Children's Books for Schools and Libraries ,1967      *My Schoolhouse Is a Ghost Town* Sunni Ali,2016-03-16 This book is dedicated to the terrific educators that inspire uplift and challenge young people to achieve their personal goals and aspirations The journey of being a teacher is truly arduous and challenging which makes it difficult for some teachers to remember why they entered this field Teachers dedicate a great portion of their lives giving back to society and despite their sincerest efforts policyholders business leaders and certain members of the public do not appreciate the work educators perform on a consistent basis Although it is very telling how many public schools have been closed and minority teachers dismissed from current reform other schools and teachers will soon feel its wrath unless there is an educational push back and demand for a return to community schooling This book speaks to not only how an educator continues to utilize creative methodology to reach youth but also navigate through the harshness imposed by current school reform initiatives *My Schoolhouse is a Ghost Town* further challenges educators and parents to commit to activism as currently demonstrated by members of the Chicago Teacher Union and parent progressive organizations to fight for reform under this current system and create their own school models Otherwise more urban public schools along with black and brown teachers will become ghost as unrealistic demands continue to impact this great profession      **The Holy Ghost Got a New Dance** Willie

Hudson,2016-11-09 In the midst of oppression poverty violence and insufficiency where survival takes priority over salvation what theology speaks to this condition Black Theology and Holy Hip hop are important to understand and promote especially in their relationship to inner city ministry and spiritual development primarily in regards to black and brown youth This work investigates the complex crises experienced among our black and brown youth with special focus on the inner city Black Theology and Holy Hip hop is less about people and more about institutions the dichotomy between the institution of the church and the social institution of music that affects young people s mindset This book will examine how a double edged sword of Black Theology and Holy Hip hop will cut a new faith in inner city ministry that will initiate freedom against personal pain and systemic oppression on the one hand and free minds from self hate and submissive control on the other

These findings arguments and pronouncements seem to point very clearly in the direction of regarding science education as a study of scientific practice This book presents a comprehensive research based account of how such a vision could be assembled into a coherent curriculum and presented to students in ways that are meaningful motivating and successful The author takes what might be described as an anthropological approach in which scientists are studied as a socially economically and politically important community of people This group has its own distinctive language body of knowledge investigative methods history traditions norms and values each of which can be studied explicitly systematically and reflectively This particular approach was chosen for the powerful theoretical overview it provides and for its motivational value especially for students from sociocultural groups currently under served by science education and under represented in science The book which is both timely and important is written for teachers student teachers graduate students in education teacher educators curriculum developers and those responsible for educational policy It has the potential to impact very substantially on both pre service and inservice science teacher education programmes and to shift school science education practice strongly in the direction currently being advocated by prominent science educators
