

CSET Spanish Subtest 1 Exam Questions and Verified Answers.

The scientific study of the language, how it is put together and how it functions. It looks at the interplay of sound (phonetic) and meaning (semantics and pragmatics). - Correct Answer Linguistic

The Study of human speech sounds - Correct Answer Phonetics

Influenced by both sound and meaning (Morphology, syntax, and phonology). - Correct Answer Grammar

The Study of the use of language in context... deals with how listeners arrive at intended meaning of speaking. - Correct Answer Pragmatics

The Branch of linguistics which studies how sounds are organized, and used in natural language.

Ex: time [t] & dime [d] Identical words, except beginning sounds. - Correct Answer Phonology

Phones which are phonetically similar but not the same and which are treated as the same in linguistic communication; or the sound which are phonetically different but do not make one word different from another in meaning.

Ex: pat, spin, cup

These are sounds that are perceptibly different but do not distinguish words.

P^h - Pat (aspirated)

P- Spin (not aspirated)

P^o- Cup (your lips remain closed; /p/ is unreleased) - Correct Answer Allophone

Is a set of multiple spoken sounds (or phones) used to pronounce a single phoneme. For example, [p^h] (as in pin) and [p] (as in spin) are multiple spoken sounds for the phoneme /p/ in the English language. Although a phoneme's variation of spoken sounds are all alternative pronunciations for a phoneme, the specific alternative sound selected in a given situation is often predictable. Changing the alternative sounds used by native speakers for a given phoneme in a specific context usually will not change the meaning of a word but the results may sound non-native or unintelligible. Native speakers of a given language usually perceive one phoneme in their language as a single distinctive sound in that language and are "both unaware of and even shocked by "all the different variations used to pronounce single phonemes. - Correct Answer Allophone

The study of the structure of the words and how words are formed. - Correct Answer Morphology

Minimal units of words that have a meaning and cannot be subdivided any further. There are two types. - Correct Answer Morphemes
