

The background of the book cover is a painting. It depicts a dark, leafless tree standing on a small, rounded hill. The ground around the base of the tree is covered in fallen leaves, shown in shades of orange, red, and brown. The hill itself is a mix of brown and green. In the background, a large, bright, yellowish-white full moon is visible, partially obscured by soft, blue and grey clouds. The sky is a deep, dark blue. The overall mood is quiet and contemplative.

Psychology, Ninth Edition, In Modules (Loose Leaf) David G. Myers, 2009-09-28 *Psychology In Modules* David G. Myers, 2009-09-28 This version of the main text breaks down the chapters into shorter modules for more accessibility. The smaller chunks allow students to better grasp and explore psychological concepts. The modules also allow more flexibility in teaching as cross references to other chapters have been replaced with brief explanations. **Study Guide to Accompany David G. Myers Exploring Psychology in Modules, Ninth Edition** Richard Otto Straub, 2014 **Psychology In Modules (Spiral)** David G. Myers, 2009-09-28 Why Myers David Myers has become the world's best selling introductory psychology author by serving the needs of instructors and students so well. Each Myers textbook offers an impeccable combination of up to date research, well crafted pedagogy and effective media and supplements. Most of all, each Myers text demonstrates why this author's style works so well for students with his signature compassionate, companionable voice and superb judgment about how to communicate the science of psychology and its human impact. Why Modules This module-based version of Myers' best selling full length text *Psychology* breaking down that book's 16 chapters into 59 short modules is yet another example of the author's ability to understand what works in the classroom. It comes from Myers' experiences with students who strongly prefer textbooks divided into briefer segments instead of lengthier chapters and with instructors who appreciate the flexibility offered by the modular format. Modular organization presents material in smaller segments. Students can easily read any module in a single sitting. Self standing modules. Instructors can assign modules in their own preferred order. The modules make no assumptions about what students have previously read. Illustrations and key terms are repeated as needed. This modular organization of short stand alone text units enhances teacher flexibility. Instead of assigning the entire Sensation and Perception chapter, instructors can assign the module on vision, the module on hearing and or the module on the other senses in whatever order they choose.
