The Early Chartered Companies (A.D. 1296-1858) George Cawston, Augustus Henry Keane, 1896 **The Early Chartered Companies** George Cawston, 2015-07-12 Excerpt from *The Early Chartered Companies A D 1296 1858* In November 1893 on the invitation of the late Sir Charles Mills I delivered a lecture on South Africa at the Imperial Institute and I included in that lecture a brief account of some of the early Chartered Companies My friend Mr J H Reddan of the Foreign Office kindly assisted me in preparing the lecture and we decided that the result of our researches should also be used as materials for a systematic treatise on the subject We found however that the manuscripts in the British Museum alone without referring to the foreign libraries and private collections were far too extensive to be dealt with by either of us even had Mr Reddan's services not been required in connection with the urgent question of the boundary between British Guiana and Venezuela About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Early Chartered Companies (A.D. 1296-1858)* George Cawston, Augustus Henry Keane, 2017-03-27 The first study of all the great English chartered trading and colonizing companies that were incorporated before the 19th century Originally published London Edward Arnold 1896 Frontispiece xi 329 pp A study of the inner workings of early chartered companies especially in their direct connection to the rise and expansion of British commercial and political power between 1296 and 1858 Describes regulated and joint stock companies and such ventures as the Hanseatic League The Russia Company The Eastland Company The Turkey Levant Company the Hudson Bay and East India Companies and other British ventures in India Africa the Caribbean and North America With a thorough index and an appendix containing examples of early charters **Early Chartered Companies** Cawston George, 2019 **A Brief Prehistory of the Theory of the Firm** Paul Walker, 2018-05-11 The theory of the firm did not exist in any serious manner until around 1970 Only then did the current theory of the firm literature begin to emerge based largely upon the work of Ronald Coase and to a lesser degree Frank Knight It was work by Armen Alchian Robert Crawford Harold Demsetz Michael Jensen Benjamin Klein William Meckling and Oliver Williamson among others that drove the upswing in interest in the firm among mainstream economists This accessible book provides a valuable overview of the prehistory of the firm Spanning an impressive timeline it delves into Antiquity the Medieval era the pre classical economics period and the 19th and 20th centuries Next the book traces the theoretical contributions from pre classical classical and neoclassical economics It will be illuminating reading for students and researchers of the history of economic thought industrial organization microeconomic
