Reading the graphic surface Glyn White, 2018-02-28 This book critically engages with the visual appearance of prose fiction where it is manipulated by authors from alterations in typography to the deconstruction of the physical form of the book It reappraises the range of effects it is possible to create through the use of graphic devices and explores why literary criticism has dismissed such features as either unreadable experimental gimmicks or more recently as examples of the worst kind of postmodern decadence Through the examination of problematical texts which utilise the graphic surface in innovative and unusual ways including Samuel Beckett's *Watt* B S Johnson's *Albert Angelo* Christine Brooke Rose's *Thru* and Alasdair Gray's *Lanark* this book demonstrates that an awareness of the graphic surface can make significant contributions to interpretation *Discipline and Practice* Stefan Herbrechter, Ivan Callus, 2004 Has theory become resistible Has it betrayed its promise and sold out on its practice Should theory after having become a discipline still lay claims on the radical or should it embrace its establishment within the university What future's could theory have if there is disagreement about its present's and its past's and what and how should it from now proceed to read Hollywood on Stage Kimball King, 2013-07-04 Playwrights have been depicting Hollywood as a cultural desert and an industry of profit driven philistines ever since the

early days of the movies This collection of original essays covers the period from the 1920s to the present but concentrates on such contemporary playwrights as David Mamet Sam Shepard David Rabe Arthur Kopit and Adrienne Kennedy A substantial proportion of the volume is devoted to a discussion of the way in which these authors deconstruct Hollywood myths to reveal painful social and psychological issues in American life providing a deeper and darker picture than the simple satires of movie making in the 1920s and 1930s or Odets's comparison of the commercially debased Hollywood with the higher purer art of the theatre To complete and further complicate the picture the volume concludes with essays on the African American experience gay writers and feminist writing as seen through the lens of Marlane Myer's *ETTA JENKS* It is obvious that the legitimate stage remains a watchdog and constant critic of what is possibly the world's most powerful cultural phenomenon This book will be eagerly read by all students of film theatre and 20th century literature
