Dying With Dignity Understanding Euthanasia:

Dying with Dignity Derek Humphry, 1992 Thanks to the runaway success of the number one national bestseller *Final Exit* the Practicalities of Self Deliverance and Assisted Suicide for the Dying the right to die has been brought to the moral and political forefront Derek Humphry s new book *Dying with Dignity Understanding Euthanasia* puts the somewhat confusing ethics and legality of the right to die in perspective and serves as an important companion volume to *Final Exit* Euthanasia became a personal experience for Derek Humphry when his first wife Jean who was suffering from terminal breast cancer asked him to help her die This unhappy event and the public interest surrounding it caused him to found the nonprofit National Hemlock Society and become the champion of this cause Through essays and briefings Humphry s latest book *Dying with Dignity* helps readers work their way through the labyrinth of complex issues which comprise the subject Topics of discussion include Euthanasia Is it mercy or murder The case for rational suicide when suicide is justified and the ethical parameters of autoeuthanasia i e the taking of one s own life The trend toward acceptance why more judges are increasingly ruling for the terminally ill patient s rights over the hospital s responsibilities to preserve life Evidence of the dramatic growth of the right to die movement Questions and answers about the Hemlock Society answers including why this pioneer group was formed and what its political goals are Specific questions regarding the pros and cons of different suicide methods are also discussed The landmark cases of eleven doctors who have been charged with killing a terminally ill patient or family member and the consequences of these cases from Harold Balzer who in 1935 murdered his daughter a victim of cerebral spinal meningitis to Dr Jack Kevorkian who in 1991 developed a suicide machine The profound differences between mercy killing assisted suicide and auto euthanasia and the one the Hemlock Society supports and why *Dying with Dignity* also discusses the effect that major mercy killing cases have had involving individuals like Roswell Gilbert Dr Peter Rosier Nancy Cruzan and Karen Ann Quinlan and the lessons these cases have taught In Humphry s professional opinion voluntary euthanasia will become lawful within the next few years Recent polls overwhelmingly indicate that the public believes in a person s moral right to end his or her life when that person has an incurable disease And with the surprising success of *Final Exit* it s apparent that the right to die is on a lot of people s minds *Dying with Dignity* will help readers to sort out the complexities of this issue

Dying with Dignity Derek Humphrey, 1995-04-12 From the author of the runaway 1 New York Times bestseller *Final Exit* here is what every reader should know about euthanasia The founder and executive director of the Hemlock Society makes a case for the right to die and covers many landmark cases **The Right to Die with Dignity** Derya Nur Kayacan, 2022-06-20 Can I choose to die As the number of requests for euthanasia and physician assisted suicide continues to rise human rights law faces a new conflict the right to die vs the right to life The right to die or in other words the right to choose the time and manner of one s own death is a question of personal autonomy and its limits This book provides a

comprehensive understanding of the right to die and sheds light on its possible future under the European Convention on Human Rights. After setting a clear framework by defining the key terminology, the book takes a two-part approach to achieving its aim. The first part focuses on the right to die in practice by examining selected jurisdictions. Switzerland, which is famous for its assisted suicide organizations, and the Netherlands, which was the first country to legalize euthanasia, are examined in detail. Belgium, Germany, the United Kingdom, and, as an exception to the Convention perspective, Canada, are also included. While this examination offers a better understanding of what the right to die looks like in practice, it also provides insights on the slippery slope argument, which serves as a counterweight to personal autonomy without making a definitive statement on its validity. This part also illustrates the different paths that led or did not lead to the right to die in practice. The second part is an analysis of the European Court of Human Rights case law on the right to die. The Court has made important statements in only very few cases, while its caution when approaching such a delicate and controversial topic among its 47 members is understandably emphasized. This analysis of the Court's approach to the balancing of personal autonomy against other interests allows us to take a look back at the practice in more permissive jurisdictions through the lens of the Convention. Taken together, the book's two parts provide valuable lessons for countries that decide to practice assisted dying, which are outlined in the conclusion. In addition, given that a purely legal approach can only offer a partial picture, the book argues that an interdisciplinary approach would be much more favorable in terms of providing the necessary basis for the right to die debate.

Death, Dying and Bereavement Donna Dickenson, Malcolm Johnson, Jeanne Katz, 2000-09-28. The fully revised and updated edition of this bestselling collection combines academic research with professional and personal reflections. *Death, Dying and Bereavement* addresses both the practical and the more metaphysical aspects of death. Topics such as new methods of pain relief, guidelines for breaking bad news, and current attitudes to euthanasia are considered, while the mystery of death and its wider implications are also explored. A highly distinctive interdisciplinary approach is adopted, including perspectives from literature, theology, sociology, and psychology. There are wide-ranging contributions from those who come into professional contact with death and bereavement: doctors, nurses, social workers, and others. **Into the Jaws of Yama, Lord of Death** Karma Lekshe Tsomo, 2012-02-01. This book explores the Buddhist view of death and its implications for contemporary bioethics. Writing primarily from within the Tibetan tradition, author Karma Lekshe Tsomo discusses Buddhist notions of human consciousness and personal identity and how these figure in the Buddhist view of death. Beliefs about death and enlightenment and states between life and death are also discussed. Tsomo goes on to examine such hot-button topics as cloning, abortion, assisted suicide, euthanasia, organ donation, genetic engineering, and stem cell research within a Buddhist context, introducing new ways of thinking about these highly controversial issues. **Killing and Letting Die** Bonnie Steinbock, Alastair Norcross, 2024-10-22. Available in a new digital edition with reflowable text suitable for e-readers. This collection contains twenty-one thought-provoking essays on the controversies surrounding the moral and legal distinctions

between euthanasia and letting die Since public awareness of this issue has increased this second edition includes nine entirely new essays which bring the treatment of the subject up to date The urgency of this issue can be gauged in recent developments such as the legalization of physician assisted suicide in the Netherlands how to manuals topping the bestseller charts in the United States and the many headlines devoted to Dr Jack Kevorkian who has assisted dozens of patients to die The essays address the range of questions involved in this issue pertaining especially to the fields of medical ethics public policymaking and social philosophy The discussions consider the decisions facing medical and public policymakers how those decisions will affect the elderly and terminally ill and the medical and legal ramifications for patients in a permanently vegetative state as well as issues of parent infant rights The book is divided into two sections The first Euthanasia and the Termination of Life Prolonging Treatment includes an examination of the 1976 Karen Quinlan Supreme Court decision and selections from the 1990 Supreme Court decision in the case of Nancy Cruzan Featured are articles by law professor George Fletcher and philosophers Michael Tooley James Rachels and Bonnie Steinbock with new articles by Rachels and Thomas Sullivan The second section Philosophical Considerations probes more deeply into the theoretical issues raised by the killing letting die controversy illustrating exceptionally well the dispute between two rival theories of ethics consequentialism and deontology It also includes a corpus of the standard thought on the debate by Jonathan Bennet Daniel Dinello Jeffrie Murphy John Harris Philipa Foot Richard Trammell and N Ann Davis and adds articles new to this edition by Bennett Foot Warren Quinn Jeff McMahan and Judith Lichtenberg

Clinical Bioethics James F. Drane, 1994-03 Medical practice is an inherently ethical enterprise More than ever before medical practice requires that medical professionals develop and exercise high ethical standards Health care practitioners who ignore basic concepts of medical ethics risk exposing their patients to serious harm and open themselves and their institutions to charges of malpractice Clinical Bioethics provides for the busy clinical professional a concise comprehensive treatment of the basics in this complex new field

When It's Right to Die Dick Westley, 1995 Can a good Catholic or a faithful Christian favor euthanasia Dick Westley here says yes and argues for an individual's right to choose when and how to die He critiques current cultural misperceptions of death and dying analyzes positions opposed to euthanasia and presents a justification for active voluntary euthanasia Westley believes that under certain circumstances euthanasia or assisted suicide is perfectly in accord with the highest ideals of the Christian faith Book cover

Some Choice George J. Annas, 1998 This book is a passionate critique of

the shallowness of choice rhetoric used to camouflage critical personal and public policy issues in contemporary debates in American medicine Our public discourse on life and death from health care to medical research and from risky behavior to assisted suicide is dominated by the market model of consumerism augmented by appeals to individual freedom In fact however in most cases there is no real choice left for individuals to make the important choices have been made by others and the illusion of choice fosters complacency Knee jerk libertarianism leads to a superficial consumer culture and life choices valued only by their monetary value Some Choice uses the cases of cloning drive through deliveries emergency medicine genetic privacy human experimentation tobacco control and physician assisted suicide among others to suggest ways in which we can break through our vapid and superficial public discourse on life and death issues and begin to engage in a public dialogue that enriches our lives and society rather than cheapens them George Annas is one of the most widely recognized names in current bioethics debates His goal in this new book is to help open a national and international dialogue that sees the search for universal human rights as valuable and international cooperation to define protect and promote them as central to life

Bioethics of Nonexistence Leonard Tumaini Chuwa, 2020-08-03 The greatest violence and violation of human life is legalization of its disposability and annihilation based on its condition Such killing whether of self or another depicts absolute contradiction and betrayal of the very hypothesis of humanity It manifests absolute failure to provide due care and that is inhuman Human life is who we are It is the basis of any argument for human rights There cannot be a right to terminate the existence of the rights bearer Such a right contradicts the possibility of its own existence There cannot be dignity in terminating the one in whom dignity resides There can only be indignity in killing a person The paradox of legalization of euthanasia and assisted suicide represents humanity turned on itself It is endorsement of existential nihilism and objectification of human life It is the beginning of the end of humanhood This book is a critical ethical exploration of mind sets around euthanasia and assisted suicide to provide clarity sobriety and objectivity The book is really about ontology of human life Dr Leonard Tumaini Chuwa is a Catholic priest and scholar working for Ascension as director of spiritual care for the state of Florida Dr Chuwa is certified by the National Association of Catholic Chaplains NACC Chuwa has bachelor of arts degrees in philosophy and theology master of arts degree in theology and religious studies from John Carroll Jesuit University in Cleveland Ohio and a doctor of philosophy degree in bioethics and health care ethics from Duquesne University in Pittsburgh Pennsylvania Chuwa is a distinguished public speaker on different bioethical issues His first book titled African Indigenous Ethics in Global Bioethics Interpretation of Ubuntu was published by Springer Academic Publishing as the first book in a new global bioethics series Father Chuwa also authored Bioethical False Truths Egotistic and Relativistic Autonomy vs Christian and Ubuntu Relational Autonomy
