Schumann's Music and E. T. A. Hoffmann's Fiction John MacAuslan, 2019-01-24 Four of Schumann's great masterpieces of the 1830s Carnival Fantasiestücke Kreisleriana and Nachtstücke are connected to the fiction of E T A Hoffmann In this book John MacAuslan traces Schumann's stylistic shifts during this period to offer insights into the expressive musical patterns that give shape energy and individuality to each work MacAuslan also relates the works to Schumann's reception of Bach Beethoven Novalis and Jean Paul and focuses on primary sources in his wide ranging discussion of the broader intellectual and aesthetic contexts Uncovering lines of influence from Schumann's reading to his writings and reflecting on how the aesthetic concepts involved might be used today this book transforms the way Schumann's music and its literary connections can be understood and will be essential reading for musicologists performers and listeners with an interest in Schumann early nineteenth century music and German Romantic culture

E. T. A. Hoffmann, Cosmopolitanism, and the Struggle for German Opera Francien Markx, 2015-11-02 In this first monograph on E T A Hoffmann and opera Francien Markx examines Hoffmann's writings on opera and the challenges they pose to established narratives of aesthetic autonomy the search for a national opera and Hoffmann's biography Markx discusses Hoffmann's lifelong fascination with opera against the backdrop of eighteenth century theater reform the creation of national identity contemporary performance practices and musical and aesthetic discourses as voiced by C M von Weber A W Schlegel Heine and Wagner among others The book reconsiders the traditional view that German opera followed a deterministic trajectory toward Wagner's Gesamtkunstwerk and reveals a cosmopolitan spirit in Hoffmann's operatic vision most notably exemplified by his controversial advocacy for Spontini in Berlin

Dances of the Self in Heinrich von Kleist, E.T.A. Hoffmann and Heinrich Heine Lucia Ruprecht, 2017-03-02 Lucia Ruprecht's study is the first monograph in English to analyse the relationship between nineteenth century German literature and theatrical dance Combining cultural history with close readings of major texts by Heinrich von Kleist E T A Hoffmann and Heinrich Heine the author brings to light little known German resources on dance to address the theoretical implications of examining the interdiscursive and intermedial relations between the three authors literary works aesthetic reflections on dance and dance of the period In doing so she not only shows how dancing and writing relate to one another but reveals the characteristics that make each mode of expression distinct unto itself Readings engage with literary modes of understanding physical movement that are neglected under the regime of eighteenth century aesthetic theory and of classical ballet setting the human frail and expressive body against the smoothly idealised neoclassicist ideal Particularly important is the way juxtaposing texts and performance practice allows for the emergence of meta discourses about trauma and repetition and their impact on aesthetics and formulations of the self and the human body Related to this is the author's concept of performative exercises or dances of the self which constitute a decisive force within the formation of subjectivity that is enacted in the literary texts Joining performance studies with

psychoanalytical theory this book opens up new pathways for understanding Western theatrical dance s theoretical historical and literary continuum Music and Literature in German Romanticism Siobhán Donovan, Robin Elliott, 2004 During the Romantic era many in Germany believed music to be the highest art form representing the quintessence of Romanticism and able to express what could not be expressed in words This book studies the work of composers during this period and examines the cross over between music and literature *Grove's Dictionary of Music and Musicians* George Grove, 1927

The New Shudder Christian Kämpf,2024-09-16 It is a new shudder but not an old fear Jean Paul s sentence contains an aesthetic of the fantastic in nuce It is based not least on the philosophy of Friedrich Heinrich Jacobi and aims at the essence of Romanticism In addition to works by Mozart Beethoven Schumann and Wagner the Romantic magic opera by Spohr Weber and Marschner are placed in the centre of interest against this background as well as the music aesthetic discourse accompanying them which was led by Tieck Hoffmann and Horn A B Marx Brendel and Pohl are analysed Contrary to the tradition of musicological research which if not taboo at least trivialised the fantastic K mpf arrives at a new understanding of musical Romanticism according to which it does not lose its affiliation with modernity and its impact on the present because of the fantastic but only gains it

Robert Schumann and Richard Wagner as Music Critics Tobias Taddeo Hermans,2024-01-29 The music reviews of Robert Schumann and Richard Wagner are central documents of 19th century German musical culture This book takes a closer look at the way these texts were written and explores the significant contributions Schumann and Wagner made to the discourse of musical appraisal To that effect the author raises fundamental questions that have thus far remained unaddressed What textual features characterize the critical writings How do Schumann and Wagner understand

their roles as critics of music And in what way do they reach out to the reader Rather than understanding these critical writings exclusively as a gateway to the compositions and musical aesthetics of Schumann and Wagner this book analyzes the texts through the lens of pragmatics narratology and discourse analysis Using this interdisciplinary perspective the author proposes to understand Schumann and Wagner within the broader medial and discursive context of German Kritik He challenges the dominant narrative that brands Schumann and Wagner as elitist Romantic critics demonstrating instead that they actively encourage their readers to form their own judgements This volume is an indispensable resource for scholars of German literature periodicals and music alike **E.T.A. Hoffmann** Richard von Schaukal,1923 *The Naked Heart* Peter Gay,1996 In investigating the inner life of the whole Victorian bourgeoisie that vast class in Emile Zola s words reaching from the common people to the aristocracy Gay turns also to the letters and confessional diaries of both obscure and prominent men and women Jacket Music Sketches Friedemann Sallis,2015-01-29 The term music sketch relates to the vast variety of documents that are used by composers to work out a musical technique or idea and to prepare their work for performance or publication These documents can often provide crucial insights into authorship biography editorial practice and musical analysis This introduction provides students and scholars with the knowledge and skills they need to embark on research projects involving the study of composers working documents Presenting examples of the compositional process over a 400 year period it includes a selection of detailed case studies on how sketches were created and the techniques that were used such as transcription and the sorting of loose leaves Numerous illustrations of manuscripts and autographs many of which have never been published before show how these vital documents can be used to better understand compositional processes

Die Musikerfiguren E.T.A. Hoffmanns Yvonne Hörmann,2008 *Beethoven in the Age of Schiller, Goethe, and Kant* Hans-Joachim Hinrichsen,2025-01-15 Beethoven wrote music for times that were changing His musical aesthetics played an active part in the exchange of thought that shaped the revolutionary culture of his lifetime He put aesthetic expectations to the test and we still hear his message today In *Beethoven in the Age of Schiller Goethe and Kant Music for Modern Times* Hans Joachim Hinrichsen explores twelve themes that reflect Beethoven s compositional development and thought The result is a fascinating new portrait of the composer and his music and a panorama of the world of thought norms and values that he navigated Here we discover insight into Beethoven s use of literature his aspirations for purely instrumental music and how he transformed contemplation into aesthetic expression We learn not only how his contemporaries misunderstood him but also how those in the know did get his message Was Beethoven philosophical and poetic Are his last compositions a critique of pure music are they transcendental Hinrichsen argues that we must get beyond our stereotypes of Beethoven if we want to truly understand him Music and Transcendence Ferdia J. Stone-Davis,2016-03-03 *Music and Transcendence* explores the ways in which music relates to transcendence by bringing together the disciplines of musicology philosophy and theology thereby uncovering congruencies between them that have often been obscured Music has the capacity to take one outside of

oneself and place one in relation to that which is other This other can be conceived in an absolute sense insofar as music can be thought to place the self in relation to a divine other beyond the human frame of existence However the other can equally well be conceived in an immanent or secular sense as music is a human activity that relates to other cultural practices Music here places the self in relation to other people and to the world more generally shaping how the world is understood without any reference to a God or gods The book examines how music has not only played a significant role in many philosophical and theological accounts of the nature of existence and the self but also provides a valuable resource for the creation of meaning on a day to day basis

Music, Culture and Social Reform in the Age of Wagner James Garratt, 2010-01-21 Challenging received views of music in nineteenth century German thought culture and society this 2010 book provides a radical reappraisal of its socio political meanings and functions Garratt argues that far from governing the nineteenth century musical discourse and practice the concept of artistic autonomy and the aesthetic categories bequeathed by Weimar classicism were persistently challenged by alternative models of music's social role The book investigates these competing models and the social projects that gave rise to them It interrogates nineteenth century musical discourse discussing a wide range of manifestos championing musical democratization or seeking to make music an engine for the transformation of society In addition it explores institutions and movements that attempted to realize these goals and compositions by Mendelssohn Lortzing and Liszt as well as Wagner in which the relation between aesthetic and social claims is programmatic
