

Gibbs's Reflective Model Template

Gibbs's Reflective Cycle (Gibbs, 1998) helps you to practice your reflective skills. Use the template to reflect on a recent event in which you demonstrated one of the Employability Competencies.

I am writing this reflection to provide evidence
of.....competency

Description: what happened?

Feelings: what were you thinking and feeling?

Evaluation: what was good and bad about the experience?

Analysis: what sense can you make of the situation?

Conclusion: what else could you have done?

Action plan: if it arose again, what would you do?

Academic Skills in Early Childhood Education and Care Ita

Kennelly, Meera Oke, 2024-07-20 This book supports the development of academic personal and professional skills for students of Early Childhood Education and Care ECEC It aims to demystify aspects of learning and writing practices and can be used by students as a practical resource to enhance their engagement with education and to support their success on their programmes The book guides students in a range of areas to help their academic development including study techniques time management managing groupwork understanding assessment requirements academic writing and how to work effectively within a digital learning environment In addition the book features a strong personal and professional development dimension which enables readers to engage in a process of self inquiry as part of their learning This self inquiry is important to understanding assumptions about learning and can help students to explore their prior educational experiences and to identify their particular motivations and challenges The book extends this self inquiry to support the development of reflective practice which is key to enhancing students learning and to enabling the ongoing professional development and practice of the ECEC educator While many ECEC undergraduate programmes offer academic guidance to students there is a gap for a more embedded academic support which is discipline specific and therefore more closely attuned to the needs of the ECEC student and the emerging needs of the sector In addition to providing a resource for students and practitioners this book can also serve as a useful resource for lecturers in the ECEC discipline Its accompanying site contains downloadable templates from the book which provide a range of activities and prompts suitable for engaging students in thinking about their learning and writing about their professional practice

The Nurse Mentor's Handbook: Supporting Students in Clinical Practice 3e Danny Walsh, 2020-11-18 Out with the old and in with the new Looking back on my nurse training I can vividly recall clinical placements where I was mentored by inspirational dynamic enthusiastic and nurturing mentors However I can equally recall the toxic mentors that ruined clinical placements and made me question whether I wanted to be a nurse at all Supporting students in clinical practice is a privilege and getting it right is essential Danny Walsh's book demystifies the NMC's SSSA document and provides a real insight into the meaning of the word mentorship along with practical advice on how to be a practice supervisor Mike Parker is an Associate Professor in Emergency Nursing at the University of York UK This is a real world book that offers practice supervisors and assessors detailed guidance on their new role within the context of the recent NMC 2018 standards for supervision and assessment of students It gives information on the background policy to the standards and what is expected of nurses who take on these new roles The book provides the theoretical base and practical guidance on facilitating good quality learning experiences for students and on teaching assessment and providing evidence of learning It is the ideal handbook for nurses since it addresses all the issues that you are likely to encounter whilst supporting students with an easy reference system and great practical examples Professor Fiona Irvine Emeritus Professor in Nursing University of Birmingham A book worth recommending and adopting as a core text for modules especially those in teaching learning and assessment for new mentors practice assessors

and supervisors It can be a resource for nurses returning to study international students and anyone involved in clinical guidance teaching such as practice education coordinators facilitators and nominated persons It would also be suitable for lecturers delivering core modules for Diploma Degree Masters and Dissertations Leontia Hoy Course Director Bsc Hons Graduate Diploma Post Graduate Diploma Specialist Practice School of Nursing Queens University Belfast This popular book is an essential companion for supporting and supervising student nurses in clinical practice The book examines the theory of supervision and the underlying principles of teaching and assessment in nurse education and includes case studies tools and interventions that can be used in clinical practice Key areas covered include The new NMC standards for supervision and assessment as well as the history and politics of student nurse mentorship Effective practice supervision the role of the supervisor and the practicalities such as the importance of forming effective working relationships and communication skills Clear guidance on best teaching and assessment practice with practical examples and techniques An examination the importance and methodology of giving good feedback Fostering successful placement experiences and supporting a range of students with varying learning needs including best practice in supporting a struggling student Fully updated in this third edition the book simplifies the theory delivering practical guidance on best practice in student support and includes insights from students and supervisors Danny Walsh was a mental health nurse for over 40 years and a senior nurse lecturer for more than 15 He has published widely in the fields of nurse education and dementia care *Simplify Your Study* Peter Lia, 2020-02-12 This innovative book provides clear and straight forward strategies which help students to understand the conventions of academic assignments and what lecturers expect from their work Simplify Your Study is organised around nine core units which focus on the sticking points of university study including organisation and planning reading and note making strategies producing essays critical thinking delivering presentations and preparing for exams Packed with tried and tested strategies for success this essential resource will help students of all disciplines and levels to achieve their academic potential Study Skills for Paramedics, E-Book Helen Cobb, Emily Forster, 2021-12-10 As paramedicine shifts to an all graduate profession in the UK this new title is designed specifically to support students to meet the rigorous academic requirements of becoming a paramedic Study skills has a direct and forthright approach and covers everything students need to succeed in academia from academic writing to referencing essays and presentations exams and reflective practice Its interesting case studies are ideally suited to students of this hands on profession Written by paramedics for paramedics this book will help students of all academic levels quickly find their feet and excel on their journey toward working in an ambulance or healthcare setting Written by experienced paramedicine lecturers and tailored to the academic requirements of students Conforms to Universal Design for Learning making the text accessible for everyone Written simply and without waffle ideal for practically minded students Healthcare examples throughout put learning into context **Nursing Models for Nursing Students - E-Book** Teresa Chinn, Sally Wilson, 2025-05-19 Welcome to nursing Nursing Models for Nursing

Students is part of the New Notes on Nursing series a series created especially for you the nursing student at the start of your nursing journey Nursing models serve as blueprints for delivering high quality evidence based care that is patient centred culturally competent and ethically sound As such they are fundamental to every facet of nursing and a good knowledge of them is a requirement for every student nurse This book focuses primarily on how models can support nursing practice From the first steps in your nursing journey to final year and beyond Nursing Models for Nursing Students is your essential guide The New Notes on Nursing series presents key topics in a highly accessible way without making assumptions about your existing knowledge Concise volumes cover critical and emerging areas including cultural competence digital professionalism politics and activism clinical placements and more The aim is to make content engaging and easy to absorb focussing just on what is essential for success on your course Using a relaxed writing style and an all new design these unique books provide personal guidance from experts and students alike So when you are in a hurry and need a study companion you can trust reach for New Notes on Nursing Case studies and storytelling approaches help link theory to practice Graphics icons and mind maps enhance the text and aid visual learners Written to show how specific knowledge relates to wider concepts Learning is presented in small self contained sections for quick location and digestion Terms and concepts are explained using simple language Content is clearly mapped to NMC standards Accompanying videos provide additional insights and bring study to life

Cases on Responsive and Responsible Learning in Higher Education Alias, Nor Aziah, Syed-Aris, Sharipah Ruzaina, Hashim, Hamimah, 2023-02-24 Responsive learning and responsible learning have not been considered and utilized appropriately in the past especially in light of the post pandemic higher education landscape A discussion and consideration of the different elements that make up responsive and responsible learning such as agency agility mindfulness connectedness resourcefulness active and seamless learning and regulation of learning are required to advance the field of higher education *Cases on Responsive and Responsible Learning in Higher Education* encompasses cases on responsive and responsible learning in higher education and focuses on how the concepts are translated into practice by instructors learning facilitators and higher education managers The book also deals with various practicalities and strategies and adopts existing models and frameworks for 21st century learning Covering key topics such as learner agency mindfulness and personalized learning this reference work is ideal for administrators policymakers researchers academicians practitioners scholars instructors and students
