## **Gettysburg Revisited A Novel Of Time Travel:**

**Gettysburg Revisited** Shand Stringham, 2011-03-10 In the early 2000s in a top secret facility located deep beneath Carlisle Barracks Pennsylvania years of research on time travel technology by the United States military finally comes together But the initial excitement soon wanes when a startling reality surfaces and captures a moral dilemma Suddenly everyone is speculating what will happen if they start changing history As the team led by United States Army Colonel Barton Stauffer begins testing the new time technology using the Civil War Battle of Gettysburg as an experimental bed they focus on placing a defensive temporal capability in position before other global powers can develop time travel capabilities of their own But harnessing time proves challenging and Stauffers team soon discovers that their technology is inadequate As incredible temporal energies are mistakenly unleashed army officers begin disappearing into brilliant flashes of light Stauffer soon realizes his team is doing much more than just observing battlefields through observation portals they possess the ability to reset history for all humankind All it takes is a flip of a switch to return to the beginning and halt the project Now Stauffer must decide which is more important leaving the past as it was or saving the future *History Quest* Shand Stringham, 2014 In a top secret research facility buried deep beneath Carlisle Barracks Pennsylvania a Department of Defense project has developed the ability to travel through time The project's primary purpose is to set up a defensive posture against a hostile power that could also develop time travel and use it against the United States Colonel Barton Stauffer is assigned to lead an elite team on a parallel mission one sent in pursuit of humanity's lost history In their quest to recover lost knowledge about man's past they make startling discoveries that will challenge their dedication to the mission Current understanding of the history of mankind is filled of holes gaps and distortions Some of the most important elements of the human experience have been deliberately excised from history History is written by the victors and this elite team has been sent to correct the damage The true history of conquered peoples has been pillaged and rewritten time and time again While the team's fundamental mission is to explore the past and develop an undistorted understanding of human history they may also come to the conclusion that what lies hidden in the past is sometimes best left unexamined The team faces a gut wrenching dilemma as it attempts to balance the noble purposes of their history quest with the painful discovery of proof of mankind's past inhumanity to man
