Gifts And Commodities:

Gifts and Commodities C. A. Gregory, 2015-03-15 Christopher A Gregory's *Gifts and Commodities* is one of the undisputed classics of economic anthropology. On its publication in 1982 it spurred intense ongoing debates about gifts and gifting, value, exchange, and the place of political economy in anthropology. *Gifts and Commodities* is at once a critique of neoclassical economics and development theory, a critical history of colonial Papua New Guinea, and a comparative ethnography of exchange in Melanesian societies. This new edition includes a foreword by anthropologist Marilyn Strathern and a new preface by the author that discusses the ongoing response to the book and the debates it has engendered, debates that have become more salient in our evermore neoliberal and globalized era. *Gifts and Commodities* Chris A. Gregory, 2015

Gifts and Commodities James G. Carrier, 2005-07-25 Brings new perspectives to issues of class and the self in western culture. Looks at how and why people buy things, concentrates on social processes of shopping, consumerism, and gift giving. **Gifts and Commodities**, 2015 *Gifts and Commodities* Chris A. Gregory, 1982

Gifts and commodities Chris Gregory, 1982 *Wine and The Gift* Peter Howland, 2022-12-09 Wine as commodity has received enormous academic attention while wine as gift has largely eluded significant dedicated research and analysis. This book addresses this lacuna with insights from leading scholars from a range of disciplines exploring wine as gift in different moments of history across a variety of production to consumption contexts and across societies and cultures. The book draws on examples from Australia, China, Croatia, France, Italy, Moldova, United Kingdom, and Aotearoa New Zealand. Through the analysis of wine as gift, indeed often as a commodity-gift hybrid, this book significantly enhances understandings of the intertwined economic, societal, political, and moral aspects of wine and its production, exchange, and consumption. *Wine and the Gift: From Production to Consumption* will appeal to researchers and undergraduates from a wide range of disciplines including sociology, history, anthropology, cultural studies, geography, marketing, and business studies. *A Handbook of Economic Anthropology, Second Edition* James G. Carrier, 2012-01-01 Acclaim for the first edition. The volume is a remarkable contribution to economic anthropology and will no doubt be a fundamental tool for students, scholars, and experts in the sub-discipline. Mao Mollona, *Journal of the Royal Anthropological Institute*. This excellent overview would serve as an excellent text for advanced undergraduate and graduate-level classroom use. Because of the clarity, conciseness, and accessibility of the writing, the chapters in this volume likely will be often cited and recommended to those who want the alternative and frequently culturally comparative perspective on economic topics that anthropology provides. Highly recommended. All academic levels libraries. K F Rambo, *Choice*. The first edition of this unique Handbook was praised for its substantial and invaluable summary discussions of work by anthropologists on economic processes and issues on the relationship between economic and non-economic areas of life and on the conceptual orientations that are important among economic anthropologists. This thoroughly revised edition brings those discussions up to date and includes an important new section

exploring ways that leading anthropologists have approached the current economic crisis Its scope and accessibility make it useful both to those who are interested in a particular topic and to those who want to see the breadth and fruitfulness of an anthropological study of economy This comprehensive Handbook will strongly appeal to undergraduate and post graduate students in anthropology economists interested in social and cultural dimensions of economic life and alternative approaches to economic life political economists political scientists and historians Bulletin ,1922 Mediated by Gifts ,2016-11-21

Mediated by Gifts is a collection of essays by top scholars on gifts giving and the social and political forces that shaped these practices in medieval and early modern Japan The international assemblage of authors provides new insights into these deeply ingrained practices The essays focus on topics such as shogunal visits to shrines and temples exchanges between the imperial house and the shogun a physician and his patients the shogun his vassals his and his ladies the merchant class and the shogunal government and between scholars and their cosmopolitan circle of contacts This virtually unexplored view of Japanese history provides new tools to better elucidate both historical and modern Japan Contributors are Lee Butler Andrew Goble Kaneko Hiraku Laura Nenzi Ozawa Emiko Cecilia Segawa Siegle and Margarita Winkel *A Spiritual Economy* Thomas R. Gift Giving Cele Otnes, Richard Francis Beltramini, 1996 Gift Giving brings together 21 scholars from a variety of disciplines including consumer behavior communications and sociology who are dedicated to the understanding of what motivates gift selection presentation and incorporation of a gift into a person's life The text explores the role of values in gift exchange the influence of ethnic generational and subcultural differences in gift exchange how gifts to the self are manifested and new directions and topics in gift giving In these essays gift giving occasions are probed for the meanings that can be illuminated with respect to this pervasive yet not always positive phenomenon For anyone interested in gift giving behavior this volume should prove both enlightening and provocative
