Dying And Death In Later Anglo Saxon England Anglo Saxon Studies:

Dying and Death in Later Anglo-Saxon England Victoria Thompson, 2012 Study of late Anglo Saxon texts and grave monuments illuminates contemporary attitudes towards dying and the dead Pre Conquest attitudes towards the dying and the dead have major implications for every aspect of culture society and religion of the Anglo Saxon period but death bed and funerary practices have been comparatively and unjustly neglected by historical scholarship In her wide ranging analysis Dr Thompson examines such practices in the context of confessional and penitential literature wills poetry chronicles and homilies to show that complex and ambiguous ideas about death were current at all levels of Anglo Saxon society Her study also takes in grave monuments showing in particular how the Anglo Scandinavian sculpture of the ninth to the eleventh centuries may indicate not only the status but also the religious and cultural alignment of those who commissioned and made them Victoria Thompson is Lecturer in the Centre for Nordic Studies at the University of the Highlands and Islands **The Oxford Handbook of Anglo-Saxon Archaeology** Helena Hamerow, David A. Hinton, Sally Crawford, 2011-03-31 Written by a team of experts and presenting the results of the most up to date research The Handbook of Anglo Saxon Archaeology will both stimulate and support further investigation into a society poised at the interface between prehistory and history

Late Anglo-Saxon Prayer in Practice Kate H. Thomas, 2020-01-20 This monograph examines Anglo Saxon prayer outside of the communal liturgy With a particular emphasis on its practical aspects it considers how small groups of prayers were elaborated into complex programs for personal devotion resulting in the forerunners of the Special Offices With examples being taken chiefly from major eleventh century collections of prayers liturgy and medical remedies the methodologies of Anglo Saxon compilers are examined followed by five chapters on specialist kinds of prayer to the Trinity and saints for liturgical feasts and the canonical hours to the Holy Cross for protection and healing and confessions Analyzing prayer in a wide range of different situations this book argues that Anglo Saxon manuscripts may have included far more private offices than have so far been recognized if we see them for what they were **Anglo-Saxon Studies in Archaeology and History** 14 Sarah Semple, Howard Williams, 2007-10-10 Volume 14 of the Anglo Saxon Studies in Archaeology and History series is dedicated to the archaeology of early medieval death burial and commemoration Incorporating studies focusing upon Anglo Saxon England as well as research encompassing western Britain Continental Europe and Scandinavia this volume originated as the proceedings of a two day conference held at the University of Exeter in February 2004 It comprises of an Introduction that outlines the key debates and new approaches in early medieval mortuary archaeology followed by eighteen innovative research papers offering new interpretations of the material culture monuments and landscape context of early medieval mortuary practices Papers contribute to a variety of ongoing debates including the study of ethnicity religion ideology and social memory from burial evidence The volume also contains two cemetery reports of early Anglo Saxon cemeteries from Cambridgeshire **Heaven and Earth in Anglo-Saxon England** Helen Foxhall Forbes, 2016-04-22 Christian theology and

religious belief were crucially important to Anglo Saxon society and are manifest in the surviving textual visual and material evidence This is the first full length study investigating how Christian theology and religious beliefs permeated society and underpinned social values in early medieval England The influence of the early medieval Church as an institution is widely acknowledged but Christian theology itself is generally considered to have been accessible only to a small educated elite This book shows that theology had a much greater and more significant impact than has been recognised An examination of theology in its social context and how it was bound up with local authorities and powers reveals a much more subtle interpretation of secular processes and shows how theological debate affected the ways that religious and lay individuals lived and died This was not a one way flow however this book also examines how social and cultural practices and interests affected the development of theology in Anglo Saxon England and how popular belief interacted with literary and academic traditions Through case studies this book explores how theological debate and discussion affected the personal perspectives of Christian Anglo Saxons including where possible those who could not read In all of these it is clear that theology was not detached from society or from the experiences of lay people but formed an essential constituent part

Pastoral Care in Late Anglo-Saxon England Francesca Tinti, 2005 The role of pastoral care reconsidered in the context of major changes within the Anglo Saxon church The tenth and eleventh centuries saw a number of very significant developments in the history of the English Church perhaps the most important being the proliferation of local churches which were to be the basis of the modern parochial system Using evidence from homilies canon law saints lives and liturgical and penitential sources the articles collected in this volume focus on the ways in which such developments were reflected in pastoral care considering what it consisted of at this time how it was provided and by whom Starting with an investigation of the secular clergy their recruitment and patronage the papers move on to examine a variety of aspects of late Anglo Saxon pastoral care including church due payments preaching baptism penance confession visitation of the sick and archaeological evidence of burial practice Special attention is paid to the few surviving manuscripts which are likely to have been used in the field and the evidence they provide for the context the actions and the verbal exchanges which characterised pastoral provisions

Wills and Will-making in Anglo-Saxon England Linda Tollerton, 2011 A study of the implications and practices of wills and will making in Anglo Saxon society and of the varieties of inheritance strategies and commemorative arrangements adopted A remarkable series of Anglo Saxon wills have survived spanning the period from the beginning of the ninth century to the years immediately following the Norman Conquest Written in Old English they reflect the significance of the vernacular not only in royal administration during this period but in the recording of a range of individual transactions They show wealthy laymen and women and clerics from kings and bishops to those of thegny status disposing of land and chattels and recognising ties of kinship friendship lordship and service through their bequests and whilst land is of prime importance the mention in some wills of such valuable items as tableware furnishings clothing jewellery and weapons provides an insight

into lifestyle at the time Despite their importance no study has hitherto been specifically devoted to Anglo Saxon wills in their social and historical context a gap which this book aims to fill While the wills themselves can be vague and allusive by establishing patterns of bequeathing and by drawing on other resources the author sheds light on the factors which influenced men and women in making appropriate provision for their property Linda Tollerton gained her PhD from the University of York

Emotional Practice in Old English Literature Alice Jorgensen, 2024 An examination of how emotions were practised and performed through Old English texts Scholarship is increasingly interested in investigating concepts of emotion found in Old English literature This study takes the next step arguing that both heroic and religious texts were vehicles for emotional practice that is for doing things with emotion Using case studies from heroic poetry Beowulf The Battle of Brunanburh and The Battle of Maldon religious poetry Christ I and Christ III and homilies selections from the Vercelli Book Blickling Homilies and the works of Wulfstan it shows via detailed close readings that texts could be used to act out emotional styles manage the emotions arising from specific events and negotiate relationships both within social groups and with God Meanwhile a chapter on the Old English Boethius explores how the control of unruly emotions is theorized as the transfer of attachment from the things of this world to the things of the divine Overall the volume offers new angles on the social functions of genres and questions of reception and performance and it gives insight into how early medieval people used emotions to relate to their world temporal and eternal

Standing on Holy Ground in the Middle Ages Lucy Donkin, 2022-02-15 Standing on Holy Ground in the Middle Ages illuminates how the floor surface shaped the ways in which people in medieval western Europe and beyond experienced sacred spaces The ground beneath our feet plays a crucial yet often overlooked role in our relationship with the environments we inhabit and the spaces with which we interact By focusing on this surface as a point of encounter Lucy Donkin positions it within a series of vertically stacked layers the earth itself permanent and temporary floor coverings and the bodies of the living above ground and the dead beneath providing new perspectives on how sacred space was defined and decorated including the veneration of holy footprints consecration ceremonies and the demarcation of certain places for particular activities Using a wide array of visual and textual sources Standing on Holy Ground in the Middle Ages also details ways in which interaction with this surface shaped people's identities whether as individuals office holders or members of religious communities Gestures such as trampling and prostration the repeated employment of specific locations and burial beneath particular people or actions used the surface to express likeness and difference From pilgrimage sites in the Holy Land to cathedrals abbeys and local parish churches across the Latin West Donkin frames the ground as a shared surface both a feature of diverse distant places and subject to a variety of uses over time while also offering a model for understanding spatial relationships in other periods regions and contexts
