T. A. Hoffmann's Musical Writings** E. T. A. Hoffmann, 2003 This book offers a long awaited opportunity to assess the thought and influence of one of the most famous of all writers on music and the musical links with his fiction Containing the first complete appearance in English of Kreisleriana it reveals a masterpiece of imaginative writing and whose profound humour and irony can now be fully appreciated      **E.T.A. Hoffmann and the Serapiontic Principle** Hilda Meldrum Brown, 2006 A comprehensive investigation of Hoffmann s Serapiontic Principle and what it implies for his oeuvre Critics have long sought to elucidate the multilayered texts of E T A Hoffmann by applying to them a particular set of theories and ideas that Hoffmann himself subsumed under the heading of the Serapiontic Principle This principle which Hoffmann expounded in his collection of tales Die Serapionsbr der involves a complex intersection of the artist s faculties of imagination and perception However Hoffmann s mode of presenting his theory presents an unusual problem rather than the usual form of an essay or treatise he adopts a fictional framework complete with a set of characters this in turn sets up a number of perspectives on the theory itself This combination of literary and theoretical elements presents a severe challenge to critics and not surprisingly there has been little agreement about what the principle actually entails or its wider relevance With the principle as prime focus this book provides detailed analysis of a broadly based selection of Hoffmann s texts both theoretical and literary It offers new perspectives on his narrative invention and the range of his theoretical interests thus redefining his place at the forefront of German Romanticism Hilda Meldrum Brown is Professor of German at St Hilda s College University of Oxford      **Catalogue of Books Added to the Library of Congress** ,1861      **E. Warren, 1997-05-22 provides readers with a much needed cross cultural and multidisciplinary perspective on ecofeminist activism and scholarship Iris a very important contribution to the literature on ecological feminism Ethics I think the unique collection of so many different perspectives will help to push readers out of their disciplinary views and work to bring theory and practice together in meaningful ways an excellent resource for scholars and teachers Teaching Philosophy Here the potential strengths and weaknesses of the growing ecofeminist movement are critically assessed by scholars in a variety of academic disciplines and vocations including anthropology biology chemical engineering education political science recreation and leisure studies sociology and political organizing      *Virtuosity of the Nineteenth Century* Susan Bernstein, 1998 A study of the reflexive relationship between music and language in the nineteenth century this book maintains a discrete historical focus while drawing upon an aesthetic going back to problems of epic delivery in ancient Greece Reading Romantic reactions to music together with linguistic and economic conflicts brought about by the rise of journalism the book pursues the tension around performativity that both connects and separates music and writing Franz Liszt is the organizing figure in this detailed study of music in Heine and Baudelaire The acclaimed virtuoso functions both as a metaphor for a musical mode of enunciation and as a historical referent This dual status dramatizes the struggle at the heart of nineteenth century aesthetics between poetic self reference and realism's efforts to report the world accurately Debates surrounding Liszt pinpoint the conflict between the view that locates sense in the process of its production and the contrary judgment privileging a stable meaning over the exteriority of its execution This dualism also articulates the problematic relationship of the individual to general social and linguistic structures The book's analyses of nineteenth century theories of correspondence along with the thematization of the other arts point to the limitations of analogy the impossibility of a general theory of art and a crisis of identity that is a shared non identity that can be the only common property among different discourses genres and media Virtuosity of the Nineteenth

Century offers a fresh reading of relatively marginal texts by canonical figures addressing questions about the relation between the arts the possibility of critical description and the function of performativity **The Methodist Review** ,1897

**Between the Yeshiva World and Modern Orthodoxy** Marc B. Shapiro,2022-03-17 Compellingly and authoritatively written this biography illuminates the dilemmas that Europe s Jews have faced over the past century The discussion of the inner struggles of one of twentieth century Judaism s most enigmatic religious leaders a figure who became a central ideologue of modern Orthodoxy despite his traditional training in a Lithuanian yeshiva elucidates many institutional and intellectual phenomena of the Jewish world and especially in pre war Europe that have so far received little attention
