Dying Facing The Facts Series In Death Dying And Bereavement:

Dying Hannelore Wass,1995 **The Spiritual Lives of Bereaved Parents** Dennis Klass,2013-11-12 This book describes how parents lose find or relocate spiritual anchors after the death of their child It describes how ordinary people reconstruct their lives after their foundations have shifted and how they make sense of their world after one of their centers of meaning has been removed Klass grounds his descriptions of spirituality in his scholarly study of comparative religions and in his two decades studying the lives of bereaved parents He argues that continuing bonds with their dead children can give parents a new transcendent reality Deceased children like saints or bodhisattvas can offer a bridge between the profane and sacred worlds support parents as they find meaning in a world made forever poorer and bind together a community adequate to parents grief The book reports Klass s clinical practice and his work as advisor to a bereaved parents self help support group **Widow to Widow** Phyllis R. Silverman,2004-11-23 Widow to Widow shares the experiences of widows who have found comfort and continuity in mutual help and community support programs In the second edition of her pioneering text Phyllis Silverman brings the success of the original widow to widow program into the 21st century preparing a new generation of community leaders clergy counselors hospice staff social workers and the widowed themselves to organize and implement mutual help programs **Death Attitudes and the Older Adult** Adrian Tomer,2018-10-24 This innovative and informative new text bridges the fields of gerontology and thanatology Facing Death: Images, Insights, and Interventions Sandra L. Bertman,2016-01-08 Facing Death is a unique handbook for educators healthcare professionals and counselors It uses materials from the visual arts excerpts from poetry fiction drama and examples from popular culture to sensitize the reader to important universal issues confronting the dying and those responsible for their care Perspectives On Loss John H. Harvey,2014-01-14 Losses are integral to the human experience but they sometimes unfold in subtle ways Loss is not just about death but can encompass a number of situations such as those gradual losses experienced by the elderly loss of vision mental capacity or hope Intended to stimulate ideas and research in the new area of psychological aspects of loss this sourcebook collects the writing of a set of distinguished scholars representing psychology and related fields The author presents a case for a broadly construed field of loss both personal and interpersonal that would complement other fields such as death and dying traumatology and stress and coping No other volume is as comprehensive in its treatment of this intriguing subject The book begins with an introduction to the concept of loss and discusses the definition of the term and the salience of the topic in the general public in the 1990s Contributors were chosen to represent some of the most interesting current work on different types of loss and adaptation in the whole of the social and behavioral sciences Contents cover such diverse subjects as loss in intimate relationships disability chronic illness genocide sports unemployment and homelessness The book concludes with a commentary section on loss theory and research Representations of Death Mary Bradbury,2012-11-12 Drawing upon a rare and highly original ethnography of contemporary mortuary practices

Representations of Death takes the reader through the medical bureaucratic commercial and ritual aspects of death Going behind the scenes at hospitals funeral parlours crematoria and cemeteries as well as holding poignant in depth interviews with bereaved women Bradbury has been able to illuminate the very different perspectives of the deathwork professional and the grieving relative Illustrated with stunning photographs this fascinating book makes a significant contribution to the growing literature in death studies

Bereavement and Support Marylou Hughes, 2013-11-12 In the early 1970s bereavement support groups were almost unknown However the obvious benefits of the group process for recovery the mutual support and understanding that helps mourners to a better outlook has created a demand for people who can organise and facilitate these groups Addressing the basis and need for support groups for the bereaved this book presents a theoretical overview examines benefits and variety of support groups structured and unstructural special populations and specifics for initiating organising and running them such as publicity It differs from other treatments in that theory and practice are moulded into a how to approach with all procedures presented equally for the widest range of choices Also included is a comprehensive book bibliography for adults children children s helpers and parents This text is intended to be of use as a resource for professionals in the field of thanatology including psychologists psychiatrists gerontologists therapists group counsellors hospice workers educators funeral home directors home health employees hospital staff and volunteer organisations that work with survivors

Healing with Death Imagery Anees Ahmad

Sheikh, Katharina Sheikh, 2018-10-26 Sages of various traditions and ages have reiterated that we must incorporate the inevitability of death into the fabric of life to experience life's breadth and beauty Imagery is an important tool in dealing with death and this book is devoted to exploring many facets of this fascinating issue It begins with an overview of ancient and modern approaches to the use of death imagery for therapeutic purposes including a discussion of its possible benefits Chapter 2 specifically exploring Stephen Levine's contributions in this area shows that only by opening up to the reality of death can one make living a conscious process of growth A number of excellent imagery based experiential exercises are discussed in detail Chapter 3 demonstrates the significance of confronting death through mental and artistic images it discusses six examples of death related religious and existential works of art Recently there has been an upsurge of interest in near death experiences and their salutary effects on attitudes beliefs and values Of particular interest here are increases in spirituality concern for others an appreciation of life and an enhanced sense of meaning and purpose in life Chapter 4 presents a detailed critical overview of this field of investigation with special emphasis on the transformatory after effects of near death experiences Of all the major religions in the world Buddhism is at the forefront of exploring the topic of death and dying and developing specific meditative exercises for confronting death Chapter 5 presents an in depth treatment of death imagery in Buddhist thought Exploring the use of hypnosis for death rehearsal Chapter 6 continues the theme that confrontation with death can lead to healthful consequences A variation of this technique hypnotic suicidal rehearsal is also discussed it seems to be effective for use with clients who are contemplating suicide Case examples clarify the details of the process Over the years several clinicians have proposed the use of imagery for reconstructing death related events and thereby facilitating the grieving process for individuals who are experiencing symptoms rooted in unfinished grieving Chapter 7 gives an exhaustive account of the use of imagery for unresolved grieving including a number of case histories

Researchers have perhaps devoted more time and energy to the investigation of death anxiety than any other death related topic Chapter 8 reviews the literature on death anxiety and death imagery and demonstrates a core connection between the two phenomena The authors claim that death imagery has the potential not only to ameliorate death anxiety but also to lead to a more authentic existence In Chapter 9 the authors explain how death imagery can be used constructively in death education they present several practical suggestions and specific guided imagery exercises The volume closes with a presentation of a detailed death imagery experiential exercise aimed at encountering death to enhance our appreciation of life The reader will notice this thread running steadily throughout the book This comprehensive book devoted to the role of death imagery in health and growth perhaps the first of its kind will be helpful in changing the rather sinister view of death prevalent in our culture to a deeper appreciation for its enhancing potential *Lives and Deaths* Antoon A.

Leenaars,2023-01-06 Edwin S Shneidman is recognized as the central figure in the field of suicidology His writings have taught countless psychologists and other health professionals about the complexity of suicide death and bereavement This collection of his writings spans the entirety of his career and offers a unique insight into the development of his thinking The material is broken down into five parts Psychological Assessment Logic Melville and Murray Suicide and Death and each section includes an introduction by the editor *Lives and Deaths* is a vital resource for those in suicidology and related fields allowing the reader to sample a variety of selections from Shneidman s work in one compact volume The book is ideal for classroom use by upper level undergraduates and graduate students in the history of suicidology or as a supplemental text in a general suicidology course It is also of interest to clinicians treating high risk patients as well as a more general audience including psychologists social workers crisis counselors and suicide prevention specialists *Suicide Prevention* David
