**A Guide to Detracking Math Courses** Angela Torres, Ho Nguyen, Elizabeth Hull Barnes, Laura Wentworth, 2023-05-03 Create a pathway to equity by detracking mathematics The tracked mathematics system has been operating in US schools for decades However research demonstrates negative effects on subgroups of students by keeping them in a single math track thereby denying them access to rigorous coursework needed for college and career readiness The journey to change this involves confronting some long standing beliefs and structures in education When supported with the right structures instructional shifts coalition building and educator training and support the detracking of mathematics courses can be a primary pathway to equity The ultimate goal is to increase more students access to and achievement in higher levels of mathematics learning especially for students who are historically marginalized Based on the stories and lessons learned from the San Francisco Unified School District educators who have talked the talk and walked the walk this book provides a model for all those involved in taking on detracking efforts from policymakers and school administrators to math coaches and teachers By sharing stories of real world examples lessons learned and prompts to provoke discussion about your own context the book walks you through Designing and gaining support for a policy of detracked math courses Implementing the policy through practical shifts in scheduling curriculum professional development and coaching Supporting and improving the policy through continuous research monitoring and maintenance This book offers the big ideas that help you in your own unique journey to advance equity in your school or district's mathematics education and also provides practical information

to help students in a detracked system thrive

**Promoting the Educational Success of Children and Youth Learning English** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division of Behavioral and Social Sciences and Education, Board on Science Education, Board on Children, Youth, and Families, Committee on Fostering School Success for English Learners: Toward New Directions in Policy, Practice, and Research, 2017-09-25

Educating dual language learners DLLs and English learners ELs effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic cognitive and social potential, many ELs who account for more than 9 percent of enrollment in grades K-12 in U.S. schools are struggling to meet the requirements for academic success and their prospects for success in postsecondary education and in the workforce are jeopardized as a result.

**Promoting the Educational Success of Children and Youth Learning English: Promising Futures** examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy practice and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

*A Course for Teaching English Learners* Lynne T. Díaz-Rico, 2008

*A Course for Teaching English Learners* CTTEL Handbook offers strategies to equip teachers to work with English language learners balancing fundamental principles with practical classroom techniques. This book offers in a single volume a wealth of background principles underlying the cultural, linguistic and sociocultural contexts and foundations of learning and by providing a comprehensive framework that doesn't only focus on reading and writing.

Provisions in the federal No Child Left Behind Act (NCLB) call for yearly accountability in English language growth for language minority students. The CTTEL Handbook addresses the new focus on testing procedures as well as adaptation for English learners during the test taking process.

Throughout Lynne Diaz Rico provides the necessary background knowledge needed to educate English learners and also includes a variety of classroom methods for English language development in listening, speaking, reading, writing and computer assisted instruction.

**The Turnaround ToolKit** Lynn Winters, Joan Herman, 2011

Lynn Winters and Joan Herman's *The Turnaround Toolkit* is written for school leaders who are focused on transforming instruction and who may be working under significant time constraints to reverse declining student achievement or public perceptions of school failure. Based on the evidence that simply implementing continuous improvement is not enough to close the achievement gap, *The Turnaround Toolkit* provides a nine-step formative evaluation program designed to achieve an immediate and consistent focus on improving instruction in order to bolster student achievement. In a straightforward and accessible fashion, Herman and Winters explain three overarching Turnaround Tasks that frame these steps and the necessary and sometimes drastic actions that must be taken by school leaders as they use data to strategically choose

implement monitor and revise school interventions A dedicated online toolkit offers numerous worksheets and templates that support each stage of the process and help school leaders scaffold the work of educators to put an aggressive turnaround plan into action while a leadership guide at the end of the book provides guidance to turnaround teams and facilitators
