E International Relations:

International History and International Relations Andrew J. Williams, Amelia Hadfield, J. Simon Rofo, 2012-08-06 This innovative new textbook seeks to provide undergraduate students of international relations with valuable and relevant historical context bridging the gap and offering a genuinely interdisciplinary approach Each chapter integrates both historical analysis and literature and applies this to an international relations context in an accessible fashion allowing students to understand the historical context in which these core issues have developed The book is organised thematically around the key issues in international relations such as war peace sovereignty identity empire and international organisations Each chapter provides an overview of the main historical context theories and literature in each area and applies this to the study of international relations Providing a fresh approach this work will be essential reading for all students of international relations and international relations theory The United States Catalog Mary Burnham, Carol Hurd, 1928 *Understanding Popular Culture and World Politics in the Digital Age* Laura J. Shepherd, Caitlin Hamilton, 2016-05-20 The practices of world politics are now scrutinised in a way that is unprecedented with even those previously or conventionally assumed to be disengaged from international affairs being drawn into world politics by social media Interactive websites allow users to follow election results in real time from the other side of the world and online mapping means that the world out there is now available on your mobile phone *Understanding Popular Culture and World Politics in the Digital Age* engages these themes in contemporary world politics to better understand how digital communication through new media technologies changes our encounters with the world Whether the focus is digital media social networking or user generated content these sites of political activity and the artefacts they produce have much to tell us about how we engage world politics in the contemporary age This volume represents the starting point of a dialogue about how digital technologies are beginning to impact the research and practice of scholars and practitioners in the field of International Relations with the collection of cutting edge essays dealing specifically with the intertextuality of world politics and digital popular culture This book will be of use to International Relations research academics and critically engaged publics interested in the core themes of global politics subjectivity militarism humanitarianism civil society organisation and governance The book also employs theories and techniques closely associated with other social science disciplines including political theory sociology cultural studies and media studies The Postcolonial World Jyotsna G. Singh, David D. Kim, 2016-10-04 The *Postcolonial World* presents an overview of the field and extends critical debate in exciting new directions It provides an important and timely reappraisal of postcolonialism as an aesthetic political and historical movement and of postcolonial studies as a multidisciplinary transcultural field Essays map the terrain of the postcolonial as a global phenomenon at the intersection of several disciplinary inquiries Framed by an introductory chapter and a concluding essay the eight sections examine Affective Postcolonial Histories Postcolonial Desires Religious Imaginings Postcolonial

Geographies and Spatial Practices Human Rights and Postcolonial Conflicts Postcolonial Cultures and Digital Humanities Ecocritical Inquiries in Postcolonial Studies Postcolonialism versus Neoliberalism The Postcolonial World looks afresh at re-emerging conditions of postcoloniality in the twenty first century and draws on a wide range of representational strategies cultural practices material forms and affective affiliations The volume is an essential reading for scholars and students of postcolonialism

Turning Points Holger Janusch,Witold Mucha,Julia Schwanholz,Alexander Reichwein,Daniel Lorberg,2023-12-18 Turning Points Challenges for Western Democracies in the 21st Century centers around the strikingly under researched concept of turning points and its application in political science including various theories fields and sub disciplines The chapters provide theoretical discussion and conceptual clarity by distinguishing a set of turning points at different analytical levels Based on a wide range of case studies the authors illustrate where when and how different types of turning points occur or not against the backdrop of current challenges in and for Western democracies The conceptual and empirical variety of the volume allows scholars and practitioners in policymaking to develop and apply their own frameworks when dealing with turning point dynamics

Ethical Security Studies Jonna Nyman,Anthony Burke,2016-03-02 At a time of grave ethical failure in global security affairs this is the first book to bring together emerging theoretical debates on ethics and ethical reasoning within security studies In this volume working from a diverse range of perspectives poststructuralism liberalism feminism just war securitization and critical theory leading scholars in the field of security studies consider the potential for ethical visions of security and lay the ground for a new field ethical security studies These ethical visions of security engage directly with the meaning and value of security and security practice and consider four key questions Who or what should be secured What are the fundamental grounds and commitments of different security ethics Who or what are the most legitimate agents providers or speakers of security What do ethical security practices look like What ethical principles arguments or procedures will generate and guide ethical security practices Informed by a rich understanding of the intellectual and historical experience of security the contributors advance innovative methodological analytical political and ethical arguments that represent the cutting edge of the field This book opens a new phase of collaboration and growth that promises to have great benefits for the more humane effective and ethical practice of security politics This book will be of much interest to students of critical security studies ethics philosophy and international relations

From Huntington to Trump Jeffrey Haynes,2019-09-19 This book argues the clash of civilizations first explored by Bernard Lewis and Samuel Huntington three decades ago ideologically informs right wing populist politicians in the United States and Europe as well as the policies of the United Nations in relation to the Muslim world

The ethics of researching the far right Antonia Vaughan,Joan Braune,Meghan Tinsley,Aurelien Mondon,2024-05-07 At a time when far radical and extreme right politics are becoming increasingly mainstream globally sometimes with deadly consequences research in these fields is essential to understand the most effective ways to combat these dangerous ideologies Yet engaging with texts and movements that do

physical and verbal violence raises a number of urgent ethical issues Until recently this has remained understudied as scholarship on the far right rarely delves explicitly and critically into the ethics of research This book seeks to remedy this significant gap in an otherwise extensive and growing literature Originating from a workshop series in 2020 in which an international group of academics at various career stages shared the ethical challenges and best practices they had developed in their research this edited collection draws together insights from these ongoing conversations offering urgent critical reflections on key ethical issues

The Strategic Options of Middle Powers in the Asia-Pacific Chien-Wen Kou, Chiung-Chiu Huang, Brian Job, 2022-06-23 This book analyses the responses of middle powers in the Asia Pacific toward the contemporary great powers rivalry of the United States and China through specific cases studies of South Korea Australia Japan India Taiwan and Vietnam Presenting local perspectives from multiple middle powers as they face the task of maintaining the international order in light of the recent competition between China and the United States it further develops theories of foreign policy analyses forming a systematic framework through initiating crucial concepts including reluctant hedging economic statecraft and strategic position taking The contributions also provide an in depth examination of the contemporary geo politics of the region including the impact of both the Trump and Biden administrations Beijing's Wolf Warrior diplomacy cross strait relations with Taiwan and the influences of Japan Vietnam Australia and South Korea revealing that regional middle powers do indeed exert influence on the direction of regional cooperation in the Asia Pacific Providing comprehensive studies of many regional powers in the Asia Pacific this will be a valuable resource for scholars and students of International Politics Asian Politics Asian Studies as well as policy makers on Asia Pacific relations

Towards Rethinking Politics, Policy and Polity in the Anthropocene Hans Günter Brauch, 2025-02-24 Humankind faces two anthropogenic threats to its survival that are closely linked The first is the end of the Holocene and the start of the Anthropocene which was marked by the test of a nuclear bomb on 16 July 1945 In the prevailing peace and security narrative nuclear weapons and the other country bloc or alliance pose a perceived threat to humankind's survival In the Anthropocene narrative we are the threat through our way of life and the burning of fossil fuels The start of the Anthropocene coincides with a change in the international order with the setting up of the UN and the Bretton Woods Institutions Three stages of this order are distinguished the Cold War bipolarity the post Cold War era unipolarity and the end of the rule based global liberal order multipolarity on 24 February 2022 In this book ten multidisciplinary perspectives discuss complexity Anthropocene geopolitics peace and security discourses and the debate on the Anthropocene planetary boundaries complex crises and integrative geography in the Anthropocene governance and politics and the Patriocene and gender Both existential threats for humankind are illustrated by cover photos of the first nuclear weapons test on 16 July 1945 and by Category 5 Hurricane Otis an extreme weather event impacting on Acapulco in Mexico on 25 October 2023 The Anthropocene as a new epoch of Earth history coincides in 1945 with a change in the international order In the security and peace narrative the other and

nuclear weapons pose an existential threat in the Anthropocene narrative This dual existential change requires a rethinking of politics policy and polity In the social sciences the Anthropocene is being discussed from multidisciplinary perspectives geography political science and peace security and gender studies This is an open access publication **Foreign Policy** Steve Dunne Smith (Tim Hadfield, Amelia Kitchen, Nicholas Smith, Steve), 2024 *Kautilya's Arthashastra* Medha Bisht, 2019-08-16 This book examines in detail the strategic relevance of the Arthashastra Attributed to the fourth century B C this classical treatise on state and statecraft rests at the intersection of political theory and international relations Adopting a hermeneutic approach the book discusses certain homologies related to concepts such as power order and morality Underlining the conceptual value of the Arthashastra and classical texts such as Hitopdesha and Pancatantra this volume highlights the non western perspectives related to diplomacy and statecraft It shows how a comparative analysis of these texts reveals a continuity rather than a change in the styles tactics and political strategies The book also showcases the value these ancient texts can bring to the study of contemporary international relations and political theory This volume will be of interest to students scholars and teachers of political studies Indian political thought and philosophy South Asian studies political theory and international relations **In the Shadow of Mistrust** Mahmood Monshipouri, 2022-05-27 Since the 1979 Iranian Revolution the normalisation of relations between Iran and America has appeared unrealistic if not inconceivable given that the Iranian state has vigorously pursued an anti American ideology This account of US Iranian relations examines the efficacy of external pressure such as sanctions as well as domestic grassroots reform movements within the Islamic Republic The Obama presidency marked a rare high point in the Washington Tehran relationship as negotiations between the two countries and other powers produced an unprecedented nuclear deal the Joint Comprehensive Plan of Action However the Trump administration's unilateral withdrawal from the JCPOA and re imposition of new sanctions in pursuit of maximum pressure had devastating economic consequences undermining the Iranian middle class which has consistently been the voice of political moderation and supported Iran's integration into the global economy Crucially sanctions have also driven Iran further into the arms of China while rendering it an even more recalcitrant and aggressive adversary Monshipouri's central conviction is that negotiations are pivotal to dismantling the mistrust that has long characterised US Iranian relations and to seeking détente between Iran and its Arab neighbours a critical priority since gradual US withdrawal from the region is all but certain **Senate Committee System** United States. Congress. Senate. Temporary Select Committee to Study the Senate Committee System, 1976 Emotional Amoral Egoism Nayef R.F. Al-Rodhan, 2022-01-01 What makes us who we are Are we born good or evil Do we have free will What drives our behaviour and why Can technology change what it means to be human In this thoroughly revised second edition of *Emotional Amoral Egoism* Professor Nayef Al Rodhan demonstrates the impact of our innate predispositions on key issues from conflict inequality and transcultural understanding to Big Data fake news and the social contract However it is the societies we live

in and their governance structures that largely determine how we act on our innate predispositions. Consequently Al Rodhan proposes a new and sustainable good governance paradigm which must reconcile the ever present tension between the three attributes of human nature: Emotional, Amoral, Egoism and the nine critical needs of human dignity. This book is a perfect resource for enlightened readers, academics and policy makers interested in how our innate instincts and tendencies shape the world we live in and how the interplay between neurophilosophy and policy can be harnessed for pragmatic and sustainable peace, security and prosperity solutions for all at all times and under all circumstances. *Routledge Handbook of Media, Conflict and Security* Piers Robinson, Philip Seib, Romy Frohlich, 2016-11-10. This Handbook links the growing body of media and conflict research with the field of security studies. The academic sub field of media and conflict has developed and expanded greatly over the past two decades. Operating across a diverse range of academic disciplines, academics are studying the impact the media has on governments pursuing war, responses to humanitarian crises and violent political struggles and the role of the media as a facilitator of and a threat to both peace building and conflict prevention. This handbook seeks to consolidate existing knowledge by linking the body of conflict and media studies with work in security studies. The handbook is arranged into five parts: Theory and Principles; Media, the State and War; Media and Human Security; Media and Policymaking within the Security State; New Issues in Security and Conflict and Future Directions. For scholars of security studies, this handbook will provide a key point of reference for state of the art scholarship concerning the media security nexus. For scholars of communication and media studies, the handbook will provide a comprehensive mapping of the media conflict field. The War for Syria Raymond Hinnebusch, Adham Saouli, 2019-07-09. Examining the international dimensions of the Syrian conflict, this book studies external factors relating to the Uprising. It explores the involvement of outside powers and the events' impact both on regional and international level. Syria was widely perceived to be essential to the regional power balance; hence it was a valued prize to be fought over. The book examines the impact of global and regional powers in propelling the conflict. In Syria, it looks at the motives and strategies of the key regional and international actors: Hizbollah, Palestinians, Iran, Qatar, Saudi Arabia, US, Russia, EU and analyses the impact of the Syrian conflict on key relations between regional states: Turkey-Syria, Turkey-Iran, Iraq-Syria. Finally, several chapters treat the impact on Syria of international sanctions and the Responsibility to Protect doctrine. This book follows on to *The Syrian Uprising: Domestic Origins and Early Trajectory* edited by Raymond Hinnebusch and Omar Imady, 2018. Subsequent volumes will examine the later evolution of the conflict. Taking an innovative and interdisciplinary approach that seeks to capture the full complexity of the phenomenon, this book contributes significantly to our understanding of the Syrian conflict and will therefore be a valuable resource for anyone studying Middle Eastern Politics.
