### **Film and the Chinese Medical Humanities**

Vivienne Lo,Chris Berry,Guo Liping,2019-12-06 Film and the Chinese Medical Humanities is the first book to reflect on the power of film in representing medical and health discourse in China in both the past and the present as well as in shaping its future Drawing on both feature and documentary films from mainland China the chapters each engage with the field of medicine through the visual arts They cover themes such as the history of doctors and their concepts of disease and therapies understanding the patient experience of illness and death and establishing empathy and compassion in medical practice as well as the HIV AIDs epidemic during the 1980s and 90s and changing attitudes towards disability Inherently interdisciplinary in nature the contributors therefore provide different perspectives from the fields of history psychiatry film studies anthropology linguistics public health and occupational therapy as they relate to China and people who identify as Chinese Their combined approaches are united by a passion for improving the cross cultural understanding of the body and ultimately healthcare itself A key resource for educators in the Medical Humanities this book will be useful to students and scholars of Chinese Studies and Film Studies as well as global health medical anthropology and medical history

Medieval Chinese Medicine Christopher Cullen,Vivienne Lo,2004-06-02 In recent decades various versions of Chinese medicine have begun to be widely practised in Western countries and the academic study of the subject is now well established However there are still few scholarly monographs that describe the history of Chinese medicine and there are none at all on the medieval period This collection represents the kind of international collaboration of research teams centres and individuals that is required to begin to study the source materials adequately The first book in English to discuss this fascinating material in the century since the Dunhuang library was discovered the text provides a unique and fascinating interpretation of Chinese medical history

### **Metaphor and Meaning** Constance A. Cook,Christopher J. Foster,Susan Blader,2024-07-01

In Metaphor and Meaning scholars from China the United States and Europe draw on Sarah Allan s groundbreaking application of conceptual metaphor theory to the study of early Chinese philosophy and material culture Conceptual metaphor theory treats metaphors not just as linguistic expressions but as fundamental structures of thought that define one s conceptual system and perception of reality To understand another culture s worldview then hinges upon identifying the

right metaphors through which it then becomes possible to navigate between shared and unshared experiences The contributors pursue lines of argument that complement enhance or challenge Allan s prior investigations into these root metaphors of early Chinese philosophy whether by explicitly engaging with conceptual metaphor theory or more indirectly by addressing meaning construction in a broader sense Like Allan s interpretative works Metaphor and Meaning interrogates both transmitted traditions and newly unearthed archaeological finds to understand how people in early China thought about the cosmos society and themselves

**Myth and Identity in the Martial Arts** Alexis McLeod,2024-12-24 Myth and Identity in the Martial Arts Creating the Dragon is a study of the role of myth and ideology in the formation of social identity focusing on a variety of communities of practice involving the martial arts in East Asian and Western history Alexis McLeod argues that myths of the martial arts should not be understood as falsehoods created as means of legitimizing modern practices but should instead be understood as narratives that enable individuals and communities to formulate social identities and to accord meaning to their practices This book covers six influential sources of myth and identity formation in the history of martial arts early Chinese and Indian philosophy the formation bushido thought in the Edo period of Japan Republican era Chinese conceptions of nationhood and physical culture Western contributions and the innovations of Bruce Lee African American conceptions of martial arts as a response to oppression in the twentieth century and the contemporary ideologies of mixed martial arts

**The Early Chinese Empires** Mark Edward Lewis,2010-10-30 In 221 bc the First Emperor of Qin unified the lands that would become the heart of a Chinese empire Though forged by conquest this vast domain depended for its political survival on a fundamental reshaping of Chinese culture With this informative book we are present at the creation of an ancient imperial order whose major features would endure for two millennia The Qin and Han constitute the classical period of Chinese history a role played by the Greeks and Romans in the West Mark Edward Lewis highlights the key challenges faced by the court officials and scholars who set about governing an empire of such scale and diversity of peoples He traces the drastic measures taken to transcend without eliminating these regional differences the invention of the emperor as the divine embodiment of the state the establishment of a common script for communication and a state sponsored canon for the propagation of Confucian ideals the flourishing of the great families whose domination of local society rested on wealth landholding and elaborate kinship structures the demilitarization of the interior and the impact of non Chinese warrior nomads in setting the boundaries of an emerging Chinese identity The first of a six volume series on the history of imperial China The Early Chinese Empires illuminates many formative events in China s long history of imperialism events whose residual influence can still be discerned today

**Celestial Lancets** Gwei-Djen Lu,Joseph Needham,2012-11-12 Using modern knowledge to shed light on ancient techniques this text examines two of the earliest therapeutic techniques of Chinese medicine acupuncture and moxibustion Acupuncture is the implantation of very thin needles into subcutaneous connective tissue and muscle at a great number of different points on the body s surface

moxibustion is the burning of Artemisia tinder moxa either directly on the skin or just above it For 2500 years the Chinese have used both techniques to relieve pain and to heal a wide variety of illnesses and malfunctions Providing a full historical account of acupuncture and moxibustion in the theoretical structure of Chinese medicine Doctors Lu and Needham combine it with a rationale of the two techniques in the light of modern scientific knowledge      **Routledge Handbook of Early Chinese History** Paul R. Goldin, 2018-05-15 The study of early China has been radically transformed over the past fifty years by archaeological discoveries including both textual and non textual artefacts Excavations of settlements and tombs have demonstrated that most people did not lead their lives in accordance with ritual canons while previously unknown documents have shown that most received histories were written retrospectively by victors and present a correspondingly anachronistic perspective This handbook provides an authoritative survey of the major periods of Chinese history from the Neolithic era to the fall of the Latter Han Empire and the end of antiquity AD 220 It is the first volume to include not only a comprehensive review of political history but also detailed treatments of topics that transcend particular historical periods such as Warfare and political thought Cities and agriculture Language and art Medicine and mathematics Providing a detailed analysis of the most up to date research by leading scholars in the field of early Chinese history this book will be useful to students and scholars of Chinese history Asian archaeology and Chinese studies in general
