measures and record keeping practices in Armenia do not adequately account for this dramatic transition
