Giorgio Colli:

How Nietzsche Came in From the Cold Philipp Felsch, 2024-03-07 Nietzsche's reputation like much of Europe lay in ruins in 1945. Giving a platform to a philosopher venerated by the Nazis was not an attractive prospect for Germans eager to cast off Hitler's shadow. It was only when two ambitious antifascist Italians Giorgio Colli and Mazzino Montinari began to comb through the archives that anyone warmed to the idea of rehabilitating Nietzsche as a major European philosopher. Their goal was to interpret Nietzsche's writings in a new way and free them from the posthumous falsification of his work. The problem was that 10 000 barely legible pages were housed behind the Iron Curtain in the German Democratic Republic where Nietzsche had been officially designated an enemy of the state. In 1961 Montinari moved from Tuscany to the home of actually existing socialism to decode the real Nietzsche under the watchful eyes of the Stasi. But he and Colli would soon realize that the French philosophers making use of their edition were questioning the idea of the authentic text and of truth itself. Felsch retraces the journey of the two Italian editors and their edition telling a gripping and unlikely story of how one of Europe's most controversial philosophers was resurrected from the baleful clutch of the Nazis and transformed into an icon of postmodern thought.

Philosophy Imprisoned Sarah Tyson, Joshua M. Hall, 2014-07-30 Western philosophy's relationship with prisons stretches from Plato's own incarceration to the modern era of mass incarceration. *Philosophy Imprisoned: The Love of Wisdom in the Age of Mass Incarceration* draws together a broad range of philosophical thinkers from both inside and outside prison walls in the United States and beyond who draw on a variety of critical perspectives including phenomenology, deconstruction and feminist theory and historical and contemporary figures in philosophy including Kant, Hegel, Foucault and Angela Davis to think about prisons in this new historical era. All of these contributors have experiences within prison walls: some are or have been incarcerated, some have taught or are teaching in prisons and all have been students of both philosophy and the carceral system. The powerful testimonials and theoretical arguments are appropriate reading not only for philosophers and prison theorists generally but also for prison reformers and abolitionists.

Apocalypse of Truth Jean Vioulac, 2021-05-03 We inhabit a time of crisis: totalitarianism, environmental collapse and the unquestioned rule of neoliberal capitalism. Philosopher Jean Vioulac is invested in and worried by all of this, but his main concern lies with how these phenomena all represent a crisis within and a threat to thinking itself. In his first book to be translated into English, Vioulac radicalizes Heidegger's understanding of truth as disclosure through the notion of truth as apocalypse. This apocalypse of truth works as an unveiling that reveals both the finitude and mystery of truth, allowing a full confrontation with truth as absence. Engaging with Heidegger, Marx and St Paul as well as contemporary figures including Giorgio Agamben, Alain Badiou and Slavoj Žižek, Vioulac's book presents a subtle, masterful exposition of his analysis before culminating in a powerful vision of the abyss of the deity. Here Vioulac articulates a portrait of Christianity as a religion of mourning, waiting for a god who has already passed by a form of ever-present eschatology whose end has always already

The Lonelinesses of Modernity Denis Newiak, 2025-01-03 Modernity presents itself as an age of increasing social disintegration secularization and rationalization urbanization and globalization individualization and digitalization make it difficult for communities today Modernity comes with desirable promises that make it attractive but it does not come free Its price is escalating modern loneliness Denis Newiak tells a cultural history of modernization that from industrialization to the late modern network society produces ever new and harsher experiences of loneliness

Aestheticism and the Philosophy of Death Giles Whiteley, 2017-12-02 Walter Pater best known as the author of *The Renaissance* 1873 and as Oscar Wilde's tutor and friend was a leading figure in European aestheticism and British fin de siècle culture Despite this he has received only limited critical attention and has tended to be read conservatively Drawing on Pater's unpublished manuscripts Giles Whiteley challenges this view of Pater as a closeted don who spend the remainder of his life regretting the excesses of his Renaissance Focusing on Pater's reading of the German idealist philosopher G W F Hegel Whiteley argues that Pater's response to both the philosophical and the ideological legacies of idealism was significantly more advanced than has been hitherto thought Presenting a persuasive new reading of the genre of the imaginary portrait Pater's most elusive form of writing the book paints a picture of Walter Pater as a truly revolutionary thinker Pater like Nietzsche during the same period breaks with the dialectic as a method Anticipating the radical critiques of ideology of post Hegelians such as Derrida and Deleuze Pater becomes a radical and transgressive thinker in his own right

Philosophers and Thespians Freddie Rokem, 2010 This book investigates the discursive practices of philosophy and theater performance on the basis of actual encounters between representatives of these two fields

Rethinking Emotion Rüdiger Campe, Julia Weber, 2014-07-28

What are emotions where do they originate and how are they brought into being While from antiquity to early modernity affects or passions were mostly conceived of as external physiological forces which act upon a passive subject modern conceptions generally locate emotions within the subject Drawing on the dichotomy of interiority exteriority as a complex interdependent relationship they mostly envision emotions as interior processes Contemporary conceptions of emotion from such different fields as human geography art history and cognitive sciences recently started to challenge this notion of internal emotions by developing alternative descriptions of externalized emotion This book reevaluates premodern modern and contemporary conceptions of affects passions and emotion by analyzing various historical manifestations of the discourse on emotion Unlike most previous research which especially in the German tradition often focused exclusively on the rise of the modern Romantic interiority without paying attention to the underlying dichotomy of interiority exteriority this study aims to explore the historical preconditions the internal logic and the possible shortcomings that inform our thinking on emotion

Artificial I's Eric Downing,2013-02-18 This study explores three works in which the protagonist undertakes to fashion a literary artwork out of himself Ovid's Ars Amatoria Kierkegaard's Diary of the Seducer and Thomas Mann's Felix Krull For each work particular attention is paid to the self-conscious interplay between the author's project of book making and the character's project of self making as well as to the effect of changing notions of self identity on the protagonist's attempt at life as literature For Felix Krull this includes a sustained analysis of Mann's incorporation and problematization of various Nietzschean models of aesthetics reality and self identity In Ovid and Kierkegaard this study also considers a related project the attempt to fashion a literary artwork out of another namely out of a woman

Artful Immorality - Variants of Cynicism Daniel Scott Mayfield,2015-09-14 When a term is overused it tends to fall out of fashion Cynicism seems to be an exception Its polytropic versatility apparently prevents any discontinuation of its application Everyone knows that cynicism denotes that which is deemed deleterious at a given time and every time will specify its toxicities the apparent result being the term's non specificity This study describes the cynical stance and statement so as to render the term's use scholarly expedient Close readings of textual sources commonly deemed cynical provide a legible starting point A rhetorical analysis of aphorisms ascribed to the arch Cynic Diogenes facilitates describing the design of cynical statements as well as the characteristic features of the cynical stance These patterns are identifiable in later texts generally labeled cynical above all in Machiavelli's Principe With recourse to the Diogenical archetype cynicism is likewise rendered describable in Gracian's Or culo manual Diderot's Le neveu de Rameau and Nietzsche's Posthumous Fragments This study's description of cynicism provides a phenomenon otherwise considered amorphous with distinct contours renders transparent its workings and tenders a dependable basis for further analyses

Heidegger in the Twenty-First Century Tziovani Georgakis,Paul J. Ennis,2015-03-02 The current volume is comparative and interdisciplinary and it provides a reflection on what thinking might become after Heidegger's philosophy Its aim is to critically expand the current field of research by presenting

unfamiliar and uncharted avenues that will guide and carry the Heidegger scholarship into the twenty first century By doing so it addresses fundamental questions in the Heideggerian scholarship including its problems restraints and future direction It also engages and broadens the increasingly disparate approaches to Heidegger s work whether those approaches are traditional in their employment of phenomenology and hermeneutics or whether they apply to Heidegger s thinking in new and surprising ways The first section of the volume emphasizes the importance of methodology for the future of Heidegger studies while the second section examines the historical ethical and vocal poetical in Heidegger s thought and draws conclusions relevant to the Heidegger scholar of today The final section demonstrates Heidegger s appeal to a variety of other discourses besides philosophy and the way his thinking could be creatively approached utilized and implemented in our century Contributions come from cutting edge scholars such as Babette E Babich Dermot Moran Fran ois Raffoul and Trish Glazebrook

From Hegel to Windelband Gerald Hartung,Valentin Pluder,2015-04-24 In the 19th century the history of philosophy becomes the history of a particular science Modern philosophical historiography is an ambivalent project On the one hand we find an affirmative concept of Bildung through tradition and historical insight on the other there arises a critical reflection on historical education in the light of an emerging critique of modern culture The book offers a comprehensive overview of the debate

Eric Voegelin and the Continental Tradition Lee Trepanier,Steven F. Mcguire,2011-02-14 Twentieth century political philosopher Eric Voegelin is best known as a severe critic of modernity Much of his work argues that modernity is a Gnostic revolt against the fundamental structure of reality For Voegelin Gnosticism is the belief that human beings can transform the nature of reality through secret knowledge and social action and he considered it the crux of the crisis of modernity As Voegelin struggled with this crisis throughout his career he never wavered in his judgment that philosophers of the modern continental tradition were complicit in the Gnostic revolt of modernity But while Voegelin s analysis of those philosophers is at times scathing his work also bears marks of their influence and Voegelin has much more in common with the theorists of the modern continental tradition than is usually recognized *Eric Voegelin and the Continental Tradition* *Explorations in Modern Political Thought* evaluates this political

philosopher one of the most original and influential thinkers of our time by examining his relationship to the modern continental tradition in philosophy from Kant to Derrida In a compelling introduction editors Lee Trepanier and Steven F McGuire present a review of the trajectories of Voegelin s thought and outline what often is portrayed as his derisive critique of modernity Soon however they begin to unravel the similarities between Voegelin s thought and the work of other thinkers in the continental tradition The subsequent chapters explore these possible connections by examining Voegelin s intellectual relationship to individual thinkers including Hegel Schelling Kierkegaard Heidegger and Gadamer The essays in this volume go beyond Voegelin s own reading of the modern philosophers to offer a reevaluation of his relationship to those thinkers In *Eric Voegelin and the Continental Tradition* Voegelin s attempt to grapple with the crisis of modernity becomes clearer and his contribution to the modern continental tradition is illuminated The book features the work of both established and emerging Voegelin scholars and the essays were chosen to present thoughtful and balanced assessments of both Voegelin s thought and the ideas of the other thinkers considered As the first volume to examine the relationship and surprising commonalities between Voegelin s philosophy and the continental tradition as a whole this text will be of interest not only to Voegelin disciples but to philosophers engaged by continental modernism and all disciplines of political philosophy Hegel, the End of History, and the Future Eric Michael Dale, 2014-08-14 This book offers an alternative analysis of Hegel s famous end of history detailing an alternative reading of Hegel on history
