Mission & Culture: The Louis J. Luzbetak Lectures Stephen B. Bevans, 2012 The Oxford Handbook of Mission Studies Kirsteen Kim, Knud Jørgensen, Alison Fitchett-Climenhaga, 2022-04-18 The Oxford Handbook of Mission Studies represents more than a century of scholarship related to the theology history and methodology of the propagation of Christian faith and the engagement of Christians with cultures religions and societies worldwide It contains more than 40 articles by experts from different disciplinary and ecclesial perspectives who are from all continents It not only offers a broad overview of key approaches and issues in mission studies but it also highlights current trends and suggests future developments The Handbook builds on renewed interest in mission studies this century generated by recent key statements on mission from ecumenical evangelical Catholic and Orthodox sources and by a spate of academic works on the topic Western church leaders now apply insights from foreign missions such as inculturation liberation interfaith work and power encounter to today s multicultural societies Meanwhile there are new initiatives in mission from the Majority World where most Christians live so that sending is not only from the west to the rest but from everywhere to everywhere Therefore this volume aims to reflect the voices of the receivers of mission as well as its protagonists and to raise awareness of new movements In a time of growing recognition of religions more generally this work examines and theorizes the missional dimensions of the world's largest religion its agendas growth outreach role in public life effect on cultures relevance for development and its approaches to other communities **How to Get Along With Your Church** George B. Thompson, 2013-01-01 By culture George B Thompson Jr means not just racial ethnic economic or regional culture but also a congregation s way of doing things its history customs conventions and procedures In order to launch and maintain a successful ministry pastors and other church leaders must come to grasp that unique culture of their parish They must develop a culture capital within their congregations meaning that they invest themselves deeply in how their church does its work and goes about its ministries The author presses clergy to answer such questions as How well do I know what I m

getting into and Have I been adopted yet and even Is it time to move on The book is ideal for pastors in solo settings but pastors in multiple staff settings will also find the author's insights helpful *Gift and Response* Carolyn Thomas,1994 Presents contemporary issues as content for a modern spirituality based on Scripture *Missions amidst Pagodas* Peter Thein Nyunt,2014-05-14 For almost 200 years Protestant missionaries have endeavoured to communicate the gospel to Burmese Buddhists in Myanmar However Christianity among this people group is still regarded as a potted plant with former Buddhists being separated from both their community and culture In this publication Peter Thein Nyunt a former Buddhist monk examines past and current approaches of the Protestant church among Burmese Buddhists Based on his findings the author develops a contextual missiological strategy with a relevant christological message and ecclesiological structure

After-Mission, Beyond Evangelicalism Najib George Awad, 2020-11-04 After Mission touches on on three questions The first question is about self perception and identity formation strategies and the various views that we have on the Protestants relation to their Arab Muslim Middle Eastern context This will furnish the basis for the ensuing parts as it will provide the study with coherent and analytical readings of the cultural situation and intellectual views of the Arab Eastern Protestants in their Sitz im Leben from the perspective of the hermeneutic tripod of identity othering relationality The second question about the theological dimension asks what kind of a theological discourse do the Protestants need to develop and how do they need to re form their own theological heritage in such a manner that will allow them to heal the historical enmity and suspicion towards them from the Eastern Orthodox Christian community in the region How should they re think their traditional view on theological subjects common to them and the Eastern Christian tradition Traditional Protestant attitudes towards Eastern Christianity which have been viewed through the lens of evangelicalism and mission have failed to grant the Protestants an influential and truly indigenous presence in the region and have led to them being constantly accused of being a foreign transplant and alien entity In the light of this it is clear that going beyond missiology and traditional evangelicalism demands re thinking certain mutually shared but contentious theological subjects from a new perspective with the focus on more constructive attempts to build fellowship through dialogue Finally the third question touches on the Protestants future in the Arab Muslim Middle East by viewing this inquiry from a broader perspective that is related to all the Middle Eastern Christian communities presence and role in the Muslim majority context It will discuss questions about the kind of presence and role that Christians Protestants included should hope to play in order to guarantee survival and a continuing presence in the region The question of identity formation and the managing of difference without trapping it in the mud of otherizing and self otherizing will also be tackled so that the theological dimension is integrated with the broader multifaceted contextual one Saved by Faith and Hospitality Joshua W. Jipp, 2017-08-21 Too few Christians today says Joshua Jipp understand hospitality to strangers and the marginalized as an essential part of the church s identity In this book Jipp argues that God's relationship to his people is fundamentally an act of hospitality to strangers and

that divine and human hospitality together are thus at the very heart of Christian faith lipp first provides a thorough interpretation of the major biblical texts related to the practice of hospitality to strangers considering especially how these texts portray Christ as the divine host who extends God's welcome to all people Jipp then invites readers to consider how God s hospitality sets the pattern for human hospitality offering suggestions on how the practice of welcoming strangers can quide the church in its engagement with current social challenges immigration incarceration racism and more the Call Jeffrey Swanson, 1995-06-29 Drawing on the personal histories of one hundred evangelical missionaries in Ecuador Echoes of the Call explores the lives of missionaries as sociological strangers In a study as compelling as it is insightful Jeffrey Swanson illustrates how missionaries are distanced not only from their culture and homeland but also from their own era The work begins with Swanson's interpretation of how his own experience as a child of missionaries shaped the viewpoint of estrangement from which the book is written Swanson renders the formation of a missionary identity as the rhetorical composition of a personal testimony in which life stories of separation loss conflict and conversion are melded symbolically with historical mission themes of sacrifice heroism spiritual militancy and divine calling Relying on his subjects own narratives he traces the missionaries personal journeys as their sense of calling first emerges and then as it must be reinterpreted to account for unexpected ambiguous and often disillusioning experiences in their host country Swanson argues that missionaries are marginal individuals who use their vocation creatively to produce a meaningful social world and who use rhetoric effectively to maintain that world for themselves and for supporters in their home countries An informative and nuanced study this book is a significant contribution to present sociological literature concerning missionaries and American evangelicals Anyone interested in the sociology of religion culture and folklore will find Echoes of the Call to be a valuable and intriguing work Ministry in an Oral Culture Tex Sample, 1994-01-01 This book will help pastors educated in the literate culture of academia bridge the cultural gap between them and those in their congregations who verbalize their faith in proverbs and stories Indeed recent studies have shown that a large number of Americans including many in the churches are not functionally literate Tex Sample says they live and work in an oral culture **Mission and Catechesis** Phan, Peter C., 2015-07-31 The Pietist Vision of Christian Higher Education Christopher Gehrz, 2014-12-05 Bringing together leading scholars associated with Bethel University this volume presents a distinctively Pietist approach to Christian higher education which emphasizes the transformation of the whole person for service to God and neighbor

**Comprehending Mission** Stanley H. Skreslet,2012 This comprehensive book offers a concise overview of the development of missiology over the last century an introduction to its characteristic methodologies and insight into the kinds of questions missiologists typically bring to the study of their subject From back cover <u>Contextualizing Theology in the South Pacific</u> Randall G. Prior,2019-07-10 This book engages with a widespread contemporary dilemma how do we do theology in a context where the cultures of the people are oral and not literate The nations of the South Pacific from their

missionary beginnings inherited an approach to theology that was dominated by Western cultural categories The global movement of contextualization began to impact upon Pacific churches in the 1960s and challenged this inherited approach Significant changes have resulted but the dilemma has remained The dominant approach is still one that is defined by and better suited to literate cultures The consequence is that theology remains an alien enterprise distant from the life of the local churches and distant from the hearts and minds of the indigenous people In facing the dilemma this book exposes the fundamental differences between primary oral cultures and primary literate cultures and identifies the key factors that lie at the heart of the theological problem By addressing each of these in turn the author then paves the way ahead He offers a methodology for theology that is rooted within the oral cultural context of the South Pacific and potentially in any context where oral cultures are the norm The consequences for theology and for theological education are profound the Journey Anthony J. Gittins CSSp,2001-12-13 Bread for the Journey stakes out new territory for all who are engaged in the many facts of mission whether in the urban deserts of the modern United States working with AIDS sufferers in rural Uganda or trying to make sense of conflicting data on church world and gospel This book makes available a wealth of mission experience bread for the journey for all those engaged in ecclesial work whether in the First World or the Third While many speak about the importance of wisdom theology as something there ought to be more of Gittins simply does wisdom theology Bread for the Journey bridges the boundaries between spirituality and theology mission and anthropology It will transform your view of Christian vocation Mission for Diversity Elochukwu E. Uzukwu, 2015 In this multi cultural and multi religious world do Christian mission studies have any place in the academic realm What theological possibilities and practical insights did Vatican II create for missiology In this book experts from Africa Asia the Caribbean Europe the Middle East and North America respond to these questions They explore mission as intercultural studies and they adopt decolonial thinking to privilege knowledges from the margins of our wounded world Themes such as interculturality interreligious dialogue and inculturation justice peace building and reconciliation expand Vatican II to celebrate mission among and with the nations Series Interreligious Studies Vol 8 Subject Religious Studies Christianity A Double Vision Hermeneutic Samuel Hio-Kee Ooi, 2015-02-26 The aim of this thesis is to unfold the multilayered intersubjective experience of the author himself a Chinese pastor The author postulates himself as the subject in whom the said experience was evident so that it can be analyzed and interpreted Theauthor argues for a cultural linguistic experience of shi as the locus at which the intersubjective experience takes place He then shows that such experience embodies a Chinese Christian s two texts inheritance and argues that it is through unfoldingor revealing of such experience that the nature of his relationship with them can be demonstrated How to Get Along with Your Pastor George B. Thompson Jr., 2015-06-10 This is a book that tries to help church members step back and see the bigger picture An effective pastoral relationship is more like a couple who loves to dance together or a band that plays wonderful music If we spend too much time on the details without remembering that we want to dance and sing

our church will not have much to offer to Gospel ministry This book then seeks to blaze a new trail for churches who want to thrive in authentic faithful ministry with their pastor In other words it is a book for churches who want to get along with their pastor It is a book for church deacons elders and other officers who recognize that a healthy trusting respectful relationship between pastor and congregation becomes the foundation for the church s vitality It is a book designed to give you the tools you need to help your pastor become the best pastor that she or he can be with you Statistics show that approximately thirteen hundred American pastors unwillingly leave their congregations each month These sudden changes have negative long term effects on both the pastor and the congregation Thompson believes it is extremely important to find practical easy to understand ways to train pastors and churches on how to approach disagreement much more constructively and shows how to do so in this new book
