The spiritual malaise regnant in today's disenchanted world presents a picture of a polar night of icy darkness as Max Weber wrote already a century ago This collective dark night of the soul is driven by climate change related disasters rapid technological innovations and opaque geostrategic realignments In the wake of what policy analysts refer to as Westlessness the post modern age is characterized by incessant distractions urgent calls to responsibility and in humanly short deadlines which result in a general state of exhaustion and burnout The hovering sense of living in a time frame that is post histoire induces states of confusion on a personal level as well as in the realm of politics Totally missing is a grand nar

relative to guide humanity's vision in the midst of a world crisis Thinkers scholars and Jungian analysts are increasingly looking to C G Jung's monumental oeuvre *The Red Book* as a source for guidance to re-enchant the world and to find a new and deeper understanding of the homo religiosus The essays in this series on Jung's *Red Book for Our Time* Searching for Soul under Postmodern Conditions circle around this objective and offer countless points of entry into this inspiring work

C.G.Jung: his myth in our time, tr Marie Luise Von Franz, *Jung's Red Book for Our Time: Searching for Soul In the 21st Century* Murray Stein, 2022-12-10 Do we like Jung need to leave the spirit of the time and follow the spirit of the depths to call out my soul where are you through the windows of our now post modern homes We live in a digital world of incredible virtual inter connectedness but at the same time fragmented and divided on many levels including the psychological The pace of life is rapid and ever accelerating The spirit of the time is flux It twitters There is no sense of coherence in the whole The guidance of a transcendent North Star is invisible to the naked eye of consciousness Our existential crisis is not about the individual alone It infects the entire human world like the Covid 19 pandemic Wars between cultural brothers and sisters increasingly dire effects of climate change economic disruptions hunger migration these conditions affect everyone on the planet Is there a spirit of the depths that can take us through this Inferno perhaps toward the emergence of a meaningful narrative that can stabilize the global community and provide a collective sense of supreme meaning This is the search for soul in the 21st Century *The Black Madonna Within* Tataya Mato, 1994 Long a folk image in Europe the Black Madonna archetype has recently begun to appear in the dreams and other unconscious material of hundreds of North American women and men Some Jungian thinkers have identified this striking phenomenon with the emergence of a latent feminine force demanding conscious recognition The collective dream pattern so often in advance of consciousness here asserts a new caring relationship to the Earth and all its creatures **Jung's Quest for Wholeness** Curtis D. Smith, 1990-07-05 Here is a unique analysis of Carl Jung's thought from the perspective of the history of religions Using a religious and historical approach the author identifies the religious goal or ultimate concern of Jung's psychological system and traces the evolution of that goal throughout his *Collected Works* This book focuses on the historical development of a key component of Jung's thought the quest for wholeness and shows how it functions as the ultimate concern of his psychotherapeutic system The relationships among many of Jung's important concepts such as his complex theory the individuation process archetypal symbolism therapeutic concerns alchemy and Eastern religions are given a new sense of order and significance when viewed in this historical light Rather than presenting a haphazard array of seemingly endless topics this work emphasizes the continuity underlying Jung's early and later writings The evolution of Jung's work is divided into three distinct phases developmental formative and elaborative Whereas the developmental period consists of the time prior to the creation of Jung's ultimate concern it was during the formative phase that Jung began to consolidate the contours of his newly emerging system During the elaborative phase Jung expanded and clarified his ultimate concern and pattern of ultimacy This book

shows that the evolution of Jung's thought moved from a concern with psychic fragmentation to individual wholeness and then to cosmic unity *C. G. Jung's Psychology of Religion and Synchronicity* Robert Aziz, 1990-01-01 Explores our answerability and responsibility to the world **Jung and the Native American Moon Cycles** Michael Owen, 2002 Jung and the Native American Moon Cycles describes the life of C G Jung as seen through the lens of the Moon Cycles a Native American teaching about the archetypal influences and forces that affect us at different times in our lives Through this lens we see how the rhythm of Jung's life coincided with the great events of the 20th century This book offers new insights into Jung's life and death and provides a fascinating perspective on some of Jung's more important dreams It also unexpectedly casts new light on Jung's fateful associations with Freud and Picasso and the controversial areas of his life particularly his relationships with women and his supposed anti-Semitism Michael Owen also shows how readers will be able to place the events of their own lives on the Moon Cycles of the Native American Medicine Wheel gaining a new perspective into the births and deaths in their life inner and outer They will see what learning periods are ahead of them and understand the critical importance of the nine month and three year cycles Some of the patterns of time and other insights revealed Both Jung's parents were the thirteenth and youngest in their families Freud died twenty seven years almost to the day after he fainted in Jung's presence and said How sweet it must be to die Jung dreamt of the firebombing of Dresden twenty seven years before it happened Jung's writings about Picasso and its relationship to Jung's death **Animus Rising** Bernard X. Bovasso, 2010-02-05 The subject of Dr Freud's Oedipal Complex deals essentially with Fathers and sons Neglected however in much psychological exegesis is something equivalent as Mothers and daughters In the following work as much has been attempted and with special attention given to what Dr C G Jung called the animus the unconscious maleness of the feminine psyche However the animus is not limited to the feminine estate simply because it is engendered as Spirit per se and with broader implication as zeitgeist It is thus included as an aspect of Western culture and collective consciousness The World Animus makes its first pre historic appearance in what is known as a standing stone The giant phallus thus serves as an image exemplifying what I refer to as Animus Rising and as such not only represents a momentous event in the early period of European and Western culture but the modern culture trend especially noticeable in the U S A toward a matricentric society *Dream Time with Children* Brenda Mallon, 2002 Children may not understand where their dreams come from especially when they experience terrifying nightmares that stop them being able to sleep and frighten them when they are awake Accessible and fun to use this guide gives a step by step account of how to understand and interpret children's dreams

The Maya Book of Life Michael Owen, 2011-03 THE MAYA BOOK OF LIFE UNDERSTANDING THE XULTUN TAROT is the companion book to the Xultun Tarot Classic Edition It explores the archetypes and alchemy of the major arcana of the Xultun Tarot through indigenous teachings and the analytical psychology of C G Jung and casts new light on the meaning of 2012 The Xultun Tarot was created by Peter Balin in 1976 based on images from Maya history and culture Taken from a

single painting it is the only tarot deck where the major arcana form a complete picture This picture is a symbolic image of the alchemical marriage of spirit and matter and a map of what Jung called the individuation process Only 500 copies of the original Xultun Tarot were ever printed Now Kahurangi Press xultun com has recreated this classic long out of print deck true to its original large size and vibrant colours together with a book that explains the profound symbolism of the cards Michael Owen is a clinical psychologist in private practice and author of Jung and the Native American Moon Cycles He lives in New Zealand

The Snake and the Rope: A Jungian View of Hinduism George R. Elder, 2025-02-15 It is obvious that our culture is undergoing a major transition as are our religions that traditionally carry a culture's values even its vitality Thus it is essential that we understand how religion functions when it is alive and well Studying it elsewhere in another time and place helps us to be objective about the religious life And this survey of Hinduism serves that purpose Since our own religious traditions assume a pre modern world view it is important that we try to interpret them in a modern way Otherwise we lose their wisdom C G Jung's psychology of religion is the most creative interpretation of religion that we have today I show to what extent Jung wrote about Hinduism understood it and how we can apply his insights to our own psycho religious circumstances The Snake and the Rope A Jungian View of Hinduism is a companion to my book The Self and the Lotus A Jungian View of Indian Buddhism 2 vols that is also published by BookLocker

The Wounded Researcher Robert D. Romanyshyn, 2020-08-14 The Wounded Researcher addresses the crises of epistemological violence when we fail to consider that a researcher is addressed by and drawn into a work through his or her complexes Using a Jungian Archetypal perspective this book argues that the bodies of knowledge we create degenerate into ideologies which are the death of critical thinking if the complexity of the research process is ignored Writing with soul in mind invites us to consider how we might write down the soul in writing up our research

The Archaic Paul Bishop, 2011-09-30 The Archaic takes as its major reference points C G Jung's classic essay Archaic Man 1930 and Ernesto Grassi's paper on Archaic Theories of History 1990 Moving beyond the confines of a Jungian framework to include other methodological approaches this book explores the concept of the archaic Defined as meaning old fashioned primitive antiquated the archaic is in fact much more than something very very old it is timeless inasmuch as it is before time itself Arch Urgrund Ungrund primordial darkness eternal nothing are names for something essentially nameless yet whose presence we nevertheless intuit This book focuses on the reception of myth in the tradition of German Idealism or Romanticism Creuzer Schelling Nietzsche which not only looked back to earlier thinkers such as Jacob Boehme but also laid down roots for developments in twentieth century thought Ludwig Klages Martin Heidegger The Archaic also includes studies of the Germanic dimension of the archaic Charles Bambach Alan Cardew a discussion of the mytho phenomenological approach to the archaic Robert Josef Kozljani a series of articles on Jung's understanding of the archaic Paul Bishop Susan Rowland Robert Segal This book will be of interest to psychoanalysts anthropologists and phenomenologists as well as students of psychology cultural studies religious studies and
